# Addendum of Focussed Changes to the Pre-Submission Local Plan (Regulation 19)

Report Date:

10/02/2020

CHAPTER: Addendum of Focussed Sustainability Appraisal  
Changes to the Pre-Submission

## 26565 Object

**Respondent: Mr Kevin Craske [2712]**

**Agent: N/A**

Summary: All these proposals appear to token gestures pandering to the affluent areas of Brentwood. They show no joined up thinking, there are no explanations of traffic resolution unless you are in the Shenfield area of course. In my opinion they are poorly thought out and are simply not justifications but excuses for a bad plan which will be pushed through despite protests from residents and tax payers. It is in a mess still!

## 26620 Object

**Respondent: Mr Timothy Webb [5612]**

**Agent: N/A**

Summary: Object to all document particularly R25 and R26  
Not legally compliant as still contravenes Green Belt legislation and national policy; unsound as R25 and R26 changes grossly inadequate as fail to rectify destruction of Green Belt, loss of agricultural land, access issues on Redrose Lane, impact on school and medical facilities, minimal public transport, flood risk.  
Failure comply with Duty to Cooperate as local residents and elected representative concerns are disregarded.  
Proposed changes are superficial/more more radical reform required. Housing demand should be addressed with high density in and around Brentwood Town - blocks of flats and above shops. Executed effectively in Dagenham Heathway.

Change To Plan: Failure comply with Duty to Cooperate as local residents and elected representative concerns are disregarded.  
Proposed changes are superficial/more more radical reform required. Housing demand should be addressed with high density in and around Brentwood Town - blocks of flats and above shops. Executed effectively in Dagenham Heathway.

## 26678 Object

**Respondent: Ingatestone and Fryerning Parish Council (Ms Rosemary Spouge) [8811]**      **Agent: N/A**

Summary: We recognise that the amendments do not alter the Plan's spatial strategy but seek to respond to concerns in specific areas of the Borough by redistributing housing growth, and it is in that context that we write. Our last comprehensive comments were, on 3rd March 2016 (copy attached), we had not begun the evidence gathering for our Neighbourhood Plan, as our Neighbourhood Plan Advisory Committee was not convened until November 2017. The research on our own housing needs, relating to our existing 2,000 households and the requirements of our residents for the planning period the LDP covers, was only started in 2018.  
We had attempted to establish what the demand for housing is via Brentwood's own records but have not succeeded in obtaining a figure. Recently we have learnt that that your planning department policy team has been discussing local demand but they believe that the figure can only be based on the proposed development sites within the Regulation 19 Brentwood Local Plan Pre-Submission draft. Additionally this would include a figure for windfall sites expected in the area which would account for an additional 5%.  
In summary - the proposed housing for our Parish is not based on local demand, but rather on what a proposed development site could accommodate. Therefore the figure for our Parish would be R22 as the site and 57 dwellings for the yield, plus 5% for the Parish as a whole. Mountnessing Parish is adjacent to Ingatestone and Fryerning, and has been the subject of considerable new build housing in the last few years. In the current LDP a further development site is identified for 161 dwellings, amounting therefore to some 229 units that will be looking towards our Parish to meet much of its infrastructure needs, namely, pre-schools, schools, health services, parking, rail services etc. These figures are confirmed in Appendix 1 to your Addendum document.  
The LDP does also identify a site for Employment close to both the sites identified above (R21 and R22). The Parish would wish to work with Brentwood Borough Council and Mountnessing Parish Council to enable this site to provide some of the infrastructure needs essential to both local communities.

**26679 Object****Respondent: Mr Colin Holbrook [4759]****Agent: N/A**

Summary: Each item is different and must not be considered as a single representation. You must see each item and they have implications for multiple sites.

Change To Plan: Remove Sites R25 & R26 from the LDP. Reasons and detailed alternatives are specified in my actual multiple representations. The questions below refer to DPD, I assume this is a typo and you are referring to the LDP and have answered on that basis.

Legally Compliant?: No                      Duty to Co-operate?: No                      Sound?: No                      Tests: i, ii, iii                      Examination: No

Full Reference: O - 26679 - 4759 - Sustainability Appraisal - i, ii, iii

**26690 Object****Respondent: Mr Colin Holbrook [4759]****Agent: N/A**

Summary: SA Report Addendum 2.5.6 -refers to delivery of new homes alongside infrastructure, but NOTHING has been considered or planned for Blackmore. R25 & R26 should be removed entirely from the LDP and their allocation transferred to R01 unless an appropriate infrastructure improvement plan can be incorporated into the Plan to facilitate the development.

SA Report Addendum 2.11.3 - recognises that the existing planned reduction of 20 homes at R25/R26 is insufficient to affect the retention of agricultural land. To facilitate this objective R25 & R26 should be completely removed from the plan and the allocation transferred to R01.

SA Non-Tech Summary - R25 & R26 fail at least 8 of the stated Objectives required for the LDP. These sites should be completely removed from the plan and the allocation transferred to R01.

SA Non-Tech Summary - This report discusses how developing some sites would, or would not, successfully achieve the objective of reducing Car Dependency. However this test has not been applied to R25 & R26 which require absolute total Car Dependency for any new homes. R25 & R26 should be removed entirely from the plan to meet the LDP goal of reducing car dependency.

SA Non-Tech Summary - raises "omission sites" incl Honeypot Lane R022 and considers the benefits/disadvantages of their reintroduction. Honeypot Lane was eminently more suitable than any of the 4 sites now seeking reduction in the Focussed Changes, yet was removed without the opportunity for proper review in November 2018. The only reasons I have heard for the removal are a) the site was in the area of a Council member who would need to consider the views of voters b) There is a short pinch point in the access road to the site which would make development access difficult. However the pinch point is still wider than the entire length of Redrose Lane which is being suggested for development of both R25 & R26. The Honeypot Lane site, inexplicably, is still not considered as an alternative to the Northern Villages Allocation. R022 should be re-included in the Plan as this would allow all R18, R19, R25, & R26 to be completely removed and also not require an increased burden being added to R01.

Change To Plan: Remove R25 and R26 from the plan

Legally Compliant?: No                      Duty to Co-operate?: No                      Sound?: No                      Tests: None                      Examination: No

Full Reference: O - 26690 - 4759 - Sustainability Appraisal - None

**26691 Object****Respondent: Transport for London (Ms Lucy Wakelin) [8812]****Agent: N/A**

Summary: In written representations dated 14th March 2019 (see attachment 2), we supported the principle of the Strategic Housing Allocation R10: Brentwood Railway Station Car Park, however we did not agree with the approximate capacity of 100 homes for the following reasons:

\* This capacity was not in line with the content of the Draft Brentwood Town Centre Design Guide which identified that up to "405 units per hectare is suitable around key transport nodes, such as Brentwood Station."

\* Brentwood Railway Station Car Park is a brownfield site, located within a town centre and adjacent to a significant transport interchange. It is, therefore, a prime opportunity to optimise housing delivery in a highly accessible location in line with National Planning Policy Framework (NPPF) paragraphs 103 and 118 (D).

\* Feasibility studies indicated that a decked design could allow a greater density to be achieved on the site whilst still providing a compatible and neighbourly form of development.

\* The draft site allocation boundary did not include a section of car park towards the east. The whole parcel of land which TfL has an interest in and for which we are exploring development feasibility measures 1.39ha.

we suggested that the indicative density was increased. A density of 405 units per hectare would better reflect the sites capacity; if this figure is applied to the site area of 1.39 hectares this would equate to around 560 homes. This is considered a more realistic housing figure for the site, to ensure that the site is fully optimised and the Addendum of Focussed Changes should be amended accordingly.

Change To Plan: Increase density of site Allocation R10 Brentwood Railway Station Car Park and reflect this in the Addendum and Regulation 19 Draft Local Plan.

Legally Compliant?: Not Specified                      Duty to Co-operate?: Not Specified                      Sound?: Not Specified                      Tests: None                      Examination: No

**26737 Object****Respondent: Redrow Homes [6669]****Agent: Pegasus Group (Ms Nicky Parsons) [6706]**

Summary: I represent Redrow Homes Ltd (RHL), who has an interest in emerging site allocation R21 (Ingatestone Garden Centre). I have previously submitted comments to earlier versions of the plan on behalf of RHL and these comments remain valid.

My comment to the addendum document relates to Appendix 1 of that document and the absence of any change to the proposed trajectory in relation to this site.

As you know, RHL has a current application submitted for the redevelopment of Ingatestone Garden Centre (part of R21). That application is well-advanced and is currently held up by the plan-making process. RHL repeats its desire to commence development of this site at the earliest opportunity and reminds you that it is the legal owner of the land. It is an established house-builder, willing and able to deliver homes at this site as soon as the Council can grant it permission to do so.

I therefore write to request that you update your trajectory at Appendix 1 to reflect the fact RHL could deliver homes from year 2020/21 rather than 2021/22 as currently listed. This would tie in with another garden centre that you have proposed for allocation (R07), which is also in the Green Belt but that your records indicate as not being the subject of an application (current or otherwise). R07 is identified as delivering from 2020/21 and given the advanced stage that RHL is at, R21 should also be identified as starting delivery in the same year.

The prompt delivery of sites such as Ingatestone Garden Centre will be crucial in ensuring that your Council can make significant in-roads in the current housing land supply deficit. RHL remains at your service to assist you in demonstrating to the Inspector how it can help you in this regard.

Change To Plan: update your trajectory at Appendix 1 to reflect the fact RHL could deliver homes from year 2020/21 rather than 2021/22 as currently listed. This would tie in with another garden centre that you have proposed for allocation (R07), which is also in the Green Belt but that your records indicate as not being the subject of an application (current or otherwise). R07 is identified as delivering from 2020/21 and given the advanced stage that RHL is at, R21 should also be identified as starting delivery in the same year.

**26750 Object****Respondent: Basildon Borough Council (Ms Christine Lyons) [8820]****Agent: N/A**

Summary: Housing Trajectory

Basildon Council objects to the housing trajectory, particularly on the reliance on DHGV to deliver at an accelerated rate of construction and early within the plan-period. The housing trajectory included within the Addendum of Focussed Changes with regard to Dunton Hills Garden Village assumes that delivery will commence in 2022/23 (within the next five years) starting with a rate of 100 homes per annum, climbing to 300 homes per annum by 2026/27. This seems overly optimistic given that the allocation is currently within the extent of the Green Belt, requires master planning and will need to be subject to an Examination in Public in order to determine whether it should be allocated, before going through the planning application process and elements of the condition discharge process before development on site can even commence. Development commencement on-site will meanwhile be reliant on essential utility and infrastructure provision. No evidence was provided within the Reg19LP or the Addendum of Focussed Changes as to how the housing trajectory in general has been developed. Furthermore, there is no specific evidence published setting out the evidence base or any form of a development framework/ masterplan for the Dunton Hills Garden Village which explains how the proposed accelerated rate of delivery will be possible to achieve. Early residents of the Dunton Hills Garden Village, should it be approved, will rely on some services and facilities outside the 'village' to meet their initial needs. As an example, the Dunton Hills Garden Village will require new primary and secondary school provision. However, whilst the Brentwood Infrastructure Delivery Plan shows the primary provision in particular being delivered early, it is not economically viable to operate a school with low pupil numbers, and it may be the case that the village grows for a number of years with these pupils travelling to other schools in the locality, whilst operational primary and then secondary education provision is secured.

The Council therefore seeks for evidence to be provided demonstrating a realistic delivery trajectory for DHGV so that the potential short-medium term pressures on services and facilities in nearby settlements can be assessed, understood and planned for by service providers and neighbouring authorities. This will help ensure adequate mitigation provisions can be put in place to reduce any potential negative impacts on Basildon Borough residents living nearby.

**26751 Object****Respondent: Basildon Borough Council (Ms Christine Lyons) [8820]****Agent: N/A**

Summary: Transport and Infrastructure impacts of DHGV

The Addendum of Focussed Changes provided an opportunity for the Brentwood Local Plan to clarify matters relating to transport and infrastructure mitigation measures on the surrounding areas. The DHGV is within close proximity of the administrative boundaries with Basildon & Thurrock Boroughs, and Basildon Council still remains concerned by the lack of mitigation measures on potential infrastructure impacts and is disappointed that Brentwood Council have not taken the opportunity to address this through the Addendum of Focussed Changes.

Basildon Council are aware that Brentwood see themselves as a standalone housing market Area, however development in the proximity of administrative boundaries will have cross boundary infrastructure impacts that need to be addressed but both the Reg19 LP and the Addendum of Focussed changes do not appear to have addressed. It is noted that the need for new connections into Basildon Borough in terms of walking, cycling, public transport or road do not appear to be mentioned as being necessary to make it sustainable

The transport mitigation measures included in the pre submission local plan are concentrated within Brentwood and ignore the fact that Laindon Station, has more platforms and has greater commutable capacity than West Horndon and could become an alternative choice for residents of the Dunton Hills Garden Village. Furthermore, early residents of the Dunton Hills Garden Village, will rely on some services and facilities outside the 'village' to meet their initial needs. As an example, Dunton Hills Garden Village is proposing new primary and secondary school provision. However, until such a time as the critical mass for new homes is established, it is more likely that Basildon Borough's facilities in Laindon will be picking up the demands of new users arising from the new settlement.

While using Basildon Infrastructure like the station, schools and the hospital, there will be added pressure on the A127, Basildon road network and public transport services.

It is questionable whether it can be adequately demonstrated by the Brentwood Local Plan that the allocations chosen, represent the most sustainable option without identifying and testing the viability of specific highway mitigation measures that will be necessary to make them deliverable and sustainable. Without this work, Brentwood Borough could find its ability to unlock the capacity to deliver new communities and homes, particularly at an accelerated pace becomes hindered by a lack of infrastructure capacity.

It should not be assumed that such growth can just be absorbed by the nearby infrastructure and services and Basildon Council expects policies in the Brentwood Local Plan to make it clear that S106/CIL or other funding receipts will be spent outside Brentwood Borough to sufficiently address where negative direct or residual impacts could otherwise occur.

**26757 Object****Respondent: Countryside Properties [250]****Agent: Strutt & Parker LLP (Laura Dudley-Smith) [5158]**

Summary: Policy R03

In addition to the comments made separately, we have also previously raised a recommendation for policy wording relating to an inflexible provision of employment land (2ha) to be amended or removed. This is in respect of an over-provision of employment land that has been allocated in comparison to the need identified within the Plan, and also in the interests of providing an employment use at Chelmsford Road that best meets the market demand and Borough Council objectives for this site.

Discussions with Brentwood Borough Council have confirmed that the site presents an opportunity to provide a key gateway into Shenfield and onto Brentwood in this location.

Considering the employment uses referred to in Policy PC02, it has been agreed during discussions that an entirely B1 office frontage for the site would not be suited to this role, given that such a use would be unlikely to generate a visually prolific building or a flagship/feature, or be desirable in this edge of settlement location. B2 industrial or B8 storage uses would not be consistent with the desire for this location to act as a gateway to the area, and would also have implications on the A12 gyratory through the associated movements of HGVs and other vehicles.

We are aware of interest in the use of the site for other employment generating and commercial uses which would not fall under B-class uses and may be able to play a better role in the formation of a key gateway in this location. It is recognised however that the spatial requirements of such uses are again unlikely to meet a full 2ha of land.

The proposed provision of employment uses on this site has not been justified and is not effective. The provision of 2ha on this site is not required to meet the Borough's identified employment need and conflicts with the deliverability of new homes on the site to meet the Council's housing need. Countryside Properties are confident of the ability to deliver this either through exemplary residential and landscape-led design at the entrance to the site, or through a smaller provision of employment land which is respective of the current market and likely demand in this location. As such, the provision of 2ha of land for employment purposes should be removed from the policy.

**26758 Object****Respondent: Countryside Properties [250]****Agent: Strutt & Parker LLP (Laura Dudley-Smith) [5158]**

Summary: Policy R16 &amp; R17

Countryside maintain concerns over the amendment to the wording of Policy R16 & R17 that was made without justification during the previous iteration of the draft Local Plan. The previous iteration of the policy required vehicular access to be provided from "Doddinghurst Road for both site and/or Karen Close and Russell Close". The current policy is worded to allow for vehicular access from Doddinghurst Road only.

Whilst access from Doddinghurst Road is accepted as the preferred strategy for all parties, initial appraisal work in this respect has recognised a potential requirement for significant levelling and land movement which could have implications on the viability of housing delivery on the site. It is therefore requested that the policy retains flexibility for the use of the other accesses from Karen Close and Russell Close as a worst case scenario, in the interests of protecting the deliverability of the southern parcel of the site, particularly as these routes of access have been previously agreed with Essex County Council Highways. The use of these accesses may also better support the design of scheme that is fully integrated with existing development. Countryside continue to support Brentwood in the progression of their Local Plan, but wish to emphasise the continuing importance of minor amendments to specific policies, alongside the need for consistent housing delivery across the entire Plan period. This is important to ensure that the Plan is deliverable and found sound at Examination.

**26761 Object****Respondent: McColl's Retail Group PLC [3662]****Agent: Smith Jenkins Ltd (Mr Samuel Dix) [8350]**

Summary: Remove McColl's site (ref 321) from existing employment site, Policy PC03. This site has now got Prior Approval for the change-of-use from offices to create 55 dwellings (19/01043/PNCOU). The Council may have previously declined to do so on the grounds that only limited information was available as to the site's likely future. However, given our client's clear intent to use the site for residential purposes, and the extant Prior Approval allowing them to do so in principle, this needs to be revisited in order for both the employment and housing provision within the Plan to be up-to-date and sound.

Change To Plan: Remove McColl's site (ref 321) from existing employment site as set out in Policy PC03, either through an additional focussed change, or by way of modification at Examination stage.

**26762 Object****Respondent: Arebray Ltd [5339]****Agent: Stutt & Parker (Mr Rory Baker) [8242]**

Summary: Salmonds Grove is a suitable and available site within Brentwood. The Addendum proposes movement of 70 homes from sites R18, R19, R25 and R26 to Dunton Hills Garden Village, with a reliance of a faster rate of delivery at DHGV within the life of the plan. This proposal exacerbated the proportion to be delivered from 34.6 to 35.6%. This delivery is unrealistic. In order to address this, the Salmonds Grove site is available for fast implementation if allocated within the plan and can be considered as part of the 5 year land supply. The justification for the Addendum changes is not backed by evidence; it is inconsistent with national policy and not positively prepared.

Change To Plan: Add Salmonds Grove to the local plan.

**26791 Object****Respondent: Hallam Land Management Ltd [2353]****Agent: Marrons Planning (Mr Gary Stephens) [8825]**

Summary: Focussed Change 13 amends the Local Development Plan Housing Trajectory and reduces the five year supply of deliverable housing by 70 dwellings. This is on the basis of the Plan being adopted in 2020, and the five year supply being calculated for Years 5 to 9 of the trajectory. Whilst the change is a relatively small reduction in supply, it still further reduces supply and an objection is maintained on the grounds of soundness in that it is not consistent with national policy in failing to identify a five year supply of specific deliverable sites against the housing requirement.

Change To Plan:

Legally Compliant?: No      Duty to Co-operate?: Not Specified      Sound?: No      Tests: None      Examination: No

Full Reference: O - 26791 - 2353 - Sustainability Appraisal - None

**26792 Object****Respondent: Hallam Land Management Ltd [2353]****Agent: Marrons Planning (Mr Gary Stephens) [8825]**

Summary: The minimum Local Housing Need now equates to 454 dwellings per annum, which as a consequence means the Plan no longer makes any provision for a housing supply buffer. The Addendum therefore notes that the absence of a buffer, and the greater reliance upon one site (Dunton Hills Garden Village) to meet the housing need in a location some distance from where the need is largely derived (Central Brentwood) places a greater degree of uncertainty and risk that the Housing objectives will not be met.

Change To Plan: The Council should consider through the Examination process additional allocation(s) within the Central Brentwood area in order to maintain its supply buffer and reduce the uncertainty and risks associated with the current Plan in relation to failing to meet housing need in areas where the need is derived. In this regard, HLM would also encourage the Council again to consider the evidence submitted as to the benefits of allocating or safeguarding Land west of Ongar Road for residential development.

**26794 Object****Respondent: S & J Padfield and Partners [6098]****Agent: Strutt & Parker LLP (Mr. James Firth) [2048]**

Summary: The Sustainability Appraisal October 2019 does not appear to have been updated to reflect our previous comments. Codham Hall Farm continues to be scored negatively against Local Wildlife Site, Ancient Wood and AQMA, GP, and school provision. These criteria should be considered differently when applied to an allocation for employment land rather than residential proposals. Through appropriate design and landscaping, adverse impacts can be avoided. A 'neutral or depending on implementation' scoring for a number of these criteria would be much more appropriate. The allocation at Brentwood Enterprise Park (E11) is also scored negatively against Local Wildlife Sites.

Change To Plan: Local Wildlife Site, Ancient Wood and AQMA, GP, and school provision criteria should be considered differently when applied to an allocation for employment land rather than residential proposals. Through appropriate design and landscaping, adverse impacts can be avoided. A 'neutral or depending on implementation' scoring for a number of these criteria would be much more appropriate

**26796 Object****Respondent: M Scott Properties Ltd [8054]****Agent: Strutt & Parker LLP (Mr Richard Clews) [5526]**

Summary: Plan remains unsound as a result of the Focussed Changes. The higher LHN has not been incorporated, nor the requirement to identify a suitable buffer. The Plan is therefore failing to meet the requirements of the NPPF and the identified need for the Borough. The Focussed Changes do not demonstrate that the Plan will be effective in meeting housing needs, given it seeks to re-direct housing delivery from the short-term to the later years of the Plan, further decreasing its ability to meet its needs early in the Plan period.

Change To Plan: The Council should have considered the merits of identifying additional, suitable sites to deliver in the short-medium term, including those which provide specialist accommodation to meet an identified local need, such as the land west of Crosby Close (site 073). As discussed above and shown in Appendix B, this represents a suitable site with local support for specialist accommodation that has been overlooked.

**26798 Object****Respondent: M Scott Properties Ltd [8054]****Agent: Strutt & Parker LLP (Mr Richard Clews) [5526]**

Summary: The decision to discount the need for consideration of reasonable alternatives is inconsistent with national policy, and unjustified. This is apparent from the SA conclusions (discussed above), and we are highly concerned that this has reduced the ability of the Plan to meet the housing needs of the Borough going forward.

Change To Plan:

Legally Compliant?: No                      Duty to Co-operate?: No                      Sound?: No                      Tests: None                      Examination: No

Full Reference: O - 26798 - 8054 - Sustainability Appraisal - None

**26824 Object****Respondent: Tesco Stores Limited [3856]****Agent: GL Hearn (Mr Selwyn Atkinson) [8822]**

Summary: Risk in not meeting the LHN. Flaw in calculation allocation total in appendix 1: The NPPF states Plan should look ahead of 15 years from adoption, therefore completions for year 2016/17, 17/18 (363 net homes) should be discounted. Removed 926 extant permissions from the 'allocation total' unless the Council can provide evidence that they would still be extant at the point the Plan is adopted. Similarly, unless there is compelling evidence to suggest they are a reliable source of supply, the 410 windfall allowance should be removed from the allocation total.

Change To Plan: Revise Allocation Total for Plan period as suggested.

**26880 Object****Respondent: Icen Projects Limited (Mr Luke Challenger) [7052]****Agent: N/A**

Summary: The SA states that the Local Housing Need figure has increased from 350 to 454 dwellings. The Council does not provide any evidence to demonstrate what this figure is based on, albeit it is closely related to the capped standardised method for the Borough of 452 dwellings. The PPG requires the Planning Authority to seek to meet the uncapped figure - 469 dpa. The Council has failed to consider the increased housing figure that will occur as a result of Crossrail's opening, which it is estimated will give rise to an additional need of 1,000 dwelling over the Plan Period.

Change To Plan: In order to address the soundness issues we consider that the housing target should be reviewed with regard to the new evidence and that further sources of land supply should be identified, not only to deal with shortfalls over the plan period in total, but also specifically within its first 10 years. Land to the north of West Horndon railway station is available, suitable and deliverable and can contribute to meeting this shortfall. Importantly, it can come forward independently of the wider area of growth being promoted by EASL to the south of the settlement (in Thurrock Borough). The Brentwood Local Plan needs to seriously consider early delivery to ensure the Plan provides sufficient housing for Five Year Housing Land Supply, and for years 5 - 10. Early delivery of West Horndon would assist DHGV coming forward as it would act as a catalyst for housing delivery in this area of Brentwood and enhance the attractiveness of DHGV from a purchaser's perspective. It would also help a Local Plan inspector determine that Brentwood's Local Plan is sound; as is self-evident from the present draft of the Local Plan that Brentwood's ability to meet its housing needs is inextricably linked with the release of Green Belt land, primarily at DHGV. The failure to adopt a local plan would not only result in Brentwood being unable to address its housing needs, it would deprive DHGV of the policy context in which to come forward as a planning application proposal, thereby exacerbating the deficit. We had previously set out in the West Horndon Delivery Statement (Appendix 1 to our March 2019 representations) that the site could deliver first completions by 2024. This would mean that significant numbers of homes could be delivered within the first 5 - 10 years of the plan period helping to address the soundness issues identified. We trust these representations clarify our position and that they are taken into consideration in the advancement of the Local Plan.

**26884 Object****Respondent: St Modwen Properties PLC and S&J Padfield and Partners [8835]****Agent: Strutt & Parker LLP (Mr. James Firth) [2048]**

Summary: IDP Transport & Movement chapter should also make reference to the potential role that Demand Responsive public transport can play. This element of the Transport work is being progressed by a number of parties who are engaging proactively in seeking to rationalise and progress solutions for delivering the identified sites along the Southern Growth Corridor (SGC), and this should be referenced in the IDP. Currently, the sections of the Transport and Movement document referring to buses are focused on provision of traditional fixed route bus services, which may only one be solution adopted at Brentwood Enterprise Park.

**26887 Object****Respondent: St Modwen Properties PLC and S&J Padfield and Partners [8835]****Agent: Strutt & Parker LLP (Mr. James Firth) [2048]**

Summary: The SA has not been updated to reflect our previous comments. The Brentwood Enterprise Park site continues to be scored negatively against Local Wildlife Site, Ancient Wood and AQMA, GP, and school provision; these criteria should be considered differently when applied to an allocation for employment land than residential proposals. Additionally, through appropriate design and landscaping, any adverse impacts can be avoided. A neutral or 'depending on implementation' scoring for a number of these criteria would be much more appropriate. The same comment applies to Codham Hall Farm (101C), which has also scored negatively against Local Wildlife Sites.

**26901 Object****Respondent: Ford Motor Company [3768]****Agent: Icen Projects Limited (Mr Andrew Gale) [6082]**

Summary: We question the below aspects of the draft allocation (in the absence of robust evidence):  
 \* Retention of 2.0 hectares of employment land - Land south of Eagle Way (i.e. main Ford Headquarters);  
 \* Delivery of residential care home providing 60 x bed spaces; and  
 \* 5% self-build and custom build across the entire allocation.  
 This is contrary to the fundamental sustainability objectives of the NPPF and all previous representations submitted by Ford.

Change To Plan:

Legally Compliant?: Not Specified      Duty to Co-operate?: Not Specified      Sound?: No      Tests: None      Examination: No

Full Reference: O - 26901 - 3768 - Sustainability Appraisal - None

**26902 Object****Respondent: Ford Motor Company [3768]****Agent: Icen Projects Limited (Mr Andrew Gale) [6082]**

Summary: BBC's proposed phased approach to the annual housing requirement, may not deliver sufficient quantum of housing within the early years of the Plan following adoption. As such we consider that this approach would be unsound, as the Plan would not be positively prepared in this regard, unless clear evidence can be provided to demonstrate that all potential options to boost housing supply in the early years of the Plan have been explored in detail.

Change To Plan: The Ford site is identified by BBC as a proposed allocation and will make a vital contribution towards the anticipated trajectory in this context, particularly as a less constrained medium scale site. However, we consider that the further efforts should be made to ensure the capacity for the site to deliver housing on brownfield land early in the plan period are maximised, in order to ensure that the annual requirement is sound.

Legally Compliant?: Not Specified      Duty to Co-operate?: Not Specified      Sound?: No      Tests: None      Examination: No

Full Reference: O - 26902 - 3768 - Sustainability Appraisal - None

**26903 Object****Respondent: Ford Motor Company [3768]****Agent: Icen Projects Limited (Mr Andrew Gale) [6082]**

Summary: Ford owned site (RO4 and RO5) is currently anticipated by BBC to come forward within years 9-17 of the proposed plan period as shown in the Housing Trajectory, Appendix 1. In fact, it is realistic that the site could be delivered within 6 -10 years (2021-2025).

Change To Plan: Request that BBC review and update the Site's inclusion in the housing trajectory, including considering the Ford owned and Council Depot sites separately (see further comments below) - bringing forward the Ford owned land in years 6-10 (which Ford have demonstrated is available and deliverable). In our opinion this is necessary in order to ensure the Plan is positively prepared, having regard to the requirements of Paragraph 35 of the NPPF 2019.

**26692 Support****Respondent: Phase 2 Planning and Development Ltd (Mr. Michael Calder) [3814]****Agent: N/A**

Summary: Whilst we do not wish to add to the representations already submitted on behalf of Countryside Properties, Redrow Homes, Croudace Homes and Shenfield High School, we would like to identify that this part of the allocation is now within the control of Stonebond Properties who are committed to working in partnership with the Council to deliver this part of the site at first opportunity independently from the wider allocation to boost the Council's Housing Supply. Due to the physical characteristics of the site (capable of independent access, drainage, landscaping and ecology provision) in addition to the scale of development proposed, we are confident that the scheme can come forward quickly to boost supply, without compromising the wider principles of the allocation. and which will likely be brought forward in advance of the wider site allocation.

We therefore make this representation specifically in respect of the Housing Trajectory. As is shown on the illustrative site layout attached at Appendix 1. The development of this site is not reliant upon any of the strategic site infrastructure that is required to deliver the wider allocation, with access into this parcel served by Alexander Lane. Stonebond Properties have started engagement with Essex County Council Highways in respect of access into the site.

As such, and having a controlling interest in the site, Stonebond Properties are committed to delivering 50 dwellings on the site before 2023/24 and would like to work in partnership with the Council to submit a planning application for determination upon the adoption of the Local Plan. Furthermore, should the emerging Local Plan reach a stage where the Council are confident to attach weight to emerging policies for decision making, an application may be submitted prior to adoption of the Local Plan.

We therefore request that the housing trajectory for R03 is updated to reflect the fact that this site is capable of delivery in the first five years of the plan. Indeed, the approach that the Council has taken to the housing trajectory on this site, confirming an annual delivery of 155 dwellings per year, which suggests that the Council are aware that the site will be brought forward by several developers.

## 26723 Support

**Respondent: Stonebond Properties Ltd [5948]**

**Agent: Strutt & Parker LLP (Mr Alasdair Sherry) [6713]**

Summary: This letter has set out our views on the focussed changes to the Draft Local Plan, with particular emphasis on the role that the identified sites at Land of Stocks Lane and Land of Blackmore Road (R24 & R25 respectively) can assist the Council in meeting its requirements ahead of the Local Plan Examination.

As set out in this letter, we are responding to the contents of the AFC and specifically the housing trajectory and redistribution of housing as identified. To support our comments, we are resubmitting the representations previously made with regard to the two sites under Stonebond's control in Kelvedon Hatch. We reiterate points made at Pre-submission stage that both of these sites can accommodate additional homes above the number they are identified to assist the Council in meeting its requirement for new housing at early stages of the Plan period, which is of critical importance given the position with the Council's 5 year housing land supply shortfall.

Furthermore, the Pre-submission stage was prepared before publication of the revised NPPF in February 2019 which introduced important changes to the approach to identifying housing land supply and greater emphasis on the efficient use of land. Both of these matters clearly indicate that our proposals for R23 and R24 would be compatible with national planning policy objectives and provide justification for a review of capacity of these sites and confirmation for early delivery against the issues we identify with the both the timing of supply and redistribution of housing set out in the AFC.

We would welcome further liaison with the Council regarding the opportunities expressed in this and our previous representations as the Local Plan proceeds to the examination stage. In particular, we would be more than happy to present to the Examination a Statement of Common Ground (SoCG) with the Council to reflect our proposals. The SoCG would confirm that sites R23 and R24 are available, suitable, and sustainable to aid the Council to confirm certainty of early delivery. We believe that our proposals also provide for flexibility in sources of supply to assist in the housing land requirement for the Borough.

## 26759 Support

**Respondent: Highways England (Heather Archer) [8309]**

**Agent: N/A**

Summary: Highways England will be concerned with proposals that have the potential to impact on the safe and efficient operation of the Strategic Road Network (SRN), in this case the A12 and M25 Junctions 28 and 29. We have examined the consultation documents and given the scope of the Focussed Changes we have no comments at the present time.

In terms of the sustainability appraisal, it is worth stating that a growing concern to us is air quality and the impact of development traffic contributing to emissions from traffic on the SRN. We note that Paragraph 9.2.7 of the Sustainability Appraisal Report lists a number of wide ranging policies in pursuit of air quality objectives. We shall be paying particular attention to air quality matters in future and stress the need for appropriate monitoring.

We will continue to cooperate separately with Brentwood Officers in relation to the transport assessment of your Local Plan concerning the M25 and A12.

## 26760 Support

**Respondent: McColl's Retail Group PLC [3662]**

**Agent: Smith Jenkins Ltd (Mr Samuel Dix) [8350]**

Summary: The focussed changes are not exhaustive and concern only five policies regarding particular allocations or sites that were already included in the pre-submission draft of the Local Plan. We have no comments on the necessity of the adjustments in housing figures that are proposed, although note that these are very minor in scale. For example, the changes to the Dunton Hills Garden Village allocation is equivalent to just a 2.5% increase in housing whilst other adjustments concern only 10 homes being deducted from allocations.

Change To Plan:

Legally Compliant?: Not Specified      Duty to Co-operate?: Not Specified      Sound?: No      Tests: N/A      Examination: Not Specified

Full Reference: S - 26760 - 3662 - Sustainability Appraisal - None

**26769 Support****Respondent: Childerditch Properties [2642]****Agent: Strutt & Parker LLP (Mr. Andy Butcher) [2741]**

Summary: Strongly support the proposed allocation at Childerditch Industrial Estate but seek clarification regarding transport item in the IDP (T17). We question the extent to which these new cycle ways could be delivered along the A127 corridor. Who would be responsible for delivery - the IDP confirms that this will be Essex County Council but we have not been party to discussions with BBC or ECC on how this new cycle way may be delivered in either physical and monetary terms. Further clarification is required on this prior to the submission.

Change To Plan: Further clarification is required on delivery of the cycle ways structure along the A127 in either physical and monetary terms. Further clarification is required on how funding will be apportioned to developers for these works as this may impact upon the viability and delivery of the employment allocation at Childerditch Industrial Estate. Welcome a discussion with Officers prior to the submission of the Plan and in this respect, we would be happy to enter into a Statement of Common Ground with BDC in the lead up to the Examination of the Plan, to confirm the deliverability of the proposed allocation.

**26625 Object****Respondent: Punch Partnerships (PGRP) Ltd [8801]****Agent: Cordage Group (Miss Lauren Parsons) [8797]**

Summary: The proposed reduction in housing numbers in Shenfield and Blackmore reduces housing numbers in sustainable settlements where growth is needed, and puts them in a less sustainable location. In relocating the units to the proposed strategic allocation at Denton Hills, the provision of these units will inevitably occur later in the plan period, when the focus should be on early provision to address the current housing land supply shortfall.

The site at Spital Lane is an ideal candidate, having minimal impact on the openness of the Green Belt, being capable of accommodating six houses without any risk of flooding.

Change To Plan: A much better solution would be to reprovide the units lost from the Shenfield and Blackmore allocations on sustainable sites in and around Brentwood.

The site at Spital Lane is an ideal candidate, being located on the edge of the town close to services and facilities, having minimal impact on the openness of the Green Belt, and as per the Environment Agency comments on the most recent planning application, being capable of accommodating six houses without any risk of flooding. We therefore advocate that Spital Lane be allocated for housing in the emerging plan, along with other suitable smaller sites identified in the SHLAA, to make up the housing numbers lost in Shenfield and Blackmore.

Legally Compliant?: No

Duty to Co-operate?: No

Sound?: No

Tests: i, ii, iii, iv

Examination: No

Full Reference: O - 26625 - 8801 - Policy R01 (I): Dunton Hills Garden Village Strategic Allocation (page 252) - i, ii, iii, iv

**26660 Object****Respondent: Sow & Grow Nursery (Mr. Derek Armiger) [303]****Agent: MR ALAN WIPPERMAN [8060]**

Summary: 2 However, they are all concerned that the Council's reliance on the large new community development at Dunton Green inherently carries more risk in providing housing over the Plan period, given the size of allocation and annual deliveries required, as it may be subject to delays arising from large scale finance and infrastructure provision as well as housing and finance market fluctuations, such that there can be substantial risks to the annual and overall housing delivery for the District during the Plan period.

3 Accordingly, they are of the view that there should be no further preferred smaller site reallocations currently identified as preferred development sites into the Dunton Green allocation for the Plan period, without sound and convincing reasoning to support this.

4 The many smaller sites identified as preferred sites, such as at the Sow N Grow Nursery site R07, provide for a more secure and dispersed risk in provision of housing delivery as these will tend to have far less upfront and complimentary infrastructure provision required before development can commence. In addition there will tend to be less upfront financial investments by developers, builders, and also by infrastructure providers making development potentially easier and quicker. The exposure to local market fluctuations may also be lessened with sites dispersed throughout the District and site assembly will not often be required. This allows the Plan to be more robust in housing delivery annually and for the Plan period.

5 Further re-allocations would also conflict with the National Planning Policy Framework, in particular, paragraphs 67- 76, and para. 68 in particular.

6 The Family also remains concerned that the supporting documents and assessments also published for this Consultation still do not have regard to the full potential of the Sow N Grow Nursery site which, together with the land owned by Mrs Dunbar, comprising the wider site R07, has again been assessed to 38 dwellings. There is clearly scope for many more, perhaps 50 dwellings plus in total as drawings used in pre-application discussions suggested. (These are in abeyance pending the Adoption of the Plan).

7 However no matters raised in the documents being consulted upon appear to in anyway significantly or adversely impact on the site being selected as a preferred site for development and release from the Green Belt, provided the approach is not extended further to other sites. The Adopted Plan is awaited, so that pre-application discussions can recommence.

The Plan and Focussed Changes continue to be supported for the earliest adoption and it is trusted that this Letter as a Response to the Focussed Changes and Supporting Documents being submitted for the above members of the Armiger Family will be brought to the Inspector's attention.

**26661 Object****Respondent: Sow & Grow Nursery (Ms Kim Armiger) [4657]****Agent: MR ALAN WIPPERMAN [8060]**

Summary: 2 However, they are all concerned that the Council's reliance on the large new community development at Dunton Green inherently carries more risk in providing housing over the Plan period, given the size of allocation and annual deliveries required, as it may be subject to delays arising from large scale finance and infrastructure provision as well as housing and finance market fluctuations, such that there can be substantial risks to the annual and overall housing delivery for the District during the Plan period.

3 Accordingly, they are of the view that there should be no further preferred smaller site reallocations currently identified as preferred development sites into the Dunton Green allocation for the Plan period, without sound and convincing reasoning to support this.

4 The many smaller sites identified as preferred sites, such as at the Sow N Grow Nursery site R07, provide for a more secure and dispersed risk in provision of housing delivery as these will tend to have far less upfront and complimentary infrastructure provision required before development can commence. In addition there will tend to be less upfront financial investments by developers, builders, and also by infrastructure providers making development potentially easier and quicker. The exposure to local market fluctuations may also be lessened with sites dispersed throughout the District and site assembly will not often be required. This allows the Plan to be more robust in housing delivery annually and for the Plan period.

5 Further re-allocations would also conflict with the National Planning Policy Framework, in particular, paragraphs 67- 76, and para. 68 in particular.

6 The Family also remains concerned that the supporting documents and assessments also published for this Consultation still do not have regard to the full potential of the Sow N Grow Nursery site which, together with the land owned by Mrs Dunbar, comprising the wider site R07, has again been assessed to 38 dwellings. ## 26712 Object

**Respondent: Mr Mr J Nicholls and Mr A Biglin (Land owners) [8368]**

**Agent: Sworders (Mrs Rachel Bryan) [5481]**

**Summary:** We support the reduction in housing numbers at the allocation sites in Shenfield and Blackmore, as this is justified by the evidence base. However, we object to the re-distribution of 70 dwellings to the Dunton Hills Garden Village (DHGV) allocation, because it would mean that fewer homes would be delivered in the early years of the plan. The reliance on DHGV to deliver such a large proportion of the Borough's housing need within the early years of the plan is too great, particularly when smaller sites are available, some of which are brownfield.

**Change To Plan:** Larger sites often take longer to deliver housing, because they typically have complex ownership structures and require significant investment in infrastructure. Research published by consultancy Nathaniel Lichfield & Partners (Start to Finish: How Quickly do Large-Scale Housing Sites Deliver? November 2016) found that for sites of over 2,000 dwellings, the average timeframe between the validation date of the planning application and the delivery of the first dwelling was just under seven years. This compares with just under three years for smaller sites of up to 99 dwellings and therefore, whilst it is justified to reduce the housing allocation at the sites in Shenfield and Blackmore, the 70 dwellings should be re-distributed to suitable smaller developments rather than being added to DHGV. Smaller sites are often able to come forward more quickly than larger sites because they are typically in single ownership and require less investment in infrastructure. They also attract smaller, more local housebuilding companies that would not be present on larger sites, enable more early deliveries and constitute a more sustainable approach towards meeting the housing need. Brownfield sites should also be prioritised in line with the requirements of the NPPF, which states in paragraph 137 that: 'before concluding that exceptional circumstances exist to justify changes to Green Belt boundaries, the strategic policy-making authority should be able to demonstrate that it has examined fully all other reasonable options for meeting its identified need for development'. As a result, brownfield land should be utilised, with greenfield land being released only when all sustainably located, available and deliverable sites have been identified as allocations. In contrast, Brentwood Borough Council propose relying entirely on the delivery of a single, large, greenfield site to be able to demonstrate and maintain a five-year supply in the early plan period - a method that has been criticised by several inspectors at Local Plan Examinations in Braintree District, Tendring District and Colchester Borough Council in relation to North Essex Garden Communities. Due to the location of the Dunton Hills Garden Village allocation, a significant proportion of Brentwood's housing would be located on the Borough boundary with Basildon. The settlement would adjoin Basildon's Green Belt and although it was once intended for both Councils to locate settlements in this area, Basildon no longer propose this. It could therefore also be considered that the authorities have not complied with their duty to co-operate. In conclusion, we object to the re-distribution of 70 dwellings into the Dunton Hills Garden Village allocation, considering instead that the dwellings should be re-allocated to more suitable smaller sites and brownfield land. Whilst we do not object to the principle of a new settlement, we do not consider that it should be relied upon to deliver such a significant proportion of the Borough's housing need within the timeframe envisaged, particularly when suitable alternative sites are available.

## 26725 Object

**Respondent: West Horndon Parish Council (Mr Kim Harding) [381]**

**Agent: N/A**

**Summary:** The proposed additional homes added to Dunton Hills Garden Village ignores the fact that these homes will exacerbate an already ill-conceived and poorly planned new Garden Village, the size of which has grown and grown. The Council states that it is planning for a borough of villages however West Horndon Parish is being expected to provide a disproportionate amount of the necessary housing and industrial development. The conclusion being that the Garden Village is being used as an excuse to ensure that other parts of the borough do not have to experience the upheaval that will result from extended building works over time. The proposed Garden Village is not consistent with national sustainable development in terms of transport links, meeting climate change and combatting flooding. Sustainable movement in West Horndon Parish is already difficult and will be problematic with the Garden Village. No evidence has been provided to show appropriate assessment of the impacts on the A127 and A128, passenger numbers at West Horndon station on are already at capacity and no understanding or allowance has been made to accommodate additional passengers. The proposal is non-sustainable.

**Change To Plan:** Reduce housing and industrial units proposed for West Horndon Parish, with particular regard to Dunton Hills Garden Village.

**26727 Object****Respondent: Essex County Council (Mrs Anne Clitheroe) [6776]****Agent: N/A**

Summary: NPPF para 31 requires planning policies to be underpinned by relevant and up to date evidence.

BBC need to be satisfied increase in dwelling numbers is supported by appropriate evidence base,including:

- demonstrating site is where need is (para 59)
- all other reasonable options have been fully examined, including making as much use as possible of suitable brownfield sites and underutilised land, and optimising density (para 137)
- updated transport evidence base fully assesses transport implications.

Proposed policy change does not address ECC's Pre-Submission Reg.19 consultation representations to this policy (March 2019).

ECC's position has not changed on this matter.

Change To Plan: As a result of the increase in dwelling numbers for this site allocation BBC should include, within the Plan evidence and supporting text for this Policy, details to demonstrate that the reallocation of dwellings to this site is where the need is (paragraph 59 of the NPPF), and that all other reasonable options for reallocating the dwellings have been fully examined, including making as much use as possible of suitable brownfield sites and underutilised land, and optimising density.

BBC should also update its transport evidence base for the Local Plan to fully assess the transport implications of the change in dwellings numbers on this site allocation.

The policy needs to be further changed to address ECC's representations to this policy made to the Pre-Submission Regulation 19 Local Plan consultation in March 2019.

**26743 Object****Respondent: Basildon Borough Council (Ms Christine Lyons) [8820]****Agent: N/A**

Summary: It is noted that the Addendum of Focussed Changes is proposing the redistribution of 70 proposed dwellings from the "Central Brentwood Growth Corridor" to the Dunton Hills Garden Village (DHGV). Basildon Council objects to the proposal to create a standalone new village (DHGV) to the west of the joint administrative boundary as previously indicated in our responses to Brentwood's Local Plan consultations in February 2016, March 2018 and March 2019. Basildon Council maintains the view that there currently remains a lack of credible and robust technical evidence to justify that a new village in this Green Belt location is the best option for meeting Brentwood Borough's housing needs, and continues to have doubts whether this allocation would be found sound at Examination in Public. In giving this view, Basildon Council is apprehensive that the scale of development proposed, which amounts to over a third of the borough's entire housing provision for the plan period, could be supported by infrastructure in the absence of a clear delivery plan. It remains unclear, if the proposal were to be approved, how it will relate in terms of access and connectivity to the Basildon urban area given that the nearest Town Centre and acute healthcare facilities are all within Basildon Borough.

Change To Plan: The Plan should select sites within the Central Brentwood Growth Corridor that provide opportunity for extensions to towns and villages that can encourage more sustainable travel choices and take advantage of the strategic infrastructure available.

**26744 Object****Respondent: Basildon Borough Council (Ms Christine Lyons) [8820]****Agent: N/A**

Summary: Basildon Council objects to the Focussed Changes 1 - 5, as they do not seem to have been informed by evidence or the Sustainability Appraisal as required by National Policy. The amendments effectively redistributes 70 proposed dwellings from the 'Central Brentwood Growth Corridor', which has opportunities to embrace more sustainable modes of transport, to a Green Belt location with a less developed public transport infrastructure. The reasons for the amendments do not seem to be supported by the evidence and appear to be based solely on the considerable number of objections received in response to the Pre-Submission Local Plan consultation in March 2019. The Brentwood Sustainability Appraisal October 2019 concludes that;

"It is difficult to draw strong conclusions, with the primary considerations being: A) decreasing the homes assigned to the Brentwood/Shenfield urban area by 50 may serve to reduce traffic through the problematic town centre AQMA, but any benefit would be marginal, and equally these are accessible locations suited to minimising car dependency; and B) increasing the number of homes assigned to DHGV by 70 is potentially associated with a degree of risk, noting the ongoing work being undertaken in respect of improving air quality along the A127 within Basildon Borough, and noting consultation responses received."

Paragraph 16 of the NPPF advises amongst other things that Plans should be prepared with the objective of contributing to the achievement of sustainable development. Basildon Council has considered the two Growth Corridors identified in the Brentwood Borough Local Plan. It has reflected however that there are fundamental distinctions between them, which do not appear to have influenced site selection choices in a justified way. The Central Brentwood Growth Corridor is the location of nationally and regionally managed and maintained infrastructure - the A12 & M25 (Highways England) and the Elizabeth Line (maintained by Network Rail and operated by Transport for London) and East Anglia Line (maintained by Network Rail and operated by Abellio East Anglia). Growth in this location would maximise this infrastructure investment. The South Brentwood Growth Corridor meanwhile, consists the A127 (maintained by Essex County Council) and Essex Thameside Line (maintained by Network Rail and operated by c2c).

It is not considered that the two corridors offer comparable choices in terms of the strategic importance or capacity of transport connections, and using the Sustainability Appraisal and other evidence, the Plan should select sites within the Central Brentwood Growth Corridor that provide opportunity for extensions to towns and villages that can encourage more sustainable travel choices and take advantage of the strategic infrastructure available. This would encourage commuting behaviour to shift away from private car use and therefore make this location a more sustainable and viable option to concentrate growth. Such an alternative approach would be justified by evidence and align with national policy.

**26756 Object****Respondent: Countryside Properties [250]****Agent: Strutt & Parker LLP (Laura Dudley-Smith) [5158]**

Summary: Allocation of Unit Numbers

Whilst Countryside Properties can confirm their support of the draft Local Plan in principle, and in particular the allocation of land at Chelmsford Road and Doddinghurst Road for residential development, it is noted that the Focussed Changes relate exclusively to the reduction of unit numbers on 4 sites that are proposed for allocation within the Pre-Submission Local Plan, and the respective increase of the number of homes proposed for delivery as part of Dunton Hills Garden Village to accommodate the reductions.

Countryside Properties remain concerned in relation to an over-reliance on large scale strategic development for the provision of housing over the Plan period (2033). Brentwood Borough Council should protect those sites that are immediately available for the short term delivery of housing within the early stages of the Local Plan period.

Should there be specific reasons why the 4 sites have a lower capacity than initially understood, alternative sites proposed for allocation, such as land at Chelmsford Road and Doddinghurst Road have sufficient capacity to accommodate an increase in unit numbers to protect overall housing delivery numbers for the Borough. This would help to balance the reliance on Dunton Hills Garden Village for housing delivery whilst ensuring the efficient use of small to medium scale sites which are available to deliver housing immediately. Countryside are able to confirm an intention for the three developer parties with land interests at Shenfield to agree a Statement of Common Ground, which is expected to provide further reassurance of the short term delivery of this particular allocation in due course.

It should also be acknowledged that no growth of the sustainable settlement of Hutton has been proposed, despite its sustainability credentials and offering of small scale development sites such as land at Bayleys Mead. Such sites currently make a negligible contribution to the Green Belt and would not contribute to coalescence of settlements given the scale and enclosed nature of the site, as has been demonstrated in information submitted alongside previous representations at earlier stages of this Local Plan.

Change To Plan:

Legally Compliant?: Not Specified      Duty to Co-operate?: Not Specified      Sound?: Not Specified      Tests: None      Examination: Yes

**26773 Object****Respondent: Turn2us [6753]****Agent: Strutt & Parker LLP (Mr Sam Hollingworth) [6123]**

Summary: Concerned with the proposed approach whereby Dunton Hills Garden Village will deliver at a greater rate than previously suggested, at just a fast enough rate to account for the shortfall created by the reduced capacity of site R18, R19, R25, and R26. It's wholly inappropriate to assume Dunton Hills Garden Village will accommodate an even greater number of dwellings by 2033 than the PSLP did. The PSLP as amended by the AFC remains unsound.

Change To Plan: Allocate additional site to delivery at least 70 additional homes in the early years of the plan period (2022/23 - 2024/25). Site 219 (land at Rayleigh Road, Hutton) represents an ideal site to respond to the above

Legally Compliant?: Not Specified      Duty to Co-operate?: Not Specified      Sound?: No      Tests: None      Examination: Not Specified

**26783 Object****Respondent: Wiggins Gee Homes Ltd [2788]****Agent: David Russell Associates (Mr David Russell) [487]**

Summary: Some justifications were given for reducing R18, R19, R25 and R26's potential capacity, but no justification is given for transferring this lost capacity to the Dunton Hills Garden Village Strategic Allocation (DHGV). DHGV is surrounded by too much controversy and too many outstanding issues over the timing of housing delivery and the capacity of local and regional infrastructure to fully support this strategic proposal. Brentwood's immediate neighbours continue to maintain strong opposition to the proposal. It should not be a "cure-all" repository for the Borough's planning problems.

Change To Plan: The 2.8 ha of land at Crow Green Lane, Pilgrims Hatch owned by Wiggins Gee Homes Limited is in single ownership, available now, and could be used for much needed affordable housing. It is not subject to objections from other major parties to the Local Plan preparation process. It does not have serious implications for local and regional infrastructure. It is located in the Local Plan's A12 Growth Corridor, enjoying far better environmental and social conditions than some of the other allocations being proposed in this Corridor. Its effect on the Green Belt would be negligible compared to DHGV.

**26789 Object****Respondent: Historic England (Andrew Marsh) [8824]****Agent: N/A**

Summary: The site contains three Grade II listed buildings and is surrounded by a range of other designated heritage assets. Development on site therefore has the potential to harm the significance designated heritage assets within the setting of the site. A Heritage Impact Assessment (HIA) is required to justify its allocation, inform the potential capacity of the site, and any mitigation measures necessary to accompany the proposals. Additional characterisation and archaeological investigations will also be fundamental to understanding the capacity of development on site.

Change To Plan: Given the sensitive nature of the site and given the lack of supporting evidence on the historic environment, we reiterate our request that a Heritage Impact Assessment (HIA) is undertaken. The HIA should determine the appropriateness or otherwise of the site for development, the extent of the development and therefore potential capacity of the site, the impacts upon the historic environment (considering each asset and its setting and its significance), impacts of development upon the asset and any potential mitigation measures necessary to accompany the proposals. Should the HIA conclude that development in the area could be acceptable and the site be allocated, the findings of the HIA should inform the Local Plan policy including development criteria and a strategy diagram which expresses the development criteria in diagrammatic form. Further archaeological investigation is undertaken as well as landscape characterisation work to inform the evidence base

**26881 Object****Respondent: Icen Projects Limited (Mr Luke Challenger) [7052]****Agent: N/A**

Summary: The proposed modifications are further delaying the delivery of housing until later in the Plan period pushing out 70 dwellings from Years 7 - 9 to Years 15 - 17. While this is a modest number of homes it demonstrates the significant challenge the Council is facing in the delivery of housing in the early years of the Plan period; The Pre-Submission Plan is seeking to deliver just a 1% buffer on top of the minimum LHN of 454 dwellings. The Sustainability Appraisal accompanying the Consultation warns against this approach, stating that there is an over reliance on Dunton Hills Garden Village for housing delivery "which leads to an increased degree of risk in respect of delays to delivery.

Change To Plan: In order to address the soundness issues we consider that the housing target should be reviewed with regard to the new evidence and that further sources of land supply should be identified, not only to deal with shortfalls over the plan period in total, but also specifically within its first 10 years. Land to the north of West Horndon railway station is available, suitable and deliverable and can contribute to meeting this shortfall. Importantly, it can come forward independently of the wider area of growth being promoted by EASL to the south of the settlement (in Thurrock Borough). The Brentwood Local Plan needs to seriously consider early delivery to ensure the Plan provides sufficient housing for Five Year Housing Land Supply, and for years 5 - 10. Early delivery of West Horndon would assist DHGV coming forward as it would act as a catalyst for housing delivery in this area of Brentwood and enhance the attractiveness of DHGV from a purchaser's perspective. It would also help a Local Plan inspector determine that Brentwood's Local Plan is sound; as is self-evident from the present draft of the Local Plan that Brentwood's ability to meet its housing needs is inextricably linked with the release of Green Belt land, primarily at DHGV. The failure to adopt a local plan would not only result in Brentwood being unable to address its housing needs, it would deprive DHGV of the policy context in which to come forward as a planning application proposal, thereby exacerbating the deficit. We had previously set out in the West Horndon Delivery Statement (Appendix 1 to our March 2019 representations) that the site could deliver first completions by 2024. This would mean that significant numbers of homes could be delivered within the first 5 - 10 years of the plan period helping to address the soundness issues identified. We trust these representations clarify our position and that they are taken into consideration in the advancement of the Local Plan.

**27257 Object****Respondent: Blackmore Village Heritage Association (Mr William Ratcliffe) [4874]****Agent: N/A**

Summary: Dunton Hills Garden Village Strategic Allocation The allocation should be further increased and the delivery programme accelerated in order to remove policies R25 and R26 from the LDP

Change To Plan: Remove R25 and R26 from the Plan. The LDP, in so far as the 2 Blackmore sites are concerned, was never written strategically and indeed prior to Reg 18 the BBC position was the correct position i.e, R25 and R26 are wholly inappropriate for development. We therefore need to reverse out of Regs 18 and 19 and return us to the correct position as stated in January 2016.

**27471 Object****Respondent: Mrs Beryl Burgess [5030]****Agent: N/A**

Summary: Q - FOCUSSED CHANGE 4 - PART A POLICY R25 - Land North of Woollard Way, Blackmore. Greenfield and Green Belt. (36% of total responses, March 2019). To be read in conjunction with Focussed Change 5 - All comments apply to both sites. Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree

Change To Plan: Remove R25 and R26 from plan

Summary: Dunton Hills Garden Village Strategic Allocation The allocation should be further increased and the delivery programme accelerated in order to remove policies R25 and R26 from the LDP. I agree - Dunton Hills can accommodate the houses planned for Blackmore

Change To Plan: Deal Tree Health Centre is already operating at figures beyond the optimum number of patients per GP, as outlined in the Brentwood Infrastructure Delivery Plan (IDP). New housing has already impacted this further, with developments in Rookery Road and The Elms in Lower Road Mounthessing, along with travellers who have occupied land on the Chelmsford Road all squeezing Deal Tree Health Centre further. The addition of the proposed new properties in Blackmore under R25 and R26 will further exacerbate the problem.

**28021 Object****Respondent: Mr Thomas Hughes [8637]****Agent: N/A**

Summary: Q5 FOCUSSED CHANGE 2: POLICY R18 - Land off Crescent Drive, Shenfield. Brownfield. (Less than 1% of total responses, March 2019) Brownfield sites should be prioritised over Greenfield, and Green Belt should not be released at all unless all other alternatives have been used to fulfil the target housing allocations. The number of homes should be increased back to a minimum of 55 and R25 & R26 should be removed entirely.  
I agree

Summary: Dunton Hills Garden Village Strategic Allocation The allocation should be further increased and the delivery programme accelerated in order to remove policies R25 and R26 from the LDP  
I agree - Dunton Hills can accommodate the houses planned for Blackmore

Change To Plan: Remove R25 and R26 from the Plan. 1. Focussed Change 4 - PART D  
If you allow this farm to be developed whatever the developers say 12 dwellings they will be up to the A414 in the blink of an eye. 2. Focussed Change 5 - PART B  
Honeypot Lane is close to all amenities inc the M25 (both directions) and Romford. I lived in the area a lot of my life and I know it well. We were close to everything. It has good schools - St Peter's is a great attraction as are all of the senior schools. 3. Additional Comments The original meeting was conducted in a disgusting manner. No evidence was discussed about Blackmore, just a vote. Not the way to conduct an important meeting.

**28298 Object****Respondent: Mr Craig Stevens [4958]****Agent: N/A**

Summary: Dunton Hills Garden Village Strategic Allocation The allocation should be further increased and the delivery programme accelerated in order to remove policies R25 and R26 from the LDP  
I agree - Dunton Hills can accommodate the houses planned for Blackmore

Change To Plan: Remove R25 and R26 from the Plan. Blackmore has been incorrectly graded and placed in the wrong category. The proposal is unsound and also there has not been enough corroboration between Brentwood and Epping, who have already placed an burden on housing which is right on the Brentwood border and this will directly affect Blackmore.

**28834 Object****Respondent: Mr Douglas Piper [603]****Agent: N/A**

Summary: Q - FOCUSSED CHANGE 1: POLICY R01 - Dunton Hills Garden Village Strategic Allocation. The allocation should be further increased and the delivery programme accelerated in order to remove policies R25 and R26 from the LDP  
 A - I agree - Dunton Hills can accommodate the houses planned for Blackmore

Change To Plan: Remove R25 and R26 from plan

Legally Compliant?: Not Specified      Duty to Co-operate?: Not Specified      Sound?: Not Specified      Tests: None      Examination: No

Full Reference: O - 28834 - 603 - Policy R01 (I): Dunton Hills Garden Village Strategic Allocation (page 252) - None

**28840 Object****Respondent: Mr Gary Dimond [7055]****Agent: N/A**

Summary: Dunton Hills Garden Village Strategic Allocation The allocation should be further increased and the delivery programme accelerated in order to remove policies R25 and R26 from the LDP  
I agree - Dunton Hills can accommodate the houses planned for Blackmore

Change To Plan: Reducing the proposed number of houses on the Blackmore green belt sites does not address the objections to the LDP regarding unjustifiable loss of green belt.

Legally Compliant?: No                      Duty to Co-operate?: No                      Sound?: No                      Tests: i, ii, iii, iv                      Examination: No

Full Reference: O - 28840 - 7055 - Policy R01 (I): Dunton Hills Garden Village Strategic Allocation (page 252) - i, ii, iii, iv

**28845 Object****Respondent: Mrs Ruth Dimond [4851]****Agent: N/A**

Summary: Dunton Hills Garden Village Strategic Allocation The allocation should be further increased and the delivery programme accelerated in order to remove policies R25 and R26 from the LDP  
I agree - Dunton Hills can accommodate the houses planned for Blackmore

Change To Plan: Development in remote rural villages such as Blackmore will inevitably lead to increased road traffic because of the lack of jobs and infrastructure. More suitable sites with far better infrastructure are not being fully utilised. All proposed alterations to green belt boundaries should be fully evidenced and justified according to National Planning Policy and this has not happened, the choice of sites has been developer-lead. Alternatives to green belt development in the immediate vicinity of Blackmore village are being ignored by the LDP.

Legally Compliant?: No                      Duty to Co-operate?: No                      Sound?: No                      Tests: i, ii, iii, iv                      Examination: No

Full Reference: O - 28845 - 4851 - Policy R01 (I): Dunton Hills Garden Village Strategic Allocation (page 252) - i, ii, iii, iv

**28850 Object****Respondent: Mr Conrad Dixon [8688]****Agent: N/A**

Summary: Dunton Hills Garden Village Strategic Allocation The allocation should be further increased and the delivery programme accelerated in order to remove policies R25 and R26 from the LDP  
I agree - Dunton Hills can accommodate the houses planned for Blackmore

Change To Plan: The extra demand on infrastructure has not been adequately planned for or costed. To proceed on this basis would be reckless, given the risk of road traffic accidents and higher flood risk. There are more sound locations available for the proposed developments.

Legally Compliant?: No                      Duty to Co-operate?: No                      Sound?: No                      Tests: i, ii, iii, iv                      Examination: No

Full Reference: O - 28850 - 8688 - Policy R01 (I): Dunton Hills Garden Village Strategic Allocation (page 252) - i, ii, iii, iv

**28855 Object****Respondent: Mrs Jennifer Dodd [5498]****Agent: N/A**

Summary: Dunton Hills Garden Village Strategic Allocation The allocation should be further increased and the delivery programme accelerated in order to remove policies R25 and R26 from the LDP  
I agree - Dunton Hills can accommodate the houses planned for Blackmore

Change To Plan: Remove R25 and R26 from the Plan.

Legally Compliant?: No                      Duty to Co-operate?: No                      Sound?: No                      Tests: i, ii, iii, iv                      Examination: No

Full Reference: O - 28855 - 5498 - Policy R01 (I): Dunton Hills Garden Village Strategic Allocation (page 252) - i, ii, iii, iv

**28860 Object****Respondent: Mr Alan Dodd [4828]****Agent: N/A**

Summary: Dunton Hills Garden Village Strategic Allocation The allocation should be further increased and the delivery programme accelerated in order to remove policies R25 and R26 from the LDP  
I agree - Dunton Hills can accommodate the houses planned for Blackmore

Change To Plan: I am concerned by the development being undertaken by Epping Council on Fingrith Hall Lane that is a real threat to Blackmore local services. There does not appear to have been any published consultation between Brentwood planners and Epping DC and no evidence of working together planners that is a requirement in these circumstances. This should be rectified without further delay.

Legally Compliant?: No                      Duty to Co-operate?: No                      Sound?: No                      Tests: i, ii, iii, iv                      Examination: No

**28944 Object****Respondent: Samantha Dunk [8438]****Agent: N/A**

Summary: Dunton Hills Garden Village Strategic Allocation The allocation should be further increased and the delivery programme accelerated in order to remove policies R25 and R26 from the LDP  
I agree - Dunton Hills can accommodate the houses planned for Blackmore

Change To Plan: Just to reinforce the fact that the infrastructure in our tiny village is wholly inadequate to support building on the scale proposed on our beautiful Green Belt land. Remove R25 and R26 from the Plan.

Legally Compliant?: No      Duty to Co-operate?: No      Sound?: No      Tests: i, ii, iii, iv      Examination: No

Full Reference: O - 28944 - 8438 - Policy R01 (I): Dunton Hills Garden Village Strategic Allocation (page 252) - i, ii, iii, iv

**28949 Object****Respondent: Ms Christine Durdant-Pead [8117]****Agent: N/A**

Summary: Dunton Hills Garden Village Strategic Allocation The allocation should be further increased and the delivery programme accelerated in order to remove policies R25 and R26 from the LDP  
I agree - Dunton Hills can accommodate the houses planned for Blackmore

Change To Plan: Had Blackmore been given the correct status in keeping with its size and facilities then this situation would never have got underway. Blackmore is not a 'Large Village' given it only has one local corner shop to provide for its current residents. Remove R25 and R26 from the Plan.

Legally Compliant?: No      Duty to Co-operate?: No      Sound?: No      Tests: i, ii, iii, iv      Examination: No

Full Reference: O - 28949 - 8117 - Policy R01 (I): Dunton Hills Garden Village Strategic Allocation (page 252) - i, ii, iii, iv

**28954 Object****Respondent: Mr Gary Durdant-Pead [8326]****Agent: N/A**

Summary: Dunton Hills Garden Village Strategic Allocation The allocation should be further increased and the delivery programme accelerated in order to remove policies R25 and R26 from the LDP  
I agree - Dunton Hills can accommodate the houses planned for Blackmore

Change To Plan: As a new resident in Blackmore it is obvious that the Village cannot sustain the proposed growth to the population by way of more housing. The Village is not a 'Large Village' and does not meet the criteria to be considered as such. Therefore the current LDP for Blackmore should be abandoned.

Legally Compliant?: No      Duty to Co-operate?: No      Sound?: No      Tests: i, ii, iii, iv      Examination: No

**29098 Object****Respondent: Miss Emily Dimond [7227]****Agent: N/A**

Summary: Dunton Hills Garden Village Strategic Allocation The allocation should be further increased and the delivery programme accelerated in order to remove policies R25 and R26 from the LDP  
 I agree - Dunton Hills can accommodate the houses planned for Blackmore

Change To Plan: I believe the more suitable brownfield locations have not been fully considered before planning building on Blackmore's Greenfield sites (R25 & R26). As recommendation under the National Planning Policy all other alternatives should be fully considered before greenbelt development is authorised. I therefore wholly OBJECT to the inclusion of these sites within the LDP.

I agree - Dunton Hills can accommodate the houses planned for Blackmore

Change To Plan: The process that has been followed seems flawed. 1. The parish comments were not taken into consideration at the hearing when the decision was made by BBC because they ran out of time and the parish representations were not heard. 2. I do not believe that the local villagers concerns have been listened to or addressed, hence the strong feelings that have caused the formation of BVHA and so many responses for the size of our community. 3. There are other sites more suitable that have not been considered, eg. Stondon Massey Parish have welcomed opportunities for more housing to regenerate their village. 4. The broader development picture has not been looked at, the development plans of Epping Borough council and the already agreed building that is going on. 5. A proper impact study has not been completed looking at whether the village can cope with this level of development, looking at the whole picture of recent housing expansion not just the LDP.

Legally Compliant?: No                      Duty to Co-operate?: No                      Sound?: No                      Tests: i, ii, iii, iv                      Examination: No

Full Reference: O - 29238 - 8459 - Policy R01 (I): Dunton Hills Garden Village Strategic Allocation (page 252) - i, ii, iii, iv

**29239 Object****Respondent: Mr Graham Gregory [9029]****Agent: N/A**

Summary: Q - FOCUSSED CHANGE 1: POLICY R01 - Dunton Hills Garden Village Strategic Allocation. The allocation should be further increased and the delivery programme accelerated in order to remove policies R25 and R26 from the LDP  
 A - I agree - Dunton Hills can accommodate the houses planned for Blackmore

Change To Plan: Remove R25 and R26 from plan

Legally Compliant?: Not Specified      Duty to Co-operate?: Not Specified      Sound?: Not Specified      Tests: None      Examination: No

Full Reference: O - 29239 - 9029 - Policy R01 (I): Dunton Hills Garden Village Strategic Allocation (page 252) - None

**29253 Object****Respondent: Mr Richard Fisher [8480]****Agent: N/A**

Summary: Dunton Hills Garden Village Strategic Allocation The allocation should be further increased and the delivery programme accelerated in order to remove policies R25 and R26 from the LDP  
 I agree - Dunton Hills can accommodate the houses planned for Blackmore

Change To Plan: Technically the LDP has been poorly executed and poorly considered. Lack of joined up consultation with the neighbouring borough, not allowing local parish representations to be heard, not considering the overwhelming response of the villages that live here. We don't object to building, but use the brown field sites and common sense please.

Legally Compliant?: No      Duty to Co-operate?: No      Sound?: No      Tests: i, ii, iii, iv      Examination: No

Full Reference: O - 29253 - 8480 - Policy R01 (I): Dunton Hills Garden Village Strategic Allocation (page 252) - i, ii, iii, iv

**29254 Object****Respondent: Ms Doreen Greenshields [8460]****Agent: N/A**

Summary: - FOCUSSED CHANGE 1: POLICY R01 - Dunton Hills Garden Village Strategic Allocation. The allocation should be further increased and the delivery programme accelerated in order to remove policies R25 and R26 from the LDP  
 I disagree - Dunton Hills should not be made to accommodate the houses planned for Blackmore

Change To Plan: Remove R25 and R26 from plan

**29267 Object****Respondent: Paul Fletcher [9030]****Agent: N/A**

Summary: Dunton Hills Garden Village Strategic Allocation The allocation should be further increased and the delivery programme accelerated in order to remove policies R25 and R26 from the LDP  
I agree - Dunton Hills can accommodate the houses planned for Blackmore

Change To Plan: Building on greenbelt would downgrade its designation leading to potentially further development on greenbelt land. If houses are built on sites R25 and R26 what plans would prevent further development of greenbelt land around Blackmore and throughout the Borough of Brentwood?

**29437 Object****Respondent: Tom McLaren [8992]****Agent: N/A**

Summary: Dunton Hills Garden Village Strategic Allocation The allocation should be further increased and the delivery programme accelerated in order to remove policies R25 and R26 from the LDP  
I disagree - Dunton Hills should not be made to accommodate the houses planned for Blackmore. The number of houses allocated to Blackmore is small and can easily be accommodated through either windfall sites or existing brownfield sites within the borough which are not currently scheduled for development.

Change To Plan: Remove R25 and R26

Legally Compliant?: Not Specified      Duty to Co-operate?: Not Specified      Sound?: Not Specified      Tests: None      Examination: No

**26532 Support****Respondent: Ms Rebecca Edwards [8477]****Agent: N/A**

Summary: I believe there is capacity to support the additional houses.

Change To Plan:

Legally Compliant?: Not Specified      Duty to Co-operate?: Not Specified      Sound?: Not Specified      Tests: N/A      Examination: Not Specified

Full Reference: S - 26532 - 8477 - Policy R01 (I): Dunton Hills Garden Village Strategic Allocation (page 252) - None

**26587 Support****Respondent: Rochford District Council (Daniel Goodman) [7964]****Agent: N/A**

Summary: Rochford District Council raises no objection to the proposed amendments to Brentwood Borough Council's Pre-Submission Draft Local Plan, namely the revised capacities of various sites proposed for development. Brentwood Borough Council should, however, satisfy themselves and the Inspector that the policies subject to amendment, in the context of its wider spatial strategy, are both sound and deliverable. In particular, Brentwood Borough Council should satisfy itself that the rate of development suggested for 'Dunton Hills Garden Village' is deliverable and realistic in order to ensure no unmet needs will arise.

Change To Plan:

Legally Compliant?: Not Specified      Duty to Co-operate?: Not Specified      Sound?: Not Specified      Tests: N/A      Examination: Not Specified

**26659 Support****Respondent: Wood (on behalf of National Grid) (Ms Lucy Bartley) [8094]****Agent: N/A**

Summary: the following sites have been identified as being crossed or in close proximity to National Grid infrastructure. Further details are provided in the table overleaf.

Electricity Transmission

Site Ref Asset Details Appendix Ref E11- Brentwood Enterprise Park

ZB Route - 275Kv two circuit route from Warley substation in Havering to Waltham Cross substation in Epping Forest ET329 (GT113)

Gas Transmission Site Ref Asset Details Appendix Ref R01

Strategic Allocation Brentwood Hills Garden Village

FM05 - Braintree to Horndon GT111

R06 - Land off Nags Head Lane, Brentwood

FM18 - Stapleford Tawney to Tilbury Thames North GT112

E11- Brentwood Enterprise Park

FM18 - Stapleford Tawney to Tilbury Thames North GT113 (ET329)

Please see attached plan referenced ET329, GT111, GT112 & GT113 at Appendix 2. The proposed sites are crossed by a National Grid high voltage electricity transmission overhead line and/or National Grid underground high-pressure gas pipeline. The statutory safety clearances between overhead lines, the ground, and built structures must not be infringed. Where changes are proposed to ground levels beneath an existing line then it is important that changes inground levels do not result in safety clearances being infringed. National Grid can, on request, provide to developers detailed line profile drawings that detail the height of conductors, above ordnance datum, at a specific site. You can find National Grid's guidelines for developing near Over Head Lines here: [https://www.nationalgrid.com/sites/default/files/documents/Development%20near%20overhead%20lines\\_0.pdf](https://www.nationalgrid.com/sites/default/files/documents/Development%20near%20overhead%20lines_0.pdf)

CHAPTER: Addendum of Focussed Policy R18: Land off Crescent Drive, Shenfield (page 290)  
Changes to the Pre-Submission

**26533 Object** Respondent: Ms Rebecca Edwards [8477] Agent: N/A

Summary: This site is BROWNFIELD, not Greenbelt like sites R25 and R26.

Change To Plan: The number of homes should be increased back to a minimum of 55 and policies R25 and R26 reduced by 20.

Legally Compliant?: No Duty to Co-operate?: No Sound?: No Tests: i Examination: No

Full Reference: O - 26533 - 8477 - Policy R18: Land off Crescent Drive, Shenfield (page 290) - i

**26560 Object** Respondent: Mr Kevin Craske [2712] Agent: N/A

Summary: The reduction in the number of homes from 55 to 35 (almost 40%) in the Crescent Drive area is purportedly due to i) inconsistency of character, ii) implications on traffic and safety, iii) Development on an urban open space, iv) environment, habitat and flood impact. Shenfield is an affluent area so any extra homes are unwelcome and out of character unless they are large and expensive. The need for homes must outweigh this and the council must find a way to build homes where needed, not where residents object on this basis. This is NIMBYISM of the highest order and should NOT be allowed. Come on Brentwood do the right thing by ALL borough residents not just the rich few! Crescent Drive to be a quiet almost traffic free area when I go to the Community Hospital so where is the traffic coming from? It is within 1 mile of the A12 so where is the issue with highway access? This sounds like a made up excuse to give padding to this reduction of home build in the area. It is nonsense. How can a suburban area have an environment and habitat and flood risk which is of more importance than Green Belt? Our area of green belt is under severe risk as it is with the Thames tunnel plan and Brentwood council are making matters worse by adding to this pressure. In a Green Belt borough emphasis should be on urban/suburban new build not on using green belt as an easy option. Why are Shenfield opinions more important than that of West Horndon opinions? These justifications appear fatuous to me and this proposed change should be rescinded as the council and planning department appear to be making fools of themselves. These are not serious justifications for a re-think, more like a plan to try and shift as much new build as possible as far away from Brentwood Town as possible. When all recent road improvements are on the A12 corridor and the high speed link on rail is coming to Shenfield surely it makes sense to put as many new homes as possible in that area which is also rich in the settlement hierarchy with good transport links, shops and open areas. So again there in an obvious disconnect with no joined up thinking

Change To Plan:

Legally Compliant?: Not Specified Duty to Co-operate?: Not Specified Sound?: Not Specified Tests: None Examination: Not Specified

Full Reference: O - 26560 - 2712 - Policy R18: Land off Crescent Drive, Shenfield (page 290) - None

**26564 Object** Respondent: Mr Kevin Craske [2712] Agent: N/A

Summary: As a separate issue, why has the number of homes on brownfields sites reduced from 1152 to 1132?. There is no mention of where, when or why! Still, I expect they will be relocated to Dunton Hills Garden Town obviously.

Change To Plan:

Legally Compliant?: Not Specified Duty to Co-operate?: Not Specified Sound?: Not Specified Tests: None Examination: Not Specified

Full Reference: O - 26564 - 2712 - Policy R18: Land off Crescent Drive, Shenfield (page 290) - None

**26576 Object** Respondent: Mr Anthony Cross [4376] Agent: N/A

Summary: The number of proposed dwellings should not be reduced. This site, being brownfield land, is much more appropriate for development compared to greenfield sites included in the LDP. For example, the additional 20 dwellings that could be built here, would go part of the way towards enabling the removal of sites R25 and R26 from the plan.

Change To Plan: The number of dwellings to be developed on this site should remain at 55.

Legally Compliant?: No Duty to Co-operate?: No Sound?: No Tests: ii, iv Examination: No

Full Reference: O - 26594 - 8678 - Policy R18: Land off Crescent Drive, Shenfield (page 290) - None

**26607 Object****Respondent: Susan Harris [8686]****Agent: N/A**

Summary: The 20 home reduction should be re-instated

Change To Plan: Brownfield site in town 20 additional homes will have less impact than on a small village with no infrastructure such as Blackmore

Legally Compliant?: Yes                      Duty to Co-operate?: Yes                      Sound?: Yes                      Tests: None                      Examination: No

Full Reference: O - 26607 - 8686 - Policy R18: Land off Crescent Drive, Shenfield (page 290) - None

**26626 Object****Respondent: Punch Partnerships (PGRP) Ltd [8801]****Agent: Cordage Group (Miss Lauren Parsons) [8797]**

Summary: The proposed reduction in housing numbers in Shenfield and Blackmore reduces housing numbers in sustainable settlements where growth is needed, and puts them in a less sustainable location. In relocating the units to the proposed strategic allocation at Denton Hills, the provision of these units will inevitably occur later in the plan period, when the focus should be on early provision to address the current housing land supply shortfall. The site at Spital Lane is an ideal candidate, having minimal impact on the openness of the Green Belt, being capable of accommodating six houses without any risk of flooding.

Change To Plan: A much better solution would be to reprovide the units lost from the Shenfield and Blackmore allocations on sustainable sites in and around Brentwood. The site at Spital Lane is an ideal candidate, being located on the edge of the town close to services and facilities, having minimal impact on the openness of the Green Belt, and as per the Environment Agency comments on the most recent planning application, being capable of accommodating six houses without any risk of flooding. We therefore advocate that Spital Lane be allocated for housing in the emerging plan, along with other suitable smaller sites identified in the SHLAA, to make up the housing numbers lost in Shenfield and Blackmore.

Legally Compliant?: No                      Duty to Co-operate?: No                      Sound?: No                      Tests: i, ii, iii, iv                      Examination: No

**26633 Object****Respondent: Mrs Patricia Dillon [8417]****Agent: N/A**

Summary: Brownfield site in ton centre no reduction should be allowed.

Change To Plan: Confirm objection to reduction.

Legally Compliant?: Yes                      Duty to Co-operate?: Yes                      Sound?: Yes                      Tests: None                      Examination: No

Full Reference: O - 26633 - 8417 - Policy R18: Land off Crescent Drive, Shenfield (page 290) - None

**26640 Object****Respondent: Mr Adam Harris [8679]****Agent: N/A**

Summary: Brownfield site with good transport &amp; infrastructure

Change To Plan: This reduction should be reversed

Legally Compliant?: Yes                      Duty to Co-operate?: Yes                      Sound?: Yes                      Tests: None                      Examination: No

Full Reference: O - 26640 - 8679 - Policy R18: Land off Crescent Drive, Shenfield (page 290) - None

**26706 Object****Respondent: Mr. David Cartwright [7193]****Agent: N/A**

Summary: The number of planned houses should not be reduced as there is already the local infrastructure to support the proposed level of development

Change To Plan: Leave the number of houses as originally planned

Legally Compliant?: Yes                      Duty to Co-operate?: No                      Sound?: No                      Tests: i, iii                      Examination: No

Full Reference: O - 26706 - 7193 - Policy R18: Land off Crescent Drive, Shenfield (page 290) - i, iii

**26714 Object****Respondent: Mrs. Margaret Cartwright [7195]****Agent: N/A**

Summary: The number of houses on this development should remain. This site has numerous facilities including railway, shops schools and medical support locally. Government policy is that brownfield sites must be developed in preference to green field sites and therefore the development of there's houses should be confirmed to protect any risk to greenfield sites

Change To Plan: The original number of houses must remain and not be reduced

Legally Compliant?: No                      Duty to Co-operate?: No                      Sound?: No                      Tests: i, iv                      Examination: No

Full Reference: O - 26714 - 7195 - Policy R18: Land off Crescent Drive, Shenfield (page 290) - i, iv

**26724 Object****Respondent: Fairview New Homes Ltd (Ms Faye Wilders) [8365]****Agent: N/A**

Summary: Please see attached letter

- \* The Council's failure to demonstrate that the strategic requirement of National Planning Policy Framework have need met. Therefore, the Local Plan is not legally compliant or sound;
- \* That no evidence or justification has been provided by the Council to justify the reduction in the number of units allocated of the site;
- \* The lack of evidence and justification behind the Council's decision to reallocate additional housing onto a large strategic Green Belt allocation where the delivery has already been highlighted as risk within the Sustainability Appraisal 2019; and
- \* The continued failure of the Council to support the full capacity of a strategic site, despite discussion with Development Management and Statutory Consultees which demonstrate that the site could accommodate in excess of 55 units.

**26728 Object****Respondent: Essex County Council (Mrs Anne Clitheroe) [6776]****Agent: N/A**

Summary: NPPF para 31 requires planning policies to be underpinned by relevant and up to date evidence.

- BBC need to be satisfied reduction in dwelling numbers is supported by appropriate evidence base, including:
- demonstrating site makes effective and efficient use of land (paragraphs 117, 118, 122 and 123 of the NPPF)
  - is economically viable (paragraph 67)
  - updated transport evidence base fully assesses transport implications.

Proposed policy change does not address ECC's Pre-Submission Reg.19 consultation representations to this policy (March 2019).

ECC's position has not changed on this matter.

Change To Plan: As a result of the reduction in dwelling numbers for this site allocation BBC should include, within the Plan evidence and supporting text for this Policy, details to demonstrate that the site allocation makes effective and efficient use of land, and is economically viable.

BBC should also update its transport evidence base for the Local Plan to fully assess the transport implications of the change in dwellings numbers on this site allocation.

The policy needs to be further changed to address ECC's representations to this policy made to the Pre-Submission Regulation 19 Local Plan consultation in March 2019.

**26745 Object****Respondent: Basildon Borough Council (Ms Christine Lyons) [8820]****Agent: N/A**

Summary: Basildon Council objects to the Focussed Changes 1 - 5, as they do not seem to have been informed by evidence or the Sustainability Appraisal as required by National Policy. The amendments effectively redistributes 70 proposed dwellings from the 'Central Brentwood Growth Corridor', which has opportunities to embrace more sustainable modes of transport, to a Green Belt location with a less developed public transport infrastructure. The reasons for the amendments do not seem to be supported by the evidence and appear to be based solely on the considerable number of objections received in response to the Pre-Submission Local Plan consultation in March 2019. The Brentwood Sustainability Appraisal October 2019 concludes that;

"It is difficult to draw strong conclusions, with the primary considerations being: A) decreasing the homes assigned to the Brentwood/Shenfield urban area by 50 may serve to reduce traffic through the problematic town centre AQMA, but any benefit would be marginal, and equally these are accessible locations suited to minimising car dependency; and B) increasing the number of homes assigned to DHGV by 70 is potentially associated with a degree of risk, noting the ongoing work being undertaken in respect of improving air quality along the A127 within Basildon Borough, and noting consultation responses received."

Paragraph 16 of the NPPF advises amongst other things that Plans should be prepared with the objective of contributing to the achievement of sustainable development. Basildon Council has considered the two Growth Corridors identified in the Brentwood Borough Local Plan. It has reflected however that there are fundamental distinctions between them, which do not appear to have influenced site selection choices in a justified way. The Central Brentwood Growth Corridor is the location of nationally and regionally managed and maintained infrastructure - the A12 & M25 (Highways England) and the Elizabeth Line (maintained by Network Rail and operated by Transport for London) and East Anglia Line (maintained by Network Rail and operated by Abellio East Anglia). Growth in this location would maximise this infrastructure investment. The South Brentwood Growth Corridor meanwhile, consists the A127 (maintained by Essex County Council) and Essex Thameside Line (maintained by Network Rail and operated by c2c).

It is not considered that the two corridors offer comparable choices in terms of the strategic importance or capacity of transport connections, and using the Sustainability Appraisal and other evidence, the Plan should select sites within the Central Brentwood Growth Corridor that provide opportunity for extensions to towns and villages that can encourage more sustainable travel choices and take advantage of the strategic infrastructure available. This would encourage commuting behaviour to shift away from private car use and therefore make this location a more sustainable and viable option to concentrate growth. Such an alternative approach would be justified by evidence and align with national policy.

## 26775 Object

Respondent: Philip Cunliffe-Jones [1406]

Agent: N/A

Summary: Focussed change reducing dwellings to "around 35 homes". This will keep an area of on site public open space. I consider that this change has not been positively prepared and not consistent with policies in the NPPF requiring an integrated approach to housing and community facilities. The woodland open space should be a priority and an opportunity to enhance a community asset in an area of open space deprivation is foregone.

(i) Paragraph 3 of the Focussed Changes Consultation states that a significant number of representations were received, and a summary of key concerns raised "include inconsistency with the character of the local area in regard to density; implications of increased traffic and associated safety; highway access; development on urban open space; environmental and habitats impacts; and flooding."

(ii) No site appraisal justifying the proposed change appears to have been prepared. The character of the area was established by the Glanthsams Park Estate Development scheme and layout with some statutory and charitable modifications before the redevelopment of the main hospital site in 2011 with the transfer of land for a public woodland opens space, and a footpath between the hospital and the Regional Blood Transfusion site (R18). In addition to the footpath the R18 site benefits from an easement for a right of way connecting to Worrin Road.

(iii) The proposed focussed change to R18 does not relate to the objectives of the Hospital redevelopment scheme and transfer of public woodland open space.

(iv) These objections are supported by a serious caveat in the Addendum to the SA Report prepared by AECOM Infrastructure, and a conclusion which is couched in evasive language.

(v) The Addendum is qualified by being in accordance with the established budget, and also states that information provided by third parties has not been checked. At paragraph 2.5.3 of the Addendum there is a caveat that costly "costly access and transport infrastructure upgrades will be required in order to ensure a good flow of traffic and support safe access by walking and cycling..... There is a need to question whether scheme viability could be adversely affected as a result in the reduction in the number of homes". In other words, the work has not been carried out to justify the soundness of the change

(vi) The conclusion to the Addendum at paragraph 2.5.6 is equivocal. It makes the highly dubious assertion that a response to (some but not all) concerns has positive implications for community objectives while highlighting an unquantified degree of uncertainty concerning infrastructure, including community infrastructure at DHGV.

(vii). It is open to the Council to make an order under the Highways Act creating a byway for all traffic over its easement. This would open up the public open space transferred in 2011, which has been the subject since then of encroachments and trespass. There are other options. However, the focussed change proposed seeks to take a line of minimum development with some onsite open space to avoid grasping the nettle of integrated planned development. This is unsound, unjustified and inimical to national planning policy objectives and not in the public interest.

Philip Cunliffe-Jones

The number of homes should be increased back to a minimum of 55 and R25 & R26 should be removed entirely.  
A - I agree  
Our greenbelt sites are precious and need to be preserved for future generations to come. Once they are used for housing this can never be recovered. There are plenty of brown fill sites that are alternatives and these should be used to the maximum.

Change To Plan: Remove R25 and R26 from plan

Legally Compliant?: Not Specified      Duty to Co-operate?: Not Specified      Sound?: Not Specified      Tests: None      Examination: No

Full Reference: O - 27228 - 8857 - Policy R18: Land off Crescent Drive, Shenfield (page 290) - None

**27233 Object****Respondent: Alison Ratcliffe [8860]****Agent: N/A**

Summary: Brownfield sites should be prioritised over Greenfield, and Green Belt should not be released at all unless all other alternatives have been used to fulfil the target housing allocations. The number of homes should be increased back to a minimum of 55 and R25 & R26 should be removed entirely. These sites are next to existing housing and have the infrastructure and roads needed to access them. Increasing the density also makes sense.

Change To Plan: Remove R25 and R26 from the Plan. The ECM held at Brentwood BC on 8/11/18, when sites 25 and 26 were formally included in the LDP was undemocratic and flawed, and the debate should be held again and conducted properly

Legally Compliant?: No      Duty to Co-operate?: No      Sound?: No      Tests: i, ii, iii, iv      Examination: No

Full Reference: O - 27253 - 4875 - Policy R18: Land off Crescent Drive, Shenfield (page 290) - None

**27258 Object****Respondent: Blackmore Village Heritage Association (Mr William Ratcliffe) [4874] Agent: N/A**

Summary: Brownfield sites should be prioritised over Greenfield, and Green Belt should not be released at all unless all other alternatives have been used to fulfil the target housing allocations. The number of homes should be increased back to a minimum of 55 and R25 & R26 should be removed entirely. The density on this site needs to be increased to NPPF advised levels. As you will note from the number of people who responded in February-March 2019 it seems incongruous that numbers on a Brownfield site should ever have been considered for a reduction.

Change To Plan: Remove R25 and R26 from the Plan. The LDP, in so far as the 2 Blackmore sites are concerned, was never written strategically and indeed prior to Reg 18 the BBC position was the correct position i.e. R25 and R26 are wholly inappropriate for development. We therefore need to reverse out of Regs 18 and 19 and return us to the correct position as stated in January 2016.

Legally Compliant?: No Duty to Co-operate?: No Sound?: No Tests: i, ii, iii, iv Examination: No

**27267 Object****Respondent: Mrs Judith Brewster [8863] Agent: N/A**

Summary: Q - FOCUSSED CHANGE 2: POLICY R18 - Land off Crescent Drive, Shenfield. Brownfield. (Less than 1% of total responses, March 2019) Brownfield sites should be prioritised over Greenfield, and Green Belt should not be released at all unless all other alternatives have been used to fulfil the target housing allocations. The number of homes should be increased back to a minimum of 55 and R25 & R26 should be removed entirely.  
A - I agree. There are insufficient amenities and services available to people in Blackmore as it is. The result of extra population will cause these to be stretched so far that the village will not be able to cope. We already have very poor broadband (I have 1 mgb at best, normally .65) and no mobile signal.

(Less than 1% of total responses, March 2019)Brownfield sites should be prioritised over Greenfield, and Green Belt should not be released at all unless all other alternatives have been used to fulfil the target housing allocations. The number of homes should be increased back to a minimum of 55 and R25 & R26 should be removed entirely. I agree.  
R18 should never have been removed from the LDP and both R25 & R26 should never have been put back into the LDP as these two were originally excluded because they failed to meet infrastructure requirements and would further increase the already known flood risk for the areas in question.

Change To Plan: Remove R25 &amp; R26 and let the village undertake it's own survey for what the residents need - which will ONLY go on Brownfield.

Legally Compliant?: No      Duty to Co-operate?: No      Sound?: No      Tests: i, ii, iii, iv      Examination: No

The number of homes should be increased back to a minimum of 55 and R25 & R26 should be removed entirely. I agree

Change To Plan: Deal Tree Health Centre is already operating at figures beyond the optimum number of patients per GP, as outlined in the Brentwood Infrastructure Delivery Plan (IDP). New housing has already impacted this further, with developments in Rookery Road and The Elms in Lower Road Mountnessing, along with travellers who have occupied land on the Chelmsford Road all squeezing Deal Tree Health Centre further. The addition of the proposed new properties in Blackmore under R25 and R26 will further exacerbate the problem.

Legally Compliant?: No                      Duty to Co-operate?: No                      Sound?: No                      Tests: i, ii, iii, iv                      Examination: No

**27620 Object****Respondent: Mr. David Cartwright [7193]****Agent: N/A**

Summary: Q - FOCUSSED CHANGE 2: POLICY R18 - Land off Crescent Drive, Shenfield. Brownfield. (Less than 1% of total responses, March 2019) Brownfield sites should be prioritised over Greenfield, and Green Belt should not be released at all unless all other alternatives have been used to fulfil the target housing allocations. The number of homes should be increased back to a minimum of 55 and R25 & R26 should be removed entirely.  
A - I agree There are several brown field sites now being developed which were not taken into account during the original process and it is essential that they are now included to stop even further over development of the village and to stop any green belt developments

Change To Plan: Remove R25 and R26 from plan

Legally Compliant?: Not Specified                      Duty to Co-operate?: Not Specified                      Sound?: Not Specified                      Tests: None                      Examination: No

Full Reference: O - 27620 - 7193 - Policy R18: Land off Crescent Drive, Shenfield (page 290) - None

**27626 Object****Respondent: Mrs. Margaret Cartwright [7195]****Agent: N/A**

Summary: Q - FOCUSSED CHANGE 2: POLICY R18 - Land off Crescent Drive, Shenfield. Brownfield. (Less than 1% of total responses, March 2019) Brownfield sites should be prioritised over Greenfield, and Green Belt should not be released at all unless all other alternatives have been used to fulfil the target housing allocations. The number of homes should be increased back to a minimum of 55 and R25 & R26 should be removed entirely.  
A - I agree. There are known brownfield sites that the council have not looked at or considered in the planning process. The proposed building in red rose farm is an example.

Change To Plan: Remove R25 and R26 from plan

Legally Compliant?: Not Specified                      Duty to Co-operate?: Not Specified                      Sound?: Not Specified                      Tests: None                      Examination: No

Full Reference: O - 27626 - 7195 - Policy R18: Land off Crescent Drive, Shenfield (page 290) - None

**27628 Object****Respondent: Mrs Malanie Sanders [8511]****Agent: N/A**

Summary: Brownfield sites should be prioritised over Greenfield, and Green Belt should not be released at all unless all other alternatives have been used to fulfil the target housing allocations. The number of homes should be increased back to a minimum of 55 and R25 & R26 should be removed entirely. I agree. Crescent Drive is a brown field site with good road access and various local amenities already in place. Blackmore are green field sites with poor lane access, amenities already at breaking point. Constant flooding is also a major issue.

Change To Plan: Remove R25 and R26 from the Plan.

**27768 Object****Respondent: Ms Wendy Cohen [6923]****Agent: N/A**

Summary: Q - FOCUSSED CHANGE 2: POLICY R18 - Land off Crescent Drive, Shenfield. Brownfield. (Less than 1% of total responses, March 2019)Brownfield sites should be prioritised over Greenfield, and Green Belt should not be released at all unless all other alternatives have been used to fulfil the target housing allocations. The number of homes should be increased back to a minimum of 55 and R25 & R26 should be removed entirely.

A - I agree

It is entirely unacceptable to propose housing on green belt sites until all other sites have been used. Surely this is basic environmental sense.

Change To Plan: Remove R25 and R26 from plan

The number of homes should be increased back to a minimum of 55 and R25 & R26 should be removed entirely.  
I agree. I still even think, that an extra minimum of 55 houses in Crescent Drive, is going to cause traffic grid lock, both in Crescent Drive, and entering into the main road, leading to High Street, and from what I am witnessing there are a lot of garden infills being built, and offices changed into houses, which is going to cause massive over population in an already over crowded Brentwood.

**28049 Object****Respondent: William Alan Smith [8920]****Agent: N/A**

Summary: Brownfield sites should be prioritised over Greenfield, and Green Belt should not be released at all unless all other alternatives have been used to fulfil the target housing allocations. The number of homes should be increased back to a minimum of 55 and R25 & R26 should be removed entirely.  
I agree. Dunton Hills is much nearer to towns ie Basildon railway to Southend and London. Basildon hospital is a fine medical centre for heart and A&E. The Crescent Drive site is Brownfield near to all amenities but too expensive for the normal buyer so will not alleviate ordinary housing shortage.

Change To Plan: Remove R25 and R26 from the Plan. 1. Focussed Change 4 - PART D  
If you allow this farm to be developed whatever the developers say 12 dwellings they will be up to the A414 in the blink of an eye. 2. Focussed Change 5 - PART B  
Honeypot Lane is close to all amenities inc the M25 (both directions) and Romford. I lived in the area a lot of my life and I know it well. We were close to everything. It has good schools - St Peter's is a great attraction as are all of the senior schools. 3. Additional Comments The original meeting was conducted in a disgusting manner. No evidence was discussed about Blackmore, just a vote. Not the way to conduct an important meeting.

**28117 Object****Respondent: Mrs Diane Smith [8388]****Agent: N/A**

Summary: Brownfield sites should be prioritised over Greenfield, and Green Belt should not be released at all unless all other alternatives have been used to fulfil the target housing allocations. The number of homes should be increased back to a minimum of 55 and R25 & R26 should be removed entirely. I agree. Dunton is in easy reach of the Fenchurch Street line, Basildon hospital, Basildon town it is better for commuters and young families. Crescent Drive, the blood bank, is Brownfield which is OK as long as there is protection for wildlife. These houses would be top end market so does little to relieve housing shortage in Brentwood - they are millionaire houses.

Change To Plan: Remove R25 and R6 from the Plan.

The number of homes should be increased back to a minimum of 55 and R25 & R26 should be removed entirely.  
A - I agree. Blackmore should remain a small village. Local Amenities cannot accomodate a population increase. Local roads are not suitable for increased traffic, which more housing will cause.

The number of homes should be increased back to a minimum of 55 and R25 & R26 should be removed entirely.

I agree. There are more suitable brownfield sites within Brentwood. Our very own BVHA have identified such a site before green belt needs to be destroyed and lost forever.

Change To Plan: Remove R25 and R26 from the Plan. Blackmore has been incorrectly graded and placed in the wrong category. The proposal is unsound and also there has not been enough corroboration between Brentwood and Epping, who have already placed a burden on housing which is right on the Brentwood border and this will directly affect Blackmore.

The number of homes should be increased back to a minimum of 55 and R25 & R26 should be removed entirely.  
 A - I agree. 1) Roads in the vicinity of the village could not cope with any more traffic (especially heavy) traffic across the bridge near the green 2) A very narrow road in Redrose Lane, and other roads in Blackmore. A lot more traffic is an accident waiting to happen as parents bringing children to school who walk to school would be made very difficult to be able with any safety to go by foot.

Summary: Q - FOCUSSED CHANGE 2: POLICY R18 - Land off Crescent Drive, Shenfield. Brownfield. (Less than 1% of total responses, March 2019)Brownfield sites should be prioritised over Greenfield, and Green Belt should not be released at all unless all other alternatives have been used to fulfil the target housing allocations. The number of homes should be increased back to a minimum of 55 and R25 & R26 should be removed entirely.  
A - I agree. What is the rationale for reducing units on this site? It's the former Blood Testing Unit, been closed for years and is an ideal, brownfield redevelopment plot.

Change To Plan: Remove R25 and R26 from plan

I agree

The number of houses allocated to Blackmore is small and can easily be accommodated through either windfall sites or existing brownfield sites within the borough which are not currently scheduled for development.

**28841 Object****Respondent: Mr Gary Dimond [7055]****Agent: N/A**

Summary: Brownfield sites should be prioritised over Greenfield, and Green Belt should not be released at all unless all other alternatives have been used to fulfil the target housing allocations. The number of homes should be increased back to a minimum of 55 and R25 & R26 should be removed entirely.  
I agree

Change To Plan: Reducing the proposed number of houses on the Blackmore green belt sites does not address the objections to the LDP regarding unjustifiable loss of green belt.

Legally Compliant?: No      Duty to Co-operate?: No      Sound?: No      Tests: i, ii, iii, iv      Examination: No

Full Reference: O - 28841 - 7055 - Policy R18: Land off Crescent Drive, Shenfield (page 290) - i, ii, iii, iv

**28846 Object****Respondent: Mrs Ruth Dimond [4851]****Agent: N/A**

Summary: Brownfield sites should be prioritised over Greenfield, and Green Belt should not be released at all unless all other alternatives have been used to fulfil the target housing allocations. The number of homes should be increased back to a minimum of 55 and R25 & R26 should be removed entirely.  
I agree. Brownfield sites should be fully utilised in preference to green belt.  
National Planning Policy requires all alternatives to be considered before green belt is approved for housing.

Change To Plan: Development in remote rural villages such as Blackmore will inevitably lead to increased road traffic because of the lack of jobs and infrastructure. More suitable sites with far better infrastructure are not being fully utilised. All proposed alterations to green belt boundaries should be fully evidenced and justified according to National Planning Policy and this has not happened, the choice of sites has been developer-lead. Alternatives to green belt development in the immediate vicinity of Blackmore village are being ignored by the LDP.

Legally Compliant?: No      Duty to Co-operate?: No      Sound?: No      Tests: i, ii, iii, iv      Examination: No

**28851 Object****Respondent: Mr Conrad Dixon [8688]****Agent: N/A**

Summary: Brownfield sites should be prioritised over Greenfield, and Green Belt should not be released at all unless all other alternatives have been used to fulfil the target housing allocations. The number of homes should be increased back to a minimum of 55 and R25 & R26 should be removed entirely.  
I agree. Brownfield sites should be prioritised for environmental conservation reasons

Change To Plan: The extra demand on infrastructure has not been adequately planned for or costed. To proceed on this basis would be reckless, given the risk of road traffic accidents and higher flood risk. There are more sound locations available for the proposed developments.

Legally Compliant?: No                      Duty to Co-operate?: No                      Sound?: No                      Tests: i, ii, iii, iv                      Examination: No

Summary: Brownfield sites should be prioritised over Greenfield, and Green Belt should not be released at all unless all other alternatives have been used to fulfil the target housing allocations. The number of homes should be increased back to a minimum of 55 and R25 & R26 should be removed entirely.  
I agree

Change To Plan: I am concerned by the development being undertaken by Epping Council on Fingrith Hall Lane that is a real threat to Blackmore local services. There does not appear to have been any published consultation between Brentwood planners and Epping DC and no evidence of working together planners that is a requirement in these circumstances. This should be rectified without further delay.

Summary: Brownfield sites should be prioritised over Greenfield, and Green Belt should not be released at all unless all other alternatives have been used to fulfil the target housing allocations. The number of homes should be increased back to a minimum of 55 and R25 & R26 should be removed entirely.  
I agree

Change To Plan: I believe the more suitable brownfield locations have not been fully considered before planning building on Blackmore's Greenfield sites (R25 & R26). As recommendation under the National Planning Policy all other alternatives should be fully considered before greenbelt development is authorised. I therefore wholly OBJECT to the inclusion of these sites within the LDP

The number of homes should be increased back to a minimum of 55 and R25 & R26 should be removed entirely.  
I agree. The brownfield sites around Blackmore have already been built on and do represent an opportunity to redevelop these lands without building on more land. There is the Redrose site, Aylings farm and the site at Dunton Village Gardens

Change To Plan: The process that has been followed seems flawed. 1. The parish comments were not taken into consideration at the hearing when the decision was made by BBC because they ran out of time and the parish representations were not heard. 2. I do not believe that the local villagers concerns have been listened to or addressed, hence the strong feelings that have caused the formation of BVHA and so many responses for the size of our community. 3. There are other sites more suitable that have not been considered, eg. Stondon Massey Parish have welcomed opportunities for more housing to regenerate their village. 4. The broader development picture has not been looked at, the development plans of Epping Borough council and the already agreed building that is going on. 5. A proper impact study has not been completed looking at whether the village can cope with this level of development, looking at the whole picture of recent housing expansion not just the LDP.

Q - FOCUSSED CHANGE 2: POLICY R18 - Land off Crescent Drive, Shenfield. Brownfield. (Less than 1% of total responses, March 2019) Brownfield sites should be prioritised over Greenfield, and Green Belt should not be released at all unless all other alternatives have been used to fulfil the target housing allocations. The number of homes should be increased back to a minimum of 55 and R25 & R26 should be removed entirely.

A - I agree. Although I agree more homes should be made available I feel that Blackmore is not suitable. The main reasons being: The local GP surgery is not providing a service to local people as it is - it is very difficult to get an appointment now so would be even more difficult with many more families. Parking in Blackmore is often impossible so we don't need more traffic. I've been made aware that the local school is full so what would happen if many more children were housed in the village?

**29259 Object****Respondent: Mr Richard Fisher [8480]****Agent: N/A**

Summary:

Brownfield sites should be prioritised over Greenfield, and Green Belt should not be released at all unless all other alternatives have been used to fulfil the target housing allocations. The number of homes should be increased back to a minimum of 55 and R25 & R26 should be removed entirely.

I agree. There are already brownfield sites such as Redrose Farm on Redrose lane that can contribute to the number of houses needed to be built. Another site currently being built on is Norton Heath equestrian centre, just off the A12 but had Blackmore as its local humanitarian centre and will have over 40 houses built on. These sites should be taken into consideration as Blackmore's contribution to housing development, thereby preserving the green belt

Change To Plan: Technically the LDP has been poorly executed and poorly considered. Lack of joined up consultation with the neighbouring borough, not allowing local parish representations to be heard, not considering the overwhelming response of the villages that live here. We don't object to building, but use the brown field sites and common sense please.

The number of homes should be increased back to a minimum of 55 and R25 & R26 should be removed entirely.  
I agree.

All Brownfield sites should be considered before Greenfield are looked at and any available Brownfield should be taken into account as a first priority. For example it is not acceptable that there are still Brownfield sites in Blackmore and the surrounding areas that have not been considered.

Change To Plan: Remove R25 and R26 from the Plan.

**29413 Object****Respondent: Valerie Godbee [4943]****Agent: N/A**

Summary: Q - FOCUSSED CHANGE 2: POLICY R18 - Land off Crescent Drive, Shenfield. Brownfield. (Less than 1% of total responses, March 2019)Brownfield sites should be prioritised over Greenfield, and Green Belt should not be released at all unless all other alternatives have been used to fulfil the target housing allocations. The number of homes should be increased back to a minimum of 55 and R25 & R26 should be removed entirely.  
A - I agree. Brownfield sites have not been properly considered before the green belt and green field sites. The LDP has not shown that the 50 houses could not be built by increasing density on the more urban sites. Denton Village could easily absorb this amount for example. In addition there are other sites within the Blackmore boundaries that have been given planning permission by Brentwood Planning for development as well as building by Epping Council on our borders. All of which will be using our services and infrastructure adding to further congestion in an already busy village.

**26694 Support****Respondent: Mr Mr J Nicholls and Mr A Biglin (Land owners) [8368]****Agent: Sworders (Mrs Rachel Bryan) [5481]**

Summary: We support the following changes to the Pre-Submission Local Plan:

\* Policy R18 (Land off Crescent Drive, Shenfield): Reduction from "around 55" to "around 35 homes".

\* Policy R19 (Land at Priests Lane, Shenfield): Reduction from "around 75" to "around 45 homes".

\* Policy R25 (Land north of Woollard Way, Blackmore): Reduction from "around 40" to around "30 homes".

\* Policy R26 (Land north of Orchard Piece, Blackmore): Reduction from "around 30" to "around 20 homes".

We support the reduction in housing numbers at the allocation sites in Shenfield and Blackmore, as this is justified by the evidence base.

**26722 Support****Respondent: Mr Barry Tydeman [8813]****Agent: N/A**

Summary: 'I represent the Crescent Drive Residents Association. Broadly, we support we support Policy R18 for the Crescent Drive site: Reduction from 'around 55' to 'around 35 homes'. We have previously submitted that the Fairview application for this site be refused permission as contrary to Policies SP01, HP03 and HP14. Our petition had 500+ signatories against that proposal. We submit that it also fails the judge's decision criteria in Canterbury Council v Gladman Developments this year: a Planning Inspector must not decide in favour of an application meeting only one approved Development plan policy.

Barry Tydeman  
For CDRA'

**26739 Support****Respondent: Mr Richard Owers [8816]****Agent: N/A**

Summary: In principle we support the proposed changes to the policy R18 for the Crescent Drive site - Reduction from 'around 55' to 'around 35 homes' providing the planning application is for a development in keeping with the surrounding area, meets all the required planning criteria and is designed to reduce the future environmental footprint and impact by incorporating the latest sustainability construction methods, transport planning and provision for personal wellbeing. In particular we require the plan to allow for houses facing Crescent Drive (not flats and apartments) as this is in keeping with Crescent Drive and all surrounding roads, and that all new properties have sufficient off road dedicated parking to meet all the requirements of the residents of the new properties and their visitors. The height of any new development should be no higher than the current structure at any point so that the current visibility of all trees and vegetation is maintained.

CHAPTER: Addendum of Focussed Policy R19: Land at Priests Lane, Shenfield (page 292)  
Changes to the Pre-Submission

**26524 Object**

**Respondent: Mr Barry Sawtell [5904]**

**Agent: N/A**

Summary: You have requested my comments on the LDP for housing sites across Brentwood from your meeting the 11th. Sept. We have already submitted our concerns reference your first proposal for the Priests Lane site and these still stand. We have been informed that with your plans to reduce the number of housing units you are considering additional entry and exit points. If this is correct could you please confirm this and inform me of these plans so that I can give comments. With out this information I am unable to give any further comments.

Confirmation was provided that the detail of site entry and exit points were not within in this consultation.

As the addendum only references site numbers and no other changes being considered I cannot comment as the consultation is incomplete.

Change To Plan: Remove R19 from plan

Legally Compliant?: Not Specified      Duty to Co-operate?: Not Specified      Sound?: Not Specified      Tests: None      Examination: Not Specified

**26534 Object**

**Respondent: Ms Rebecca Edwards [8477]**

**Agent: N/A**

Summary: This is a site surrounded by existing housing, on a main road, and next to a railway line. It has the capacity to take the full allocation of 75 homes.

Change To Plan: This site is more suitable for residential development than more remote locations (EG Policies R25 and R26) and therefore should be built on before remote locations.

The number of houses should be increased back to the original plan for 75.

Legally Compliant?: No      Duty to Co-operate?: No      Sound?: No      Tests: i      Examination: No

**26561 Object****Respondent: Mr Kevin Craske [2712]****Agent: N/A**

Summary: There is a proposal reduction in scheduled new build homes from 75 to 45 (40%), curiously exactly the same percentage reduction. The same items are stated as the justification for its reduction. My previous comment on Policy R18 are also very relevant on this proposal too. I find it discriminatory, disgraceful and highly offensive that Shenfield residents have a greater voice than I appear to. They will now have only 80 homes scheduled for build where as our small village will have hundreds more and a new town on our doorstep. The A128 and A127 are already at capacity and entry and exit from our village is already time consuming and risky. Adding more homes and risk. Still Shenfield will be safer I suppose.

Change To Plan:

Legally Compliant?: Not Specified      Duty to Co-operate?: Not Specified      Sound?: Not Specified      Tests: None      Examination: Not Specified

Full Reference: O - 26561 - 2712 - Policy R19: Land at Priests Lane, Shenfield (page 292) - None

**26577 Object****Respondent: Mr Anthony Cross [4376]****Agent: N/A**

Summary: The number of proposed dwellings should not be reduced. This site, being fully enclosed on all 4 sides by building / major transport links, is much more appropriate for development compared to other greenfield and agriculturally viable sites included in the LDP. For example, the additional 30 dwellings that could be built here, would go part of the way towards enabling the removal of sites R25 and R26 from the plan.

Change To Plan: Keep the number of proposed dwellings to be developed on this site to 75.

Legally Compliant?: No      Duty to Co-operate?: No      Sound?: No      Tests: ii, iv      Examination: No

**26586 Object****Respondent: Mr Lawrence Allum [5420]****Agent: N/A**

Summary: The change to the sites at Priests Lane is a reduction in houses from 'around' 75 to 'around' 45, however, this number still has no evidential base. No change has been made to the wording of access points which I feel is a major issue, believing that access onto Priests Lane poses a health and safety risk which has not been addressed. The original application for 8 houses in Bishop Walk over 20 years ago was turned down which led to the number of houses restricted to 5 houses to comply with the access requirements at that time. By the same token, the same reasoning should apply even more so to 45 houses considering the significant increase in traffic and pollution.

In the interest of restoring and increasing the playing fields for the adjacent Hogarth Primary School, which recently had its playing field area halved whilst doubling its pupil population, as well as for Endeavour School which also adjoins the sites, then these sites must be removed from the LP and set aside for this purpose. This is also in line with government policy to provide for the health of our nation's children and for their future wellbeing.

With the rapid expansion of development in the rest of the borough, it would be forward thinking to set aside land for the inevitable need for more school places in the not too distant future.

**26589 Object****Respondent: Priests Lane Neighbourhood Residents Association (Mrs Cath Kenyon) [6046]****Agent: N/A**

Summary: We appreciate the reduction in house numbers from 75 to 45 addresses our concerns about inappropriate house density. However, it fails to address other concerns about the safety of a new access road and the suitability of Bishop Walk of an access considering the limited road infrastructure of Priests Lane and the already high traffic levels which will increase as a result of the various new housing developments in the area.

It also does not reflect the Council addition of multiple access points.

We think our existing objections are still valid and want them to be submitted along with the LDP, and continue to request a hearing.

**26590 Object****Respondent: Mr Gavin Hennessy [5984]****Agent: N/A**

Summary: As a resident in Bishop Walk I can confirm that I wholeheartedly agree that Bishop Walk is a quiet close with 6 residential homes on both sides with open views to natural landscapes. Each property has off road parking. Were Bishop Walk to be used as an access and or exit point this would be unfair and totally unacceptable and I strongly object to this proposal. Safety and congestion issues should be properly addressed and abandoning the whole project should be seriously considered.

Re: Paragraph 2 (c) Policy R19. We appreciate the reduction in house numbers from 75 to 45 addresses our concerns about inappropriate house density. However, it fails to address other concerns about the safety of a new access road and the suitability of Bishop Walk of an access considering the limited road infrastructure of Priests Lane and the already high traffic levels which will increase as a result of the various new housing developments in the area. It also does not reflect the Council addition of multiple access points. We think our existing objections are still valid and want them to be submitted along with the LDP.

**26591 Object****Respondent: Mr Richard Allum [6060]****Agent: N/A**

Summary: The proposed change to the sites at Priests Lane from 'around' 75 to 'around' 45 is still unacceptable without any evidence to back up the latest proposed number of houses. In light of this, I'm extremely concerned that no change has been made to the wording of access points to reflect the change in number of proposed houses which is a major issue, considering the original application for 8 houses in Bishop Walk over 20 years ago was turned down because of inadequate access. If 8 houses were deemed to be 3 too many for adequate access back then, what evidence has been presented in the intervening years to allow for the approval of 45 houses to comply with the access requirements? Bearing in mind the traffic is much higher now and the level of Nitrous oxide was found to be above safe limits 3 years ago! Please could you send such evidence in your response.

In order to restore and increase the playing fields for the adjacent Hogarth Primary School, who recently had to half its playing field area to double its pupil population, as well as for Endeavour School which also adjoins the sites, then these sites should be removed from the LP and set aside for this purpose. This is also In line with government policy to provide for the health of our nation's children and for their future wellbeing.

With the rapid expansion of development in the rest of the borough, it seems logical to set aside land for the inevitable need for more school places in the not too distant future. Once these houses are built on land adjacent to these 2 schools, it would be impossible for both schools to expand to meet the needs of the growing population.

**26597 Object****Respondent: Mrs Cath Kenyon [5999]****Agent: N/A**

Summary: Re: Paragraph 2 (c) Policy R19: While the reduction in the number of homes is to be welcomed, I still do not feel that concerns regarding the safety of access and the impact the numerous Shenfield developments will have on the already high traffic levels along Priests Lane, have been addressed.

It is noted that a subsequent meeting of the council resolved that the site would require multiple access points although that is still not included in the addendum of focussed changes posted on the website.

I believe the existing objections are still valid and wish them to be submitted along with the LDP.

**26627 Object****Respondent: Punch Partnerships (PGRP) Ltd [8801]****Agent: Cordage Group (Miss Lauren Parsons) [8797]**

Summary: The proposed reduction in housing numbers in Shenfield and Blackmore reduces housing numbers in sustainable settlements where growth is needed, and puts them in a less sustainable location. In relocating the units to the proposed strategic allocation at Denton Hills, the provision of these units will inevitably occur later in the plan period, when the focus should be on early provision to address the current housing land supply shortfall. The site at Spital Lane is an ideal candidate, having minimal impact on the openness of the Green Belt, being capable of accommodating six houses without any risk of flooding.

Change To Plan: A much better solution would be to reprovide the units lost from the Shenfield and Blackmore allocations on sustainable sites in and around Brentwood. The site at Spital Lane is an ideal candidate, being located on the edge of the town close to services and facilities, having minimal impact on the openness of the Green Belt, and as per the Environment Agency comments on the most recent planning application, being capable of accommodating six houses without any risk of flooding. We therefore advocate that Spital Lane be allocated for housing in the emerging plan, along with other suitable smaller sites identified in the SHLAA, to make up the housing numbers lost in Shenfield and Blackmore.

**26663 Object****Respondent: Mrs Sylvia Allum [5419]****Agent: N/A**

Summary: The change to the sites at Priests Lane is a reduction from 'around' 75 to 'around' 45, but it is concerning there is still no evidence for the proposed number of houses. Moreover, no change has been made to the wording of access points which is a major issue, considering the original application for 8 houses in Bishop Walk over 20 years ago was turned down because of inadequate access, which led to the number of houses restricted to 5 houses to comply with the access requirements at that time, bearing in mind the traffic was no way as heavy and polluting as it is now.

In the interest of restoring and increasing the playing fields for the adjacent Hogarth Primary School, which recently had its playing field area halved whilst doubling its pupil population, as well as for Endeavour School which also adjoins the sites, then these sites should be removed from the LP and set aside for this purpose in line with government policy to provide for the health of our nation's children and their future wellbeing.

With the rapid expansion of development in the rest of the borough, it seems prudent to set aside land to keep up with the inevitable need for more school places in the not too distant future. Once these houses are built on land adjacent to these 2 schools, it would be impossible for both schools to expand to meet the needs of the borough's growing population.

**26664 Object****Respondent: Mrs Lisa Aspinall [6054]****Agent: N/A**

Summary: Re: Paragraph 2 (c) Policy R19. I appreciate the reduction in house numbers from 75 to 45 addresses my concerns about inappropriate house density, however it fails to address other ongoing concerns about the safety of a new access road and the suitability of Bishop Walk as an access considering the limited road infrastructure of Priests Lane and the already high traffic levels which will increase as a result of the various new housing developments in the area. It also does not reflect the Council addition of multiple access points. I think my existing objections to any development of this land are still valid and want them to be submitted along with the LDP, and continue to request a hearing.

Change To Plan:

Legally Compliant?: Not Specified      Duty to Co-operate?: Not Specified      Sound?: Not Specified      Tests: None      Examination: No

Full Reference: O - 26664 - 6054 - Policy R19: Land at Priests Lane, Shenfield (page 292) - None

**26711 Object****Respondent: Miss Katherine Webster [6005]****Agent: N/A**

Summary: The revision does not answer the objection to new access road which will be poorly sited and potentially dangerous in design. Nor does it address the unsuitability of Bishop Walk, which was limited to 5 houses when built. The access points will still increase traffic risk because of the poor road infrastructure of Priests Lane and the already high traffic levels which will increase as a result of the various new housing developments in the area. The Council failed to properly evaluate traffic risks at this site.

Change To Plan: A different access site should be identified and/or a smaller number of houses. However, given the restricted location of the site, the only other alternative access point is on a road that has safety issues because it is located on a blind bend. If the access problems cannot be addressed, then the site should be excluded.

Legally Compliant?: Yes      Duty to Co-operate?: Yes      Sound?: No      Tests: i, ii      Examination: Yes

**26729 Object****Respondent: Essex County Council (Mrs Anne Clitheroe) [6776]****Agent: N/A**

Summary: NPPF para 31 requires planning policies to be underpinned by relevant and up to date evidence.

BBC need to be satisfied reduction in dwelling numbers is supported by appropriate evidence base, including:

- demonstrating site makes effective and efficient use of land (paragraphs 117, 118, 122 and 123 of the NPPF)
- is economically viable (paragraph 67)
- updated transport evidence base fully assesses transport implications.

Proposed policy change does not address ECC's Pre-Submission Reg.19 consultation representations to this policy (March 2019).

ECC's position has not changed on this matter.

Change To Plan: As a result of the reduction in dwelling numbers for this site allocation BBC should include, within the Plan evidence and supporting text for this Policy, details to demonstrate that the site allocation makes effective and efficient use of land, and is economically viable.

BBC should also update its transport evidence base for the Local Plan to fully assess the transport implications of the change in dwellings numbers on this site allocation.

The policy needs to be further changed to address ECC's representations to this policy made to the Pre-Submission Regulation 19 Local Plan consultation in March 2019.

**26734 Object****Respondent: Mrs Annette Moorhouse [5332]****Agent: N/A**

Summary: Despite the reduction in the number of houses proposed I am still concerned about the additional traffic the development will create. A traffic survey has not been carried out and although multiple access has been suggested all the traffic will still come out onto Priests Lane.

Change To Plan: If only 45 houses are being proposed what will be the designated use for the remaining land? This needs to be used for the schools expansion or something along those lines. The multiple access cannot be guaranteed and the only main access is unsafe.

**26738 Object****Respondent: Miss Katherine Webster [6005]****Agent: N/A**

Summary: I have made an objection (referee 26711) re the change to the Priests lane site. I would like to add a comment to that objection, but was unable to amend the submitted comment. I would like to add that the utilities already seem to be operating at maximum satisfactory capacity, as we have low water pressure and frequently have drops in electricity supply when usage is high. Local residents are concerned that the infrastructure is not adequate to absorb the additional housing, and this continues to be the case even with a lower number.

**26740 Object****Respondent: Mrs Helen Pearson [5910]****Agent: N/A**

Summary: Whilst the reduction in dwellings is welcome, the number is not legally binding, and will give the developers the opportunity to bid to build a higher number of houses. This land was designated an Open Urban Space, and as such seen as a valuable green lung to the area, once built on this will be lost for ever. The access points to the potential development have not been identified. Where ever they are built they will have to join Priests Lane itself which has many hazards. There is no possible point at which a new road can link with Priests Lane that would have a clear view of on coming traffic due to the bends in the road. Priests Lane has the problems of congestion at peak times, necessitating traffic from the potential development trying to turn into queuing traffic. Priests Lane has speeding cars at other times meaning that the cars turning from the new access points will not have enough time to turn onto the road. There is only a pavement down one side of Priests Lane this alternates from side to side, pedestrians need to cross this busy road at dangerous bends in order to walk down the road. Priests Lane is narrow and at two pinch points there is not enough room for two vehicles to pass. Pedestrians feel vulnerable on these narrow pavements as traffic literally skims by them as they walk. There have been many accidents along Priests Lane, for the most part unrecorded as the police only record accidents involving casualties. The road does not meet the current safety guide lines and to build another junction turning onto this road would exaserbate the present dangers to all road users.

**26746 Object****Respondent: Basildon Borough Council (Ms Christine Lyons) [8820]****Agent: N/A**

Summary: Basildon Council objects to the Focussed Changes 1 - 5, as they do not seem to have been informed by evidence or the Sustainability Appraisal as required by National Policy. The amendments effectively redistributes 70 proposed dwellings from the 'Central Brentwood Growth Corridor', which has opportunities to embrace more sustainable modes of transport, to a Green Belt location with a less developed public transport infrastructure. The reasons for the amendments do not seem to be supported by the evidence and appear to be based solely on the considerable number of objections received in response to the Pre-Submission Local Plan consultation in March 2019. The Brentwood Sustainability Appraisal October 2019 concludes that; "It is difficult to draw strong conclusions, with the primary considerations being: A) decreasing the homes assigned to the Brentwood/Shenfield urban area by 50 may serve to reduce traffic through the problematic town centre AQMA, but any benefit would be marginal, and equally these are accessible locations suited to minimising car dependency; and B) increasing the number of homes assigned to DHGV by 70 is potentially associated with a degree of risk, noting the ongoing work being undertaken in respect of improving air quality along the A127 within Basildon Borough, and noting consultation responses received." Paragraph 16 of the NPPF advises amongst other things that Plans should be prepared with the objective of contributing to the achievement of sustainable development. Basildon Council has considered the two Growth Corridors identified in the Brentwood Borough Local Plan. It has reflected however that there are fundamental distinctions between them, which do not appear to have influenced site selection choices in a justified way. The Central Brentwood Growth Corridor is the location of nationally and regionally managed and maintained infrastructure - the A12 & M25 (Highways England) and the Elizabeth Line (maintained by Network Rail and operated by Transport for London) and East Anglia Line (maintained by Network Rail and operated by Abellio East Anglia). Growth in this location would maximise this infrastructure investment. The South Brentwood Growth Corridor meanwhile, consists the A127 (maintained by Essex County Council) and Essex Thameside Line (maintained by Network Rail and operated by c2c). It is not considered that the two corridors offer comparable choices in terms of the strategic importance or capacity of transport connections, and using the Sustainability Appraisal and other evidence, the Plan should select sites within the Central Brentwood Growth Corridor that provide opportunity for extensions to towns and villages that can encourage more sustainable travel choices and take advantage of the strategic infrastructure available. This would encourage commuting behaviour to shift away from private car use and therefore make this location a more sustainable and viable option to concentrate growth. Such an alternative approach would be justified by evidence and align with national policy.

**26766 Object****Respondent: Mr Russell Pearson [7499]****Agent: N/A**

Summary: I am contacting you with regards to the development of the land at Priests Lane, Brentwood, sites 044 and 178. Whilst the reduction in dwellings is welcome, the number is not legally binding, and will give the developers the opportunity to bid to build a higher number of houses. This land was designated an Open Urban Space, and as such seen as a valuable green lung to the area, once built on this will be lost for ever. The access points to the potential development have not been identified. Where ever they are built they will have to join Priests Lane itself which has many hazards. There is no possible point at which a new road can link with Priests Lane that would have a clear view of on coming traffic due to the bends in the road. Priests Lane has the problems of congestion at peak times, necessitating traffic from the potential development trying to turn into queuing traffic. Priests Lane has speeding cars at other times meaning that the cars turning from the new access points will not have enough time to turn onto the road. There is only a pavement down one side of Priests Lane this alternates from side to side, pedestrians need to cross this busy road at dangerous bends in order to walk down the road. Priests Lane is narrow and at two pinch points there is not enough room for two vehicles to pass. Pedestrians feel vulnerable on these narrow pavements as traffic literally skims by them as they walk. There have been many accidents along Priests Lane, for the most part unrecorded as the police only record accidents involving casualties. The road does not meet the current safety guide lines and to build another junction turning onto this road would exaserbate the present dangers to all road users.

Change To Plan: Remove site R19 from the plan

Legally Compliant?: Not Specified      Duty to Co-operate?: Not Specified      Sound?: Not Specified      Tests: None      Examination: No

Full Reference: O - 26766 - 7499 - Policy R19: Land at Priests Lane, Shenfield (page 292) - None

**26767 Object****Respondent: Ursuline Sisters [28]****Agent: JTS Partnership LLP (Mr. James Govier) [2587]**

Summary: Strongly object to the 5 proposed changes, particularly to R19 (change 3). The basis of this objection is that the proposed delivery of the housing, as set out within Appendix 1 of the Consultation Document is not achievable or viable, and that the Plan should be considered as unsound. Furthermore the reallocation of the 30 units from Policy R19 is not justified or supported by any evidence and ignores the evidence presented by the landowner.

In respect of the reduction in numbers at Policy R19 Land at Priests Lane, there is no justification or evidential support for such a reduction. The landowner has provided Highways evidence to support much higher degrees of provision that will see the efficient use of land as required by the NPPF. Also highlighted are the many highway and pedestrian improvements that will enhance pedestrian accessibility and the wider highway network. There is great uncertainty about the ability to deliver the full DHGV allocation within the Plan Period. With a significant reliance on that allocation to achieve the full Housing Supply, it is not sustainable to remove the provision delivery of achievable units from other sites where such can be delivered in the early part of the Plan Period. The projected delivery of the DHGV allocation in terms of its commencement and the ongoing delivery rate through the Plan Period is considered to be unrealistic and unviable. It relies on achieving the delivery of the first units within 2 to 3 years of the Adoption of the Local Plan and then delivering housing at a very high rate through the final 7 years of the Plan Period. While these targets may be achievable in the best case scenario, the NLP study supports the opinion that for large projects, delivery is likely to take a much greater amount of time. The Council provide no evidence to support such lofty targets. These best case scenario projections should not be adopted as realistic delivery targets through the Plan Period. Reallocating 70 units to the latter stages of the Housing Trajectory only increase the likelihood of a failure to meet the full housing supply through the Plan Period.

Change To Plan: Return the indicative dwelling yield to 75. Do not make the Addendum changes to the plan.

Legally Compliant?: No      Duty to Co-operate?: Not Specified      Sound?: No      Tests: i, ii, iii, iv      Examination: Yes

Full Reference: O - 26767 - 28 - Policy R19: Land at Priests Lane, Shenfield (page 292) - i, ii, iii, iv

**26774 Object****Respondent: Turn2us [6753]****Agent: Strutt & Parker LLP (Mr Sam Hollingworth) [6123]**

Summary: The AFC does not address the potential implications for the provision of accommodation for older people in light of the concerns it has identified in respect of proposed allocation R19. It neither explains why the site's potential to accommodate a care home is unaffected by the concerns it identifies, nor propose anything to address potential shortfall of this form of specialist accommodation assuming its potential to be provided here is affected.

Change To Plan: Allocate additional site to delivery at least 70 additional homes in the early years of the plan period (2022/23 - 2024/25). Site 219 (land at Rayleigh Road, Hutton) represents an ideal site to respond to the above.

Legally Compliant?: Not Specified      Duty to Co-operate?: Not Specified      Sound?: No      Tests: None      Examination: Not Specified

**26805 Object****Respondent: mr simon Fleming [7119]****Agent: N/A**

Summary: The reason for the change to Policy R19 is purely due to representations from local residents and political pressure. The relevance of these concerns when considering site 178 in isolation have already been disputed. Based on the evidence on air quality, biodiversity, climate change mitigation, Ccmmunity and well-being, economy and employment, heritage, flooding, housing, landscape, waste, water the R19 change is not justified. This latest reduction from 75 to 45 could adversely affect the scheme viability.

Change To Plan: The reasonable strategy would be to remain at 75 houses for site R19.

Legally Compliant?: No                      Duty to Co-operate?: Not Specified                      Sound?: No                      Tests: None                      Examination: No

Full Reference: O - 26805 - 7119 - Policy R19: Land at Priests Lane, Shenfield (page 292) - None

**26806 Object****Respondent: Glenda Fleming [3779]****Agent: N/A**

Summary: The proposal to reduce the numbers further to 45 has arisen solely because of concerns from the public. There is no evidence that this reduction in numbers on site R19 has any technical basis the alternative proposed by this Focussed Change is to move most of the development down to Dunton which is not as sustainable development. Reducing the numbers of houses at R19 could adversely affect the viability of the development. Reducing the density of development is not making best use of a valuable resource. The Focussed Change at R19 is unsound.

**27260 Object****Respondent: Blackmore Village Heritage Association (Mr William Ratcliffe) [4874]****Agent: N/A**

Summary: This is a site surrounded by existing housing, on a main road, and next to a railway line. This site is more suitable for residential development than more remote locations (EG Policies R25 and R26) and therefore should be built on before remote locations. This is a residential area with appropriate infrastructure that will accommodate at least the original number of 75 allocated to Priests Lane.

Change To Plan: Remove R25 and R26 from the Plan. The LDP, in so far as the 2 Blackmore sites are concerned, was never written strategically and indeed prior to Reg 18 the BBC position was the correct position i.e, R25 and R26 are wholly inappropriate for development. We therefore need to reverse out of Regs 18 and 19 and return us to the correct position as stated in January 2016.

**27379 Object****Respondent: Mr Kenneth Herring [4841]****Agent: N/A**

Summary: Q - FOCUSSED CHANGE 3: POLICY R19 - Land at Priests Lane, Shenfield.(11% of total responses, March 2019). Defined as: Greenfield Land within Brentwood urban area / Settlement boundary. This is a site surrounded by existing housing, on a main road, and next to a railway line. This site is more suitable for residential development than more remote locations (EG Policies R25 and R26) and therefore should be built on before remote locations.  
A - I agree - we should prioritise building on sites with, or close to, existing infrastructure

Change To Plan:

Legally Compliant?: Not Specified      Duty to Co-operate?: Not Specified      Sound?: Not Specified      Tests: None      Examination: No

Full Reference: O - 27379 - 4841 - Policy R19: Land at Priests Lane, Shenfield (page 292) - None

**27384 Object****Respondent: Miss Jade Hayes [8136]****Agent: N/A**

**27527 Object****Respondent: Mr Thomas Bury [8717]****Agent: N/A**

Summary: Q - FOCUSSED CHANGE 3: POLICY R19 - Land at Priests Lane, Shenfield.(11% of total responses, March 2019). Defined as: Greenfield Land within Brentwood urban area / Settlement boundary. This is a site surrounded by existing housing, on a main road, and next to a railway line. This site is more suitable for residential development than more remote locations (EG Policies R25 and R26) and therefore should be built on before remote locations.  
A - I agree - we should prioritise building on sites with, or close to, existing infrastructure.  
Blackmore does not have the transport, education, health or retail infrastructure to even come close to dealing with the the proposed / planned levels of new housing.

Change To Plan: Remove R25 and R26 from plan

Legally Compliant?: Not Specified

Duty to Co-operate?: Not Specified

Sound?: Not Specified

Tests: None

Examination: No

Full Reference: O - 27527 - 8717 - Policy R19: Land at Priests Lane, Shenfield (page 292) - None

**27532 Object****Respondent: Mr David Rolfs [8566]****Agent: N/A**

Summary: This is a site surrounded by existing housing, on a main road, and next to a railway line. This site is more suitable for residential development than more remote locations (EG Policies R25 and R26) and therefore should be built on before remote locations. I agree - we should prioritise building on sites with, or close to, existing infrastructure. Unlike other parts of the Brentwood area, including Priests Lane, there is insufficient infrastructure in and around Blackmore, including health (general practice and practitioners - with the Deal Tree Health Centre under immense strain), bus service, roads and parking, schools, sewage, and the utilities including gas, electricity, telephones and internet.

Change To Plan: Blackmore has great history, dating back to Tudor times, with its church going back considerably further. We must care for such a heritage. We do not want it destroyed "on our watch".

Legally Compliant?: No                      Duty to Co-operate?: No                      Sound?: No                      Tests: i, ii, iii, iv                      Examination: No

Full Reference: O - 27532 - 8566 - Policy R19: Land at Priests Lane, Shenfield (page 292) - i, ii, iii, iv

**27537 Object****Respondent: Mrs Yvonne Rolfs [8567]****Agent: N/A**

Summary: This is a site surrounded by existing housing, on a main road, and next to a railway line. This site is more suitable for residential development than more remote locations (EG Policies R25 and R26) and therefore should be built on before remote locations. I agree - we should prioritise building on sites with, or close to, existing infrastructure.

Change To Plan: Deal Tree Health Centre is already operating at figures beyond the optimum number of patients per GP, as outlined in the Brentwood Infrastructure Delivery Plan (IDP). New housing has already impacted this further, with developments in Rookery Road and The Elms in Lower Road Mountnessing, along with travellers who have occupied land on the Chelmsford Road all squeezing Deal Tree Health Centre further. The addition of the proposed new properties in Blackmore under R25 and R26 will further exacerbate the problem.

Legally Compliant?: No                      Duty to Co-operate?: No                      Sound?: No                      Tests: i, ii, iii, iv                      Examination: No

Full Reference: O - 27542 - 8884 - Policy R19: Land at Priests Lane, Shenfield (page 292) - i, ii, iii, iv

**27551 Object****Respondent: Mrs Maureen Butler [5017]****Agent: N/A**

Summary: Q - FOCUSSED CHANGE 3: POLICY R19 - Land at Priests Lane, Shenfield.(11% of total responses, March 2019). Defined as: Greenfield Land within Brentwood urban area / Settlement boundary. This is a site surrounded by existing housing, on a main road, and next to a railway line. This site is more suitable for residential development than more remote locations (EG Policies R25 and R26) and therefore should be built on before remote locations.  
A - I agree - we should prioritise building on sites with, or close to, existing infrastructure.

Change To Plan: Remove R25 and R26 from plan

Legally Compliant?: Not Specified                      Duty to Co-operate?: Not Specified                      Sound?: Not Specified                      Tests: None                      Examination: No

**27607 Object****Respondent: Mr Callum Cartwright [8370]****Agent: N/A**

Summary: Q - FOCUSSED CHANGE 3: POLICY R19 - Land at Priests Lane, Shenfield.(11% of total responses, March 2019). Defined as: Greenfield Land within Brentwood urban area / Settlement boundary. This is a site surrounded by existing housing, on a main road, and next to a railway line. This site is more suitable for residential development than more remote locations (EG Policies R25 and R26) and therefore should be built on before remote locations.

A - I agree - we should prioritise building on sites with, or close to, existing infrastructure. W the infrastructure in Blackmore cannot take any more demands. The school is full and the doctors surgery is overwhelmed with long appointment lead times. Parking in the village around the shop and pubs is already at a maximum and at weekends it is very difficult to park.

Change To Plan: Remove R25 and R26 from plan

Legally Compliant?: Not Specified                      Duty to Co-operate?: Not Specified                      Sound?: Not Specified                      Tests: None                      Examination: No

**27621 Object****Respondent: Mr. David Cartwright [7193]****Agent: N/A**

Summary: Q - FOCUSSED CHANGE 3: POLICY R19 - Land at Priests Lane, Shenfield.(11% of total responses, March 2019). Defined as: Greenfield Land within Brentwood urban area / Settlement boundary. This is a site surrounded by existing housing, on a main road, and next to a railway line. This site is more suitable for residential development than more remote locations (EG Policies R25 and R26) and therefore should be built on before remote locations.  
A - I agree - we should prioritise building on sites with, or close to, existing infrastructure. The Blackmore village infrastructure is simply not sufficient to cover the needs of further development. Schools and medical centre facilities are barely adequate current requirements of ourselves and the surrounding parish with excessive lead time to get a Doctors appointment.

Change To Plan: Remove R25 and R26 from plan

Legally Compliant?: Not Specified      Duty to Co-operate?: Not Specified      Sound?: Not Specified      Tests: None      Examination: No

Full Reference: O - 27621 - 7193 - Policy R19: Land at Priests Lane, Shenfield (page 292) - None

**27627 Object****Respondent: Mrs. Margaret Cartwright [7195]****Agent: N/A**

Summary: Q - FOCUSSED CHANGE 3: POLICY R19 - Land at Priests Lane, Shenfield.(11% of total responses, March 2019). Defined as: Greenfield Land within Brentwood urban area / Settlement boundary. This is a site surrounded by existing housing, on a main road, and next to a railway line. This site is more suitable for residential development than more remote locations (EG Policies R25 and R26) and therefore should be built on before remote locations.  
A - I agree - we should prioritise building on sites with, or close to, existing infrastructure. Resources in Blackmore are already overstretched and parking is impossible already

Change To Plan: Remove R25 and R26 from plan

Legally Compliant?: Not Specified      Duty to Co-operate?: Not Specified      Sound?: Not Specified      Tests: None      Examination: No

Full Reference: O - 27627 - 7195 - Policy R19: Land at Priests Lane, Shenfield (page 292) - None

**27631 Object****Respondent: Mrs Malanie Sanders [8511]****Agent: N/A**

Summary: This is a site surrounded by existing housing, on a main road, and next to a railway line. This site is more suitable for residential development than more remote locations (EG Policies R25 and R26) and therefore should be built on before remote locations. I agree - we should prioritise building on sites with, or close to, existing infrastructure. Priests Lane would be an 'in-fill' and the necessary infrastructures is already in place. Blackmore are green field sites with poor lane access, amenities already at breaking point. Constant flooding is also a major issue.

Change To Plan: Remove R25 and R26 from the Plan.

Summary: Q - FOCUSSED CHANGE 3: POLICY R19 - Land at Priests Lane, Shenfield.(11% of total responses, March 2019). Defined as: Greenfield Land within Brentwood urban area / Settlement boundary. This is a site surrounded by existing housing, on a main road, and next to a railway line. This site is more suitable for residential development than more remote locations (EG Policies R25 and R26) and therefore should be built on before remote locations.  
A - I agree - we should prioritise building on sites with, or close to, existing infrastructure.

Change To Plan: Remove R25 and R26 from plan

This site is more suitable for residential development than more remote locations (EG Policies R25 and R26) and therefore should be built on before remote locations.  
A - I agree - we should prioritise building on sites with, or close to, existing infrastructure. As this site already has infrastructure in place, with a road already in use, and the two Blackmore sites only have access via an unlit and narrow country lane, ending in a dangerous junction next to the village school, I feel the Priests Lane site would be far more suitable and should therefore be developed.

**27876 Object****Respondent: Ms Shirley Taylor [8907]****Agent: N/A**

Summary: Q - FOCUSSED CHANGE 3: POLICY R19 - Land at Priests Lane, Shenfield.(11% of total responses, March 2019). Defined as: Greenfield Land within Brentwood urban area / Settlement boundary. This is a site surrounded by existing housing, on a main road, and next to a railway line. This site is more suitable for residential development than more remote locations (EG Policies R25 and R26) and therefore should be built on before remote locations.  
A - I agree - we should prioritise building on sites with, or close to, existing infrastructure.

Change To Plan: Remove R25 and R26 from plan

Legally Compliant?: Not Specified      Duty to Co-operate?: Not Specified      Sound?: Not Specified      Tests: None      Examination: No

Full Reference: O - 27876 - 8907 - Policy R19: Land at Priests Lane, Shenfield (page 292) - None

**27877 Object****Respondent: Mrs Sophia Severn [4876]****Agent: N/A**

Summary: This is a site surrounded by existing housing, on a main road, and next to a railway line. This site is more suitable for residential development than more remote locations (EG Policies R25 and R26) and therefore should be built on before remote locations.  
I agree - we should prioritise building on sites with, or close to, existing infrastructure

Change To Plan: Remove R25 and R26 from the Plan.

I agree - we should prioritise building on sites with, or close to, existing infrastructure

Change To Plan:

Legally Compliant?: Not Specified      Duty to Co-operate?: Not Specified      Sound?: Not Specified      Tests: None      Examination: No

Full Reference: O - 28043 - 4275 - Policy R19: Land at Priests Lane, Shenfield (page 292) - None

**28050 Object****Respondent: William Alan Smith [8920]****Agent: N/A**

Summary: This is a site surrounded by existing housing, on a main road, and next to a railway line. This site is more suitable for residential development than more remote locations (EG Policies R25 and R26) and therefore should be built on before remote locations. I agree - we should prioritise building on sites with, or close to, existing infrastructure. Infrastructure is so important. There are a number of good schools nearby, also hospitals including private - of which there are two. These sites are going to be expensive so are really only going to bring in business people, it will not keep the locals of Brentwood

Change To Plan: Remove R25 and R26 from the Plan. 1. Focussed Change 4 - PART D

If you allow this farm to be developed whatever the developers say 12 dwellings they will be up to the A414 in the blink of an eye. 2. Focussed Change 5 - PART B  
Honeyplot Lane is close to all amenities inc the M25 (both directions) and Romford. I lived in the area a lot of my life and I know it well. We were close to everything. It has good schools - St Peter's is a great attraction as are all of the senior schools. 3. Additional Comments The original meeting was conducted in a disgusting manner. No evidence was discussed about Blackmore, just a vote. Not the way to conduct an important meeting.

**28118 Object****Respondent: Mrs Diane Smith [8388]****Agent: N/A**

Summary: This is a site surrounded by existing housing, on a main road, and next to a railway line. This site is more suitable for residential development than more remote locations (EG Policies R25 and R26) and therefore should be built on before remote locations. I agree - we should prioritise building on sites with, or close to, existing infrastructure. Priests Lane again is near to a hospital, Shenfield railway station and Brentwood railway station, the High Street and doctors. These again are high price areas and not for the normal small families. These will bring in richer people from the outskirts of London . They do not help local youngsters and relieve the local situation. The council tax will be higher - brings in more revenue.

This is a site surrounded by existing housing, on a main road, and next to a railway line. This site is more suitable for residential development than more remote locations (EG Policies R25 and R26) and therefore should be built on before remote locations.

A - I agree - we should prioritise building on sites with, or close to, existing infrastructure. Blackmore should remain a small village. Local Amenities cannot accomodate a population increase. Local roads are not suitable for increased traffic, which more housing will cause.

**28301 Object****Respondent: Mr Craig Stevens [4958]****Agent: N/A**

Summary: This is a site surrounded by existing housing, on a main road, and next to a railway line. This site is more suitable for residential development than more remote locations (EG Policies R25 and R26) and therefore should be built on before remote locations.

I agree - we should prioritise building on sites with, or close to, existing infrastructure. Blackmore does not have any infrastructure to support any housing

Change To Plan: Remove R25 and R26 from the Plan. Blackmore has been incorrectly graded and placed in the wrong category. The proposal is unsound and also there has not been enough corroboration between Brentwood and Epping, who have already placed a burden on housing which is right on the Brentwood border and this will directly affect Blackmore.

**28388 Object****Respondent: Allan Roy Dickinson [8956]****Agent: N/A**

Summary: This is a site surrounded by existing housing, on a main road, and next to a railway line. This site is more suitable for residential development than more remote locations (EG Policies R25 and R26) and therefore should be built on before remote locations. I agree - we should prioritise building on sites with, or close to, existing infrastructure

Change To Plan: Remove R25 and R26 from the Plan. As already expressed the village facilities are fully stretched and any additional traffic from further development would increase the existing danger in the village centre.

Legally Compliant?: No                      Duty to Co-operate?: No                      Sound?: No                      Tests: i, ii, iii, iv                      Examination: No

Full Reference: O - 28388 - 8956 - Policy R19: Land at Priests Lane, Shenfield (page 292) - i, ii, iii, iv

**28393 Object****Respondent: Mr Louis Tregent [8924]****Agent: N/A**

Summary: Q - FOCUSSED CHANGE 3: POLICY R19 - Land at Priests Lane, Shenfield.(11% of total responses, March 2019). Defined as: Greenfield Land within Brentwood urban area / Settlement boundary. This is a site surrounded by existing housing, on a main road, and next to a railway line. This site is more suitable for residential development than more remote locations (EG Policies R25 and R26) and therefore should be built on before remote locations. A - I agree - we should prioritise building on sites with, or close to, existing infrastructure.

Change To Plan: Remove R25 and R26 from plan

Legally Compliant?: Not Specified                      Duty to Co-operate?: Not Specified                      Sound?: Not Specified                      Tests: None                      Examination: No

A - I agree - we should prioritise building on sites with, or close to, existing infrastructure.  
I feel it highly unlikely that areas like Blackmore with vert poor infrastructure and flood risk will have any change / enhancement PRIOR to a new development. So - going with areas with good infrastructure already in place FIRST seems very appropriate R19 is very vlearly one of these sites and developing it would allow R25/6 to be removed from the plan.

**28558 Object****Respondent: Mrs Joan Westover [4635]****Agent: N/A**

Summary: Q - FOCUSSED CHANGE 3: POLICY R19 - Land at Priests Lane, Shenfield.(11% of total responses, March 2019). Defined as: Greenfield Land within Brentwood urban area / Settlement boundary. This is a site surrounded by existing housing, on a main road, and next to a railway line. This site is more suitable for residential development than more remote locations (EG Policies R25 and R26) and therefore should be built on before remote locations.  
A - I agree - we should prioritise building on sites with, or close to, existing infrastructure. Blackmore is over stretched with their sewage capacity at Mountnessing at the moment. The sewage could not cope with more houses being built.

Change To Plan: Remove R25 and R26 from plan

**28847 Object****Respondent: Mrs Ruth Dimond [4851]****Agent: N/A**

Summary: This is a site surrounded by existing housing, on a main road, and next to a railway line. This site is more suitable for residential development than more remote locations (EG Policies R25 and R26) and therefore should be built on before remote locations.  
I agree - we should prioritise building on sites with, or close to, existing infrastructure. This site has much better infrastructure access to those considered for development in Blackmore

Change To Plan: Development in remote rural villages such as Blackmore will inevitably lead to increased road traffic because of the lack of jobs and infrastructure. More suitable sites with far better infrastructure are not being fully utilised. All proposed alterations to green belt boundaries should be fully evidenced and justified according to National Planning Policy and this has not happened, the choice of sites has been developer-lead. Alternatives to green belt development in the immediate vicinity of Blackmore village are being ignored by the LDP.

Legally Compliant?: No                      Duty to Co-operate?: No                      Sound?: No                      Tests: i, ii, iii, iv                      Examination: No

**28852 Object****Respondent: Mr Conrad Dixon [8688]****Agent: N/A**

Summary: This is a site surrounded by existing housing, on a main road, and next to a railway line. This site is more suitable for residential development than more remote locations (EG Policies R25 and R26) and therefore should be built on before remote locations.  
I agree - we should prioritise building on sites with, or close to, existing infrastructure. The more remote locations do not have the infrastructure to support expansion and suffer from higher risk of flooding

Change To Plan: The extra demand on infrastructure has not been adequately planned for or costed. To proceed on this basis would be reckless, given the risk of road traffic accidents and higher flood risk. There are more sound locations available for the proposed developments.

Legally Compliant?: No                      Duty to Co-operate?: No                      Sound?: No                      Tests: i, ii, iii, iv                      Examination: No

Full Reference: O - 28857 - 5498 - Policy R19: Land at Priests Lane, Shenfield (page 292) - i, ii, iii, iv

**28863 Object****Respondent: Mr Alan Dodd [4828]****Agent: N/A**

Summary: This is a site surrounded by existing housing, on a main road, and next to a railway line. This site is more suitable for residential development than more remote locations (EG Policies R25 and R26) and therefore should be built on before remote locations.  
I agree - we should prioritise building on sites with, or close to, existing infrastructure

Change To Plan: I am concerned by the development being undertaken by Epping Council on Fingrith Hall Lane that is a real threat to Blackmore local services. There does not appear to have been any published consultation between Brentwood planners and Epping DC and no evidence of working together planners that is a requirement in these circumstances. This should be rectified without further delay.

**28946 Object****Respondent: Samantha Dunk [8438]****Agent: N/A**

Summary: This is a site surrounded by existing housing, on a main road, and next to a railway line. This site is more suitable for residential development than more remote locations (EG Policies R25 and R26) and therefore should be built on before remote locations.  
I agree - we should prioritise building on sites with, or close to, existing infrastructure

Change To Plan: Just to reinforce the fact that the infrastructure in our tiny village is wholly inadequate to support building on the scale proposed on our beautiful Green Belt land. Remove R25 and R26 from the Plan.

Legally Compliant?: No                      Duty to Co-operate?: No                      Sound?: No                      Tests: i, ii, iii, iv                      Examination: No

Full Reference: O - 28946 - 8438 - Policy R19: Land at Priests Lane, Shenfield (page 292) - i, ii, iii, iv

**28951 Object****Respondent: Ms Christine Durdant-Pead [8117]****Agent: N/A**

Summary: This is a site surrounded by existing housing, on a main road, and next to a railway line. This site is more suitable for residential development than more remote locations (EG Policies R25 and R26) and therefore should be built on before remote locations.  
I agree - we should prioritise building on sites with, or close to, existing infrastructure. This makes far more sense than to build on Green belt land.

Change To Plan: Had Blackmore been given the correct status in keeping with its size and facilities then this situation would never have got underway. Blackmore is not a 'Large Village' given it only has one local corner shop to provide for its current residents. Remove R25 and R26 from the Plan.

Legally Compliant?: No                      Duty to Co-operate?: No                      Sound?: No                      Tests: i, ii, iii, iv                      Examination: No

Full Reference: O - 28951 - 8117 - Policy R19: Land at Priests Lane, Shenfield (page 292) - i, ii, iii, iv

**28956 Object****Respondent: Mr Gary Durdant-Pead [8326]****Agent: N/A**

Summary: This is a site surrounded by existing housing, on a main road, and next to a railway line. This site is more suitable for residential development than more remote locations (EG Policies R25 and R26) and therefore should be built on before remote locations.  
I agree - we should prioritise building on sites with, or close to, existing infrastructure

Change To Plan: As a new resident in Blackmore it is obvious that the Village cannot sustain the proposed growth to the population by way of more housing. The Village is not a 'Large Village' and does not meet the criteria to be considered as such. Therefore the current LDP for Blackmore should be abandoned.

Legally Compliant?: No                      Duty to Co-operate?: No                      Sound?: No                      Tests: i, ii, iii, iv                      Examination: No

**29050 Object****Respondent: Dr Murray Wood [7003]****Agent: N/A**

Summary: Q6 FOCUSSED CHANGE 3: POLICY R19 - Land at Priests Lane, Shenfield.(11% of total responses, March 2019)Defined as: Greenfield Land within Brentwood urban area / Settlement boundary. This is a site surrounded by existing housing, on a main road, and next to a railway line. This site is more suitable for residential development than more remote locations (EG Policies R25 and R26) and therefore should be built on before remote locations.  
I agree - we should prioritise building on sites with, or close to, existing infrastructure

Change To Plan:

Legally Compliant?: Not Specified      Duty to Co-operate?: Not Specified      Sound?: Not Specified      Tests: None      Examination: No

**29095 Object****Respondent: Mr Andrew Pallet [1313]****Agent: N/A**

Summary: Q - FOCUSSED CHANGE 3: POLICY R19 - Land at Priests Lane, Shenfield.(11% of total responses, March 2019). Defined as: Greenfield Land within Brentwood urban area / Settlement boundary. This is a site surrounded by existing housing, on a main road, and next to a railway line. This site is more suitable for residential development than more remote locations (EG Policies R25 and R26) and therefore should be built on before remote locations.  
A - I agree - we should prioritise building on sites with, or close to, existing infrastructure. Again we should protect all Green Belt for future generations

Change To Plan: Remove R25 and R26 from plan

Legally Compliant?: Not Specified      Duty to Co-operate?: Not Specified      Sound?: Not Specified      Tests: None      Examination: No

Full Reference: O - 29095 - 1313 - Policy R19: Land at Priests Lane, Shenfield (page 292) - None

**29100 Object****Respondent: Miss Emily Dimond [7227]****Agent: N/A**

Summary: This is a site surrounded by existing housing, on a main road, and next to a railway line. This site is more suitable for residential development than more remote locations (EG Policies R25 and R26) and therefore should be built on before remote locations.  
I agree - we should prioritise building on sites with, or close to, existing infrastructure

Change To Plan: I believe the more suitable brownfield locations have not been fully considered before planning building on Blackmore's Greenfield sites (R25 & R26). As recommendation under the National Planning Policy all other alternatives should be fully considered before greenbelt development is authorised. I therefore wholly OBJECT to the inclusion of these sites within the LDP.

**29218 Object****Respondent: Ms Veronica O'Brien [9027]****Agent: N/A**

Summary: Q - FOCUSSED CHANGE 3: POLICY R19 - Land at Priests Lane, Shenfield.(11% of total responses, March 2019). Defined as: Greenfield Land within Brentwood urban area / Settlement boundary. This is a site surrounded by existing housing, on a main road, and next to a railway line. This site is more suitable for residential development than more remote locations (EG Policies R25 and R26) and therefore should be built on before remote locations.  
A - I agree - we should prioritise building on sites with, or close to, existing infrastructure.

Change To Plan: Remove R25 and R26 from plan

Legally Compliant?: Not Specified      Duty to Co-operate?: Not Specified      Sound?: Not Specified      Tests: None      Examination: No

**29245 Object****Respondent: Mrs Ceri Fisher [8459]****Agent: N/A**

Summary: This is a site surrounded by existing housing, on a main road, and next to a railway line. This site is more suitable for residential development than more remote locations (EG Policies R25 and R26) and therefore should be built on before remote locations. I agree - we should prioritise building on sites with, or close to, existing infrastructure. Shenfield has already developed roads and supporting infrastructure with shops, schooling already set up whereas Blackmore has a primary school that is too small for current villagers, the village centre is often congested around the Co-op which supports the wider local community who then have to park in the neighbouring roads when visiting and create safety risks as well as congestion.

Change To Plan: The process that has been followed seems flawed. 1. The parish comments were not taken into consideration at the hearing when the decision was made by BBC because they ran out of time and the parish representations were not heard. 2. I do not believe that the local villagers concerns have been listened to or addressed, hence the strong feelings that have caused the formation of BVHA and so many responses for the size of our community. 3. There are other sites more suitable that have not been considered, eg. Stondon Massey Parish have welcomed opportunities for more housing to regenerate their village. 4. The broader development picture has not been looked at, the development plans of Epping Borough council and the already agreed building that is going on. 5. A proper impact study has not been completed looking at whether the village can cope with this level of development, looking at the whole picture of recent housing expansion not just the LDP.

Full Reference: O - 29256 - 8460 - Policy R19: Land at Priests Lane, Shenfield (page 292) - None

**29260 Object****Respondent: Mr Richard Fisher [8480]****Agent: N/A**

Summary: This is a site surrounded by existing housing, on a main road, and next to a railway line. This site is more suitable for residential development than more remote locations (EG Policies R25 and R26) and therefore should be built on before remote locations.  
I agree - we should prioritise building on sites with, or close to, existing infrastructure. The Shenfield site has had a larger overall reduction in housing to be built yet the site already is in a developed area, suggesting sadly that the damage has already been done.

Change To Plan: Technically the LDP has been poorly executed and poorly considered. Lack of joined up consultation with the neighbouring borough, not allowing local parish representations to be heard, not considering the overwhelming response of the villages that live here. We don't object to building, but use the brown field sites and common sense please.

Legally Compliant?: No                      Duty to Co-operate?: No                      Sound?: No                      Tests: i, ii, iii, iv                      Examination: No

Full Reference: O - 29372 - 8492 - Policy R19: Land at Priests Lane, Shenfield (page 292) - i, ii, iii, iv

**29379 Object****Respondent: Mrs Joanne Gill [4758]****Agent: N/A**

Summary: This is a site surrounded by existing housing, on a main road, and next to a railway line. This site is more suitable for residential development than more remote locations (EG Policies R25 and R26) and therefore should be built on before remote locations.  
I agree - we should prioritise building on sites with, or close to, existing infrastructure. I do not think that the land on Honeypot Lane should have been automatically removed when other sites that have less infrastructure to accommodate development were disregarded for removal.

Change To Plan: Remove R25 and R26 from the Plan.

Legally Compliant?: No      Duty to Co-operate?: No      Sound?: No      Tests: i, ii, iii, iv      Examination: No

This site is more suitable for residential development than more remote locations (EG Policies R25 and R26) and therefore should be built on before remote locations.  
A - I agree - we should prioritise building on sites with, or close to, existing infrastructure.  
Blackmore is a small village with limited facilities. It has one shop, transport links are very poor with the bus service very limited indeed cancelled at one time and has traffic problems. Building on sites such as R19 makes more sense as the infrastructure is already there

Change To Plan: Remove R25 and R26 from plan

CHAPTER: Addendum of Focussed Policy R25: Land North of Woollard Way, Blackmore (page 299)  
Changes to the Pre-Submission

**26525 Object**

**Respondent: Mr Anthony Cross [4376]**

**Agent: N/A**

Summary: The proposed reduction in the number of dwellings has been arbitrarily calculated. The proposed reduction has no scientific or evidence based reasoning and does not adequately address or mitigate the significant concerns and objections raised as part of the original LDP (Pre-submission, Regulation 19). The proposed change only reduces the proposed number of dwellings and not the size and extent of the site being developed, so the adverse impacts of the development would not materially reduce. There are more suitable alternative sites in the borough which are able to absorb the number of dwellings proposed for this site.

Change To Plan: Remove site allocations R25 and R26 from the LDP entirely. Any development of this greenfield, agriculturally viable and environmentally beneficial land would be detrimental to the village and natural environment.

Legally Compliant?: No                      Duty to Co-operate?: No                      Sound?: No                      Tests: ii, iv                      Examination: No

Full Reference: O - 26525 - 4376 - Policy R25: Land North of Woollard Way, Blackmore (page 299) - ii, iv

**26527 Object**

**Respondent: Mr Tom Bennett [4388]**

**Agent: N/A**

Summary: The proposed reduction from 40 to 30 does not address concerns about further strains on services and infrastructure within Blackmore, the narrowness of Red Rose Lane (the only access to the site), potential for flooding and undue incursion of green belt land.

New housing developments by Epping Forest DC at Ashling's Farm, Nine Ashes & former Equestrian Centre off Fingrith Hall Lane (~70 homes) haven't been considered, nor have the recent approvals at Red Rose Farm, Spriggs Lane or the pending application for the Travellers site on Chelmsford Road, Blackmore. These will add to the problems outlined above.

Change To Plan: Remove R25 from the LDP

Legally Compliant?: No                      Duty to Co-operate?: No                      Sound?: No                      Tests: i, ii, iii                      Examination: No

**26529 Object**

**Respondent: Mrs Shirley Slade-Bennett [8240]**

**Agent: N/A**

Summary: The reduction in the number of houses to be built does not fully address my concerns of an increase in the existing overload of services and infrastructure in Blackmore village and its surroundings. This is already exacerbated by new housing developments in nearby communities, who will also use our roads and facilities, and brownfield approvals in Blackmore, none of which are allowed for in the LDP. My original concerns of flooding, loss of greenbelt land and the unsuitability of the narrow red Rose Lane, which is the only access to the site also remain unaltered.

Change To Plan: Remove site R25 from the LDP

Legally Compliant?: No                      Duty to Co-operate?: No                      Sound?: No                      Tests: i, ii, iii                      Examination: No

Full Reference: O - 26529 - 8240 - Policy R25: Land North of Woollard Way, Blackmore (page 299) - i, ii, iii

**26535 Object**

**Respondent: Ms Rebecca Edwards [8477]**

**Agent: N/A**

Summary: This land is greenfield/green belt and should not be built on.

Change To Plan: For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure of Blackmore Village will not support this scale of development.

Legally Compliant?: No                      Duty to Co-operate?: No                      Sound?: No                      Tests: iv                      Examination: No

Full Reference: O - 26535 - 8477 - Policy R25: Land North of Woollard Way, Blackmore (page 299) - iv

**26537 Object**

**Respondent: Mr Peter Jakobsson [8177]**

**Agent: N/A**

Summary: Please don't build more houses. The village can not cope with another 50 dwellings.

Change To Plan: Remove R25 & R26 from the LDP

Legally Compliant?: No                      Duty to Co-operate?: No                      Sound?: No                      Tests: i, ii, iii                      Examination: No

**26548 Object****Respondent: Mrs Evelyn Dickinson [8777]****Agent: N/A**

Summary: While we welcome the decision to reduce the number of dwellings proposed for the above two sites we feel this would still put too great a strain on the village facilities. Therefore we strongly support the latest proposal to remove a further 20 houses from the Plan for Blackmore.

Change To Plan:

Legally Compliant?: Not Specified      Duty to Co-operate?: Not Specified      Sound?: Not Specified      Tests: None      Examination: Not Specified

Full Reference: O - 26548 - 8777 - Policy R25: Land North of Woollard Way, Blackmore (page 299) - None

**26550 Object****Respondent: Mrs Janis Smith [4735]****Agent: N/A**

Summary: Very concerned that Green Belt and rural green spaces are disappearing. This will impact on local health services, parking and safety due to increase in cars, the schools is full, there has already been a lot of new building. Brentwood town centre is affected by transport problems and the high street is changing for the worse.

Change To Plan:

Legally Compliant?: Not Specified      Duty to Co-operate?: Not Specified      Sound?: Not Specified      Tests: None      Examination: Not Specified

Full Reference: O - 26550 - 4735 - Policy R25: Land North of Woollard Way, Blackmore (page 299) - None

**26552 Object****Respondent: Mrs Janis Smith [4735]****Agent: N/A**

Summary: The area used to be all green belt, but over the years have witnessed the villages grown in massive numbers. Unfortunately the local services have not. The school is full, GP services are not sufficient and the roads are congested and there are parking problems in the village. Whilst I understand the need for extra housing, including affordable, there has already been a lot of building in the area. The impact locally and on the high street in Brentwood is clear, gridlocked roads and poor shops. Keep the green spaces.

Change To Plan: Object to Blackmore proposals

Legally Compliant?: Not Specified      Duty to Co-operate?: Not Specified      Sound?: Not Specified      Tests: None      Examination: Not Specified

Full Reference: O - 26552 - 4735 - Policy R25: Land North of Woollard Way, Blackmore (page 299) - None

**26555 Object****Respondent: Mrs Rosalind Rose [8557]****Agent: N/A**

Summary: I would still like to register my concerns over the proposed dwellings on site R 25 and R 26 in Blackmore. There has already been approved planning for dwellings at Fingrith Hall Lane and Ashlings Farm although not in the Blackmore parish they will use the limited amenities of Blackmore. At the moment it is very difficult to get an appointment at the doctors and the village school is full and I can't see that there will be any vast improvement in the near future. It is about time the UK put in the infrastructure before building as in many other countries. I do realise that the younger and older population need more affordable housing but as soon as the properties are built they very soon compete for the higher price range in villages such as Blackmore.

Change To Plan:

Legally Compliant?: Not Specified      Duty to Co-operate?: Not Specified      Sound?: Not Specified      Tests: None      Examination: Not Specified

Full Reference: O - 26555 - 8557 - Policy R25: Land North of Woollard Way, Blackmore (page 299) - None

**26562 Object****Respondent: Mr Kevin Craske [2712]****Agent: N/A**

Summary: Reductions in Blackmore Village from 70 to 50 (30%). The statements for justification are i) inconsistency with character, ii) impact on local services, iii) disagreement with settlement hierarchy, iv) Green Belt development and flood risk. In a large village it is difficult to understand how a total of 70 new homes can make too much difference. There are already a large variety in the types of homes in Blackmore so again how can new build be out of character? What can a reduction of 20 homes do to improve the village character that much? It does not make sense and again appears to be NIMBYISM! Does the council think a token gesture will do in this case? The impact on local services of 50 homes is not much different to that from 70 homes. Blackmore has good local services with a rail link to Brentwood and this was part of the reasons given for locating hundreds of homes in West Horndon. Road access is good with easy access to the A414, A12, M25 and M11. It has 3 public houses, 2 village halls, sports and social club, football and cricket pitches and a village shop with a farmers market at weekends. Hardly hard done by and surely it could easily take 70 homes without any impact at all. So this part of the justification does not ring true! What is the basis of the settlement hierarchy? Small population areas tend to provide only low order services such as Post Office and Newsagents, not 3 public houses, 2 village halls etc. This is a ridiculous statement as a justification. West Horndon Village has 1 public house, 1 village hall, no sports and social clubs or cricket pitches etc but is going to have almost 500 extra homes with no improvement in service or facilities. What about our settlement hierarchy? We do not appear to matter to the council and are not as important a village as Blackmore obviously. Again discriminatory, disgusting and very insulting to residents of West Horndon. Where is our value? We pay the same tax to support the council but are obviously second class citizens.

**26570 Object****Respondent: Mr & Mrs Gunthardt [8790]****Agent: N/A**

Summary: Our objections to the proposed development reflected the general views expressed by our Parish Council and those of a large proportion of the Village population. We feel strongly that the proposed development including the latest revised LDP would negatively impact on the unique character of the Blackmore Village and put undue strain on its already strained infrastructure and services including traffic and parking facilities, access to the local school, lack of adequate medical facilities, flooding etc. We also understand that there are now plans to build a further 70 properties just outside our borough which will cause further strain on the resources and infrastructure of our village. We fully support the efforts and views expressed by our local Parish Council. We trust that you will fully take into account of the views expressed by the residents of our village.

Change To Plan: Remove sites R25 and R26 from the plan

Legally Compliant?: Not Specified      Duty to Co-operate?: Not Specified      Sound?: Not Specified      Tests: None      Examination: Not Specified

**26578 Object****Respondent: Mr Anthony Cross [4376]****Agent: N/A**

Summary: The village of Blackmore is already going to be adversely impacted by nearby residential developments on Kings Street, Norton Heath Equestrian Centre, Ashland's Farm and potentially on Red Rose Farm amongst others. The impact of none of these sites is considered in the Local Plan. Accordingly, Blackmore is already contributing to the provision of new housing stock. It would be inappropriate to add to this by including sites R25 and R26 in the Local Plan; both should therefore be removed in full.

Change To Plan: Remove site R25 from the Local Plan in full.

Legally Compliant?: No                      Duty to Co-operate?: No                      Sound?: No                      Tests: ii, iv                      Examination: No

**26580 Object****Respondent: Mr Hugh Rayner [8011]****Agent: N/A**

Summary: Too much strain on local infrastructure - schools, medical, doctors waiting times for appointment and could result in increased flooding to village. Parking already impossible in village.

More suitable sites should have been identified. Land is in Green Belt area. No healthcare in Parish, GP surgeries at max capacity. Blackmore school at capacity now. Inadequate roads, parking in village is a nightmare. Utility services would need upgrading and also public transport. Prone to flooding in the village. Loss of ambience of village, such a major expansion would ruin the character of an otherwise beautiful village. Loss of valuable agricultural land.

Change To Plan: Remove R25 and R26 from the plan

Legally Compliant?: No                      Duty to Co-operate?: No                      Sound?: No                      Tests: None                      Examination: No

**26610 Object****Respondent: Mrs Diane Smith [8388]****Agent: N/A**

Summary: We have already written to ask for our February forms to be passed on to the Inspector. However, we have now received from our Parish Council a request to write once again about the reduced plan on sites R25 and R26 the reduction on these sites from 70 to 50. There isn't the infrastructure to accommodate more large developments. Epping and Ongar Council have already built on the boundary without consultation or thought for how we will deal with sewage surface water, traffic, we ow only have village post office shop. Parking by visitors now is abysmal with a further 15 in Spriggs Lane and Red Rose Lane We cannot cope now. Redrose and Woollard Way are meadows not brownfield.

There was an application for a very small house on a brownfield site on Orchard Piece you pushed that man who was in fact homeless to distraction, you behaved in a manner we never wish to see again it was disgraceful. Now it is OK to build on the field adjacent T26. 20 houses when you dealt with him you knew about R26 and kept quiet. The whole situation has been dealt with so badly we so not feel safe in official hands.

We thank Chris Hossack for speaking to us at last we have a leader who listens. Please pass all our comments to the inspector we are so disgusted the way this LDP plan has been handled.

**26614 Object****Respondent: Mrs Fleur Morgan [4848]****Agent: N/A**

Summary: My previous comments remain strongly my view and the slight decrease in the number of housing will not make much difference and change my mind or reasons that the houses would be best build outside of Blackmore.

Change To Plan:

Legally Compliant?: Not Specified      Duty to Co-operate?: Not Specified      Sound?: Not Specified      Tests: None      Examination: Not Specified

Full Reference: O - 26614 - 4848 - Policy R25: Land North of Woollard Way, Blackmore (page 299) - None

**26616 Object****Respondent: Mr Mark Morgan [4987]****Agent: N/A**

Summary: My previous comments made in February and March 2019 remain strongly my view and the small decrease in the number of housing will not make much difference and change my mind or reasons that the houses would be best build outside of Blackmore.  
There are much more suitable areas in Brentwood and the Greenbelt in Blackmore with no infrastructure is really not suitable.

Change To Plan:

Legally Compliant?: Not Specified      Duty to Co-operate?: Not Specified      Sound?: Not Specified      Tests: None      Examination: Not Specified

Full Reference: O - 26616 - 4987 - Policy R25: Land North of Woollard Way, Blackmore (page 299) - None

**26618 Object****Respondent: Mr Timothy Webb [5612]****Agent: N/A**

Summary: Object to all document particularly R25 and R26  
Not legally compliant as still contravenes Green Belt legislation and national policy; unsound as R25 and R26 changes grossly inadequate as fail to rectify destruction of Green Belt, loss of agricultural land, access issues on Redrose Lane, impact on school and medical facilities, minimal public transport, flood risk.  
Failure comply with Duty to Cooperate as local residents and elected representative concerns are disregarded.

Change To Plan: Proposed changes are superficial/more more radical reform required. Housing demand should be addressed with high density in and around Brentwood Town - blocks of flats and above shops. Executed effectively in Dagenham Heathway.

Legally Compliant?: No      Duty to Co-operate?: No      Sound?: No      Tests: i, iii, iv      Examination: No

Full Reference: O - 26618 - 5612 - Policy R25: Land North of Woollard Way, Blackmore (page 299) - i, iii, iv

**26621 Object****Respondent: Mr Kenneth Bailey [5045]****Agent: N/A**

Summary: The reduction in housing numbers does not address concerns of strain on local services and infrastructure but my greatest objection is the intrusion of building on the green belt. Should not build there, build on brownfield sites, Council have already approved development on Red Rose Farm and Spriggs Lane sites. Consultation is poor. The form is daunting, not everyone in the village and parish have been informed.  
I do not know where n this form to make my comments but at least I have made my objections known and would reiterate my previous objections.

Change To Plan:

Legally Compliant?: No      Duty to Co-operate?: No      Sound?: No      Tests: i, ii, iii      Examination: No

Full Reference: O - 26621 - 5045 - Policy R25: Land North of Woollard Way, Blackmore (page 299) - i, ii, iii

**26623 Object****Respondent: Mrs Pamela Bailey [8010]****Agent: N/A**

Summary: Addendum is unsound as main issues of development are ignored. Outrageous to build on Green Belt; extra pressure on traffic is not being addressed with two more cars per property resulting in mayhem, parking already impossible and is a danger for parents and children, and pavements being used for parking by all vehicles, so we need to walk in the road. The school is oversubscribed, resulting in car use to transport children elsewhere. Medical centre is overflowing and can't keep up with existing demand, more residents will exacerbate this. Should listen to our concerns, planners are ignoring the urgent issues. Unfair on village and other brownfield sites should be used.

Change To Plan: This local plan will only be sound if the vital points as set out in question 5 are adhered to: no building on Green Belt, keep Blackmore a village not an attempt to make it into a mini-town. Also need to consider how it will affect the local water supply, etc, etc,etc. The vital points must be listened to - GREEN BELT, SCHOOL, GP SURGERY, PARKING, HEAVIER TRAFFIC, WATER SUPPLY, FLOODING.

Legally Compliant?: No      Duty to Co-operate?: No      Sound?: No      Tests: i, ii, iii, iv      Examination: No

Full Reference: O - 26623 - 8010 - Policy R25: Land North of Woollard Way, Blackmore (page 299) - i, ii, iii, iv

**26628 Object****Respondent: Punch Partnerships (PGRP) Ltd [8801]****Agent: Cordage Group (Miss Lauren Parsons) [8797]**

Summary: The proposed reduction in housing numbers in Shenfield and Blackmore reduces housing numbers in sustainable settlements where growth is needed, and puts them in a less sustainable location. In relocating the units to the proposed strategic allocation at Denton Hills, the provision of these units will inevitably occur later in the plan period, when the focus should be on early provision to address the current housing land supply shortfall. The site at Spital Lane is an ideal candidate, having minimal impact on the openness of the Green Belt, being capable of accommodating six houses without any risk of flooding.

Change To Plan: A much better solution would be to reprovide the units lost from the Shenfield and Blackmore allocations on sustainable sites in and around Brentwood. The site at Spital Lane is an ideal candidate, being located on the edge of the town close to services and facilities, having minimal impact on the openness of the Green Belt, and as per the Environment Agency comments on the most recent planning application, being capable of accommodating six houses without any risk of flooding. We therefore advocate that Spital Lane be allocated for housing in the emerging plan, along with other suitable smaller sites identified in the SHLAA, to make up the housing numbers lost in Shenfield and Blackmore.

Legally Compliant?: No                      Duty to Co-operate?: No                      Sound?: No                      Tests: i, ii, iii, iv                      Examination: No

Full Reference: O - 26628 - 8801 - Policy R25: Land North of Woollard Way, Blackmore (page 299) - i, ii, iii, iv

**26631 Object****Respondent: Ms Patricia Taylor [6880]****Agent: N/A**

Summary: The addition of housing on this scale will increase the population, overcrowding, congestion and traffic hazards putting a strain on infrastructure which has remained unchanged for many years. New housing developments are surrounding Blackmore which have not been included in the LDP. This site is greenbelt and should be excluded as there are brownfield sites available. The area is subject to serious flooding and access is narrow and dangerous. There would also be adverse affects to the natural environment and nature of the village. Purely developer-led, this site was excluded from the LDP in 2016 and should be excluded again.

Change To Plan: This site should be removed from the LDP and the village plan implemented which makes use of available brownfield sites and meets village requirements not those of developers. Brownfield sites already offered should be used and more investigation into including other brownfield opportunities undertaken (e.g. Stondon Massey where development is actively encouraged).

**26637 Object****Respondent: Mr Graham Hesketh [8634]****Agent: N/A**

Summary: It fails to take into account the number of dwellings being built outside BBC domain which will impact heavily on the village-65 in all that when added to the proposed total of 50 will effect infrastructure including schools and doctors surgery, flooding, parking, congestion. This reveals the woeful lack of investment in the area beforehand to improve such matters. Re-opening this LDP allows other sites to be investigated like Stondon Massey where there is a welcome need for housing as well as preferred Brownfield sites in Blackmore which could lead to the building of 26 more houses in a controlled manner.

Change To Plan: See above. Investigate building in Stondon Massey which welcomes more housing and has space. Put in new housing in Blackmore that utilises Brownfield sites and has far less impact on the environment and infrastructure which is already under enormous strain-try getting an appointment at the doctor's surgery!

**26644 Object****Respondent: Miss Jean Monery [8007]****Agent: N/A**

Summary: I sent in my concerns with regards to the new housing development in February of this year. My views on the revised LDP have not changed and I feel that any new development to the two sites will alter the landscape, add extra vehicles to the village which will cause major disruption within the village and to the one shop that we have. I moved to Blackmore 4 years ago, it took my husband and I two years to find where we wanted to spend our retirement and in the plans it clearly stated that there would be no building on the fields surrounding Woollard Way which is why we decided to buy and I now feel this is a contradiction and we should have been informed of any future developments that have been put in place.

We also like the quietness of the village and personally we paid for this benefit which if the housing sites go ahead is not only disrupting our lives as others within the village but also village way of life which is what we so wanted. English heritage should be a major factor and development on villages that need building up. I would appreciate if you can again take my views into consideration.

Change To Plan:

**26657 Object****Respondent: Mr Andrew Borton [8648]****Agent: N/A**

Summary: I have previously commented on the proposed plans for sites labelled as R25 and R26 (Woollard Way and Orchard Piece) of the LDP. I re-iterate my views previously posted to yourselves in this regard. Furthermore, the recent flooding to the north of England and particularly Fishlake, only go to demonstrate the danger of flooding to areas that have a history in this regard. Blackmore is one of these areas and this increased risk and the other concerns previously I have expressed remain.

**26667 Object****Respondent: Blackmore Village Heritage Association (Mr William Ratcliffe) [4874]****Agent: Holmes & Hills LLP (Mr Michael Harman) [8074]**

Summary: Both the Parish Council and BVHA remain strongly opposed to the proposed allocation of Sites R25 (Land north of Woollard Way, Blackmore) and R26 (Land north of Orchard Piece, Blackmore) for housing development. The proposed allocations, following the "focussed changes", are for "around 30 new homes" at R25 and for "around 20 new homes" at R26. The Parish Council and BVHA say that BBC can meet its Local Housing Need ('LHN') on preferable sites to R25 and R26. Further, the Parish Council and BVHA say that the LHN can be met without sites R25 and R26 at all.

Greater use of Dunton Hills Garden Village with higher densities; greater use of sites R18 and R19 with higher densities rather than lower as proposed and are more sustainable town sites; the existing windfall development rate in Blackmore is appropriate; nearby development in Epping impacts on infrastructure without contribution; Therefore the Parish Council and BVHA recognise that proposed allocation on sites R25 and R26 has been reduced following "focussed changes". However, both the Parish Council and BVHA maintain that the LHN can be met on more suitable and/or sustainable sites elsewhere in the Borough.

BBC have not considered increasing housing density on the Dunton Hills Garden Village site. A modest increase in density may negate the need for both the Shenfield (R18 and R19) and Blackmore (R25 and R26) sites. The Shenfield sites are clearly in more sustainable locations (as confirmed by the Sustainability Appraisal scores) but are surrounded by built form development but also transport links/infrastructure. Thus, the inclusion of sites R18 and R19 will not lead to coalescence nor erode the countryside/Green Belt. Sites R18 and R19 should be allocated in preference to the Blackmore sites (R25 and R26).

There is no need for the Blackmore sites if the allocation on the Shenfield sites is reinstated. Namely, the 50 dwellings removed from sites R18 and R19 would, if reinstated, entirely negate the need to allocate sites R25 and R26. Moreover, there is no evidence that BBC have considered increasing housing density on sites R18 and R19; both of which could take a higher housing density but particularly the latter.

Change To Plan: The Plan, as amended by the focussed changes, is not sound with the inclusion of sites R25 and R26. The inclusion of sites R25 and R26 cannot be justified and their inclusion of these sites is contrary to national policy, particularly with regards to sustainable development and Green Belt land policies within the NPPF. Brentwood Borough Council should amend the plan to retain R25 and R26 as Green Belt and not allocate these sites for housing.

**26673 Object****Respondent: Ms Margaret Boreham [8033]****Agent: N/A**

Summary: As a resident of Blackmore I am writing with regard to the Local Development Plan. I have very grave concerns that the proposed plan does not address the concerns of local residents.

1. The development encroaches on to Green Belt land which is a statutory green belt around London and should remain so.

2. The proposed development, although reduced, will put a huge strain on the local infrastructure.

i) The area is prone to flooding.

ii) Local services are already over stretched

iii) The road access is inadequate

3. The area already has significant development close by at Nine Ashes and Fingrith Hall Lane. The Residents of these development use the services provided by Blackmore but the revised plan does not take account of this.

4.

In addition no allowances have been made by Brentwood Council of plans recently approved build over 15 dwellings on Red Rose Farm site and Spriggs Lane.

The plan will significantly increase the population and traffic of the parish. The village cannot realistically support such an increase, especially in the light of adjacent developments who already use the services of Blackmore.

Change To Plan: Remove R25 and R26 from the plan

**26683 Object****Respondent: Mr Colin Holbrook [4759]****Agent: N/A**

Summary: It should be recorded that each item I have entered is a separate representation and should be logged as such. It has been publicised that Blackmore created c500 responses to the previous consultation. However if you look at these actual responses stored on the BBC portal you will see that in fact for R25 there are 1,026 separate respondents and for R26 there are 1,035 respondents. In addition many of these respondents raise multiple objection when their individual response is reviewed. e.g. Ref 23127 has 11 different objections but is only counted as 1 representation. It would seem that there has been deliberate understatement of the magnitude of local feeling about the inequities of the foisted upon Blackmore by the LDP. To put these numbers in perspective the BBC site shows the representations on other sites as: R01 15 comments; R02 29 comments; R03 18 comments.

Change To Plan: Remove R25 and R26 from the plan

**26686 Object****Respondent: Mr Colin Holbrook [4759]****Agent: N/A**

Summary: The Addendum of Focussed Changes has recognised a problem with the LDP and looks to reduce the damaging impact on the worst affected Allocated Sites based on a Council view that removal of any specific site was not "possible". In fact, it is possible to remove a site at this stage, just as it is at the next stage (if so directed by the Inspector). This artificially designated "Major" change of removing a site was shelved. Possibly as it had the negative potential consequence of getting BBC censured, or even possibly having the control of the process taken away from them by central government. Whilst the "Major" change was not palatable for BBC, it is the right option, and better than a superficial "Minor" reduction in numbers on R25 & R26.

Change To Plan: Remove R25 and R26 from the plan

Legally Compliant?: No      Duty to Co-operate?: No      Sound?: No      Tests: None      Examination: No

**26688 Object****Respondent: Mr Colin Holbrook [4759]****Agent: N/A**

Summary: 4. The Sustainability Objectives specifically raise the need for Gypsy and Traveller communities to have SUITABLE access to services and health care. BBC spent resident's money fighting one unauthorised occupation of land in Blackmore and won. Regrettably they have now smuggled this land-grab in to the LDP as a new official site with no debate or notice. This increases the burden on Blackmore services and infrastructure. which is unable to deal with the existing increase of housing proposed by the LDP. If this is left in the LPD there should be some recognition by completely removing the new house burden R25 & R26 imposed on the village.

Change To Plan: Remove R25 and R26 from the plan

**26730 Object****Respondent: Essex County Council (Mrs Anne Clitheroe) [6776]****Agent: N/A**

Summary: NPPF para 31 requires planning policies to be underpinned by relevant and up to date evidence.

BBC need to be satisfied reduction in dwelling numbers is supported by appropriate evidence base, including:

- demonstrating site makes effective and efficient use of land (paragraphs 117, 118, 122 and 123 of the NPPF)
- is economically viable (paragraph 67)
- updated transport evidence base fully assesses transport implications.

Proposed policy change does not address ECC's Pre-Submission Reg.19 consultation representations to this policy (March 2019).

ECC's position has not changed on this matter.

Change To Plan: As a result of the reduction in dwelling numbers for this site allocation BBC should include, within the Plan evidence and supporting text for this Policy, details to demonstrate that the site allocation makes effective and efficient use of land, and is economically viable.

BBC should also update its transport evidence base for the Local Plan to fully assess the transport implications of the change in dwellings numbers on this site allocation.

The policy needs to be further changed to address ECC's representations to this policy made to the Pre-Submission Regulation 19 Local Plan consultation in March 2019.

**26732 Object****Respondent: Mrs G Emms [8817]****Agent: N/A**

Summary: I am aware that amendments have been made to the local plan regarding sites R25 and R26 reducing the number of houses planned to be put there. I do have some issues with the amount of housing being put in our area as it is putting a strain on roads and local services and also destroying the green belt in the process. The local NHS services are not able to cope with the influx of all the extra residents. I feel that we don't have the infrastructure to cope with all the development you seem to be pushing through and that you have no regard for the current residents in these areas. What extras services are you planning to put in to cope with all the new people and the needs we will all have if you go ahead with this. I think it would be better to scrap these sites completely at the moment as you still have a lot of other planning going ahead locally.

I would be grateful if you will take my view into consideration during your consultation process for this plan.

Change To Plan: remove R25 and R26 form the plan

**26748 Object****Respondent: Basildon Borough Council (Ms Christine Lyons) [8820]****Agent: N/A**

Summary: Basildon Council objects to the Focussed Changes 1 - 5, as they do not seem to have been informed by evidence or the Sustainability Appraisal as required by National Policy. The amendments effectively redistributes 70 proposed dwellings from the 'Central Brentwood Growth Corridor', which has opportunities to embrace more sustainable modes of transport, to a Green Belt location with a less developed public transport infrastructure. The reasons for the amendments do not seem to be supported by the evidence and appear to be based solely on the considerable number of objections received in response to the Pre-Submission Local Plan consultation in March 2019. The Brentwood Sustainability Appraisal October 2019 concludes that;

"It is difficult to draw strong conclusions, with the primary considerations being: A) decreasing the homes assigned to the Brentwood/Shenfield urban area by 50 may serve to reduce traffic through the problematic town centre AQMA, but any benefit would be marginal, and equally these are accessible locations suited to minimising car dependency; and B) increasing the number of homes assigned to DHGV by 70 is potentially associated with a degree of risk, noting the ongoing work being undertaken in respect of improving air quality along the A127 within Basildon Borough, and noting consultation responses received."

Paragraph 16 of the NPPF advises amongst other things that Plans should be prepared with the objective of contributing to the achievement of sustainable development. Basildon Council has considered the two Growth Corridors identified in the Brentwood Borough Local Plan. It has reflected however that there are fundamental distinctions between them, which do not appear to have influenced site selection choices in a justified way. The Central Brentwood Growth Corridor is the location of nationally and regionally managed and maintained infrastructure - the A12 & M25 (Highways England) and the Elizabeth Line (maintained by Network Rail and operated by Transport for London) and East Anglia Line (maintained by Network Rail and operated by Abellio East Anglia). Growth in this location would maximise this infrastructure investment. The South Brentwood Growth Corridor meanwhile, consists the A127 (maintained by Essex County Council) and Essex Thameside Line (maintained by Network Rail and operated by c2c).

It is not considered that the two corridors offer comparable choices in terms of the strategic importance or capacity of transport connections, and using the Sustainability Appraisal and other evidence, the Plan should select sites within the Central Brentwood Growth Corridor that provide opportunity for extensions to towns and villages that can encourage more sustainable travel choices and take advantage of the strategic infrastructure available. This would encourage commuting behaviour to shift away from private car use and therefore make this location a more sustainable and viable option to concentrate growth. Such an alternative approach would be justified by evidence and align with national policy.

**26752 Object****Respondent: Constable Homes Limited [7333]****Agent: Bidwells (Mr. Steven Butler) [2089]**

Summary: This approach does not appear to be abased on sound or proportionate evidence, it is simply a response to the quantum of representations submitted to the previous iteration of the Local Plan. It is a long-established planning principle that the number of representations received in respect of a particular topic is not in itself a material consideration. The evidence prepared by Constable Homes and Brentwood Borough Council, through previous rounds of Local Plan consultation, demonstrates that the previous amount of development earmarked for the site [around 40 new homes] is entirely appropriate.

Change To Plan: return indicative dwelling yield to previous figure

**26753 Object****Respondent: Constable Homes Limited [7333]****Agent: Bidwells (Mr. Steven Butler) [2089]**

Summary: 1.6 Bidwells, on behalf of Constable Homes, is currently taking a scheme proposal through the formal pre-application process, the latest design of which demonstrates to the Council (and future Local Plan Inspector) that there are no insurmountable or limiting planning issues, including those referenced in the consultation document above, to the delivery of a development of the site for approximately 40 new homes in a policy-compliant manner. In the interest of transparency, our client's emerging masterplan for site R25 accompanies these representations at Appendix 1, which has been shared with key local interest groups.

1.7 This plan is the culmination of many months' of work and dialogue with those members of Blackmore's community willing to engage with our client, and its design team has reflected every constructive request proffered to residents, including:

- An access off Nine Ashes Road instead of Redrose Lane (which also has agreement from ECC);
- A generous lattice of green spaces, including a new village green area abutting existing dwellings at Woollard Way;
- No vehicular access through either limb of Woollard Way;
- Retention of historic hedgerows;
- An integrative mix of market and affordable homes;
- Multiple pedestrian linkages to encourage resident to walk to village core (e.g. the tea rooms and Co-op convenience store);
- A new pedestrian crossing to link with the Primary School and Village Hall;
- Speed reduction measures to create a safer and more attractive northern approach to the village; and,
- Traditional-style architecture.

1.8 We therefore object to Focused Change 4 because it is unduly restrictive and would fail to optimise the beneficial use of the Policy R25 site, contrary to the National Planning Policy Framework.

Change To Plan: return indicative housing yield to previous figure

Legally Compliant?: Not Specified      Duty to Co-operate?: Not Specified      Sound?: Not Specified      Tests: None      Examination: Not Specified

**26863 Object****Respondent: Mrs Christina Atkins [8118]****Agent: N/A**

Summary: R25 received 36% of total Reg 19 responses, R26 received 37% with a total of 73% for both sites. Greenfield / Green Belt land in a remote village location with inadequate infrastructure not able to support level of development. Site should be removed completely from LDP, reduction of 10 houses does not resolve issues. Site is developer led and still not properly assessed against local housing needs. There are a number of large developments progressing nearby which will further degrade the infrastructure of Blackmore. These include 30 homes under construction on Fingrith Hall Lane plus an additional 5 on the same road, infill sites in Nine Ashes and 10 dwellings at Ashlings Farm. Inadequate consultation and strategic planning discussions with Epping Forest DC regarding these developments in the wider area. There are a number of other sites going through the planning process including 12 houses at Redrose Farm, 5 starter units in Spriggs Lane, a further 9 houses on Spriggs Lane/ Chelmsford Road. Redrose Farm is a brownfield redevelopment opportunity (opposite R26) for 12 homes and will deliver part of our own Village plan as opposed to digging up Green Belt. It should therefore replace R26 in its entirety. Both R25 and R26 should be removed as the permitted and planned windfall development in the area will already overwhelm the limited resources and infrastructure of the Blackmore area. There are better alternative sites both within the village/Parish and the wider Brentwood Borough area. Honeypot Lane (022) was previously removed from the Local Plan which is a better location due to it being on the edge of the Brentwood urban area, surrounded by existing housing, providing c200 houses. This should be reinstated as it would allow R18, R19, R25 and R26 to be removed whilst not adding the burden on R01. R25 and R26 equate to 49% of the Green Belt release in larger villages. Brentwood and Shenfield urban area are identified as having the highest housing need, yet two sites (R18 and R19) have now had the number of dwellings reduced. Blackmore remains classified as a Category 3 settlement (larger village). Our population numbers are much lower than many other villages in this category which have sufficient infrastructure and resources that Blackmore lacks. We do not need anymore houses in Blackmore as we are a sustainable Village as we are, anymore Housing would be horrendous for this village. Would have to mention more Traffic, Flood Risk, Doctor Services, School etc.

Change To Plan: Site should be removed completely from LDP.

**26889 Object****Respondent: Cllr Roger Keeble [1990]****Agent: N/A**

Summary: I agree that the information given by me in the February 2019 consultation can be shared with the planning inspectorate and programme office. That the allocations on both sites R25 and R26 are contrary to both national and local policies. The required housing need can be found on sites that already exist on land that exists in urban areas. Blackmore is classified as a larger village which is unsound and this is inconsistent with the NPPF Feb 2019, is not effective or justified. The area including Redrose Lane is liable to flooding, has poor access and will result in an increase in housing stock that is not in accordance with the present number of present properties and will add approximately 25% to the village size. Epping Forest District Council is continuing to build on their extreme boundaries around Blackmore almost doubling the BBC LDP requirements on R25 and R26. These properties will directly impact on Blackmore Village facilities and services. The school, doctors surgery and sewerage system are already oversubscribed. R25 and R26 are situated on very good Green Belt land and there are no special circumstances for building on these sites. The Brentwood Replacement Plan 2005 tightly restricts development on Green Belt land. The R25 and R26 sites are "developer led" as admitted at Blackmore Village Hall meeting by senior planning officers. There is no evidence of a housing need in Blackmore. Regularisation of the Oaktree Farm Gypsy and Traveller site is not reflected anywhere else in the borough and again puts more strain on the local infrastructure. R25 and R26 have been discounted most recently as 2016 as unsuitable. There has been no change in circumstances locally to allow development here. Draft Policy SP02 refers to direct development in highly accessible areas R25 and R26 are in a very rural situation with poor transport connections. There are far more sustainable sites in the borough that could easily accept the 50 houses proposed in R25 and R26. These are in Shenfield, Pilgrims Hatch, Ingatestone and Brentwood where infrastructure is already in place. There is documentary evidence for a housing need but not for the villages which include Blackmore. There are other brownfield sites in the borough before Green Belt land is even considered for development and the inclusion of R25 and R26 runs contrary to this. The Green Belt should be respected in both these sites and therefore R25 and R26 should be removed from the LDP.

Change To Plan: R25 and R26 have been discounted most recently as 2016 as unsuitable. There has been no change in circumstances locally to allow development here. Draft Policy SP02 refers to direct development in highly accessible areas R25 and R26 are in a very rural situation with poor transport connections. There are far more sustainable sites in the borough that could easily accept the 50 houses proposed in R25 and R26. These are in Shenfield, Pilgrims Hatch, Ingatestone and Brentwood where infrastructure is already in place. There is documentary evidence for a housing need but not for the villages which include Blackmore. There are other brownfield sites in the borough before Green Belt land is even considered for development and the inclusion of R25 and R26 runs contrary to this. The Green Belt should be respected in both these sites and therefore R25 and R26 should be removed from the LDP.

## 26894 Object

Respondent: L Apostolides [8836]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 4 - PART A POLICY R25 - Land North of Woollard Way, Blackmore. Greenfield and Green Belt. (36% of total responses, March 2019). To be read in conjunction with Focussed Change 5 - All comments apply to both sites. Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree

The GP surgery can not cope with the number of patients now and the schools are not large enough for more children

Change To Plan: Remove R25 and R26 from the plan

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree

## 26927 Object

Respondent: Mr Authur Austin [8838]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 4 - PART A POLICY R25 - Land North of Woollard Way, Blackmore. Greenfield and Green Belt. (36% of total responses, March 2019). To be read in conjunction with Focussed Change 5 - All comments apply to both sites. Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree

Change To Plan: Remove R25 & R26

**26967 Object****Respondent: Mr Jack Stevens [8840]****Agent: N/A**

Summary: All comments apply to both sites. Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

## 27013 Object

Respondent: Mr Mark Allen [8831]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 4 - PART A POLICY R25 - Land North of Woollard Way, Blackmore. Greenfield and Green Belt. (36% of total responses, March 2019). To be read in conjunction with Focussed Change 5 - All comments apply to both sites. Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.  
A - Strongly agree

Blackmore is a small village that is already 'bursting at the seams' with people and cars. I live in central Blackmore and I am already shocked by the sheer volume of traffic going through the village day and night. I often have people parking over my drive to access the Co-Op, Leather Bottle and tearooms because there isn't enough space to park. The number of children that walk to school is huge, but yet there is already SO many cars driving through the village at high speed. I tried to call Dealtree Surgery yesterday, and could not get through (8 times throughout the day). Another reason to not build more dwellings. The village cannot fit more dwellings! There are so many other spaces where places can be built; this just does not make sense. Please do not ruin this village!

R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

## 27053 Object

Respondent: Mr Thomas Barrett [8842]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 4 - PART A POLICY R25 - Land North of Woollard Way, Blackmore. Greenfield and Green Belt. (36% of total responses, March 2019). To be read in conjunction with Focussed Change 5 - All comments apply to both sites. Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree. Please preserve our beautiful villages. Once these developments have taken place there is no turning back. We can not restore what has been destroyed. Blackmore has history dating back to Henry VIII and deserves to have its beauty preserved. Blackmore is a picturesque village which does not have the infrastructure to support these extra homes. The school is already full to capacity with no space to extend. These extra houses will cause congestion on the roads and will spoil the beauty of this village. The five parishes as a whole are a beautiful part of Brentwood. There are plenty of opportunities to build closer to the town which will not ruin the countryside feel of the local villages.

## 27095 Object

Respondent: Karen Baur [1079]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 4 - PART A POLICY R25 - Land North of Woollard Way, Blackmore. Greenfield and Green Belt. (36% of total responses, March 2019). To be read in conjunction with Focussed Change 5 - All comments apply to both sites. Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.  
A - Strongly agree

Blackmore is a wholly inappropriate site for further development. This historic village should be preserved from any more development in order to retain its authentic village atmosphere and history. Quite apart from the aesthetic reasons, there is simply no infrastructure to support such an expansion of the population. There are very limited services available to the residents as it is - the local store cannot cope with the parking demands and the Post Office 'service' is abysmal. A serious road traffic accident is bound to happen at some point in the village and increasing the population will only make this much more likely. The Deal Tree Heath Centre is under great pressure coping with the demands of the existing parish residents without any more joining the ranks. I don't have children of school age but it's likely that Blackmore school cannot cope with increased demand for places. Additionally the increase in traffic on the country lanes makes the area a much more dangerous place to live. Please immediately scrap the plans for expansion of Blackmore village.

These development options have not been accurately assessed for the impact on their surroundings and existing residents. The plans need to be urgently reassessed.

A - Strongly agree

Blackmore has already been developed to maximum capacity. Despite this further development has been allowed and is currently being processed. Blackmore needs to retain it's village identity and heritage. There is a lack of services for the existing population without any more people adding to the problems we already have. The roads in an out of Blackmore are unsuitable for heavy traffic and accidents are bound to happen. The doctor's surgery cannot cope with existing demand let alone even more patients. There is one village store that tries and fails to meet everyone's needs. It is already struggling to provide a Post Office service. Blackmore simply cannot cope with further development.

There are more appropriate sites available in the Brentwood area without developing Green Belt land that will never be recovered. Please STOP this madness now.

A - Strongly agree

The amount of cars in the village of Blackmore is already a concern and any further housing is going to cause major upsets. Also the problem of getting a doctor's appointment is already so frustrating. Any increase on the Doddinghurst surgery will have people waiting weeks to see the doctor.

## 27136 Object

Respondent: Mr Cameron Beman [8850]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 4 - PART A POLICY R25 - Land North of Woollard Way, Blackmore. Greenfield and Green Belt. (36% of total responses, March 2019). To be read in conjunction with Focussed Change 5 - All comments apply to both sites. Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree

Change To Plan: Remove R25 and R26 from plan

**27138 Object****Respondent: Mr Ronald Quested [8452]****Agent: N/A**

Summary: Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP. Redrose Lane is not suitable for the amount of additional traffic proposed. With more housing comes more traffic and the village is already dangerous for elderly and young people. Parking in the village centre is also a major concern with lack of vision for pedestrians.

Change To Plan: Remove R25 and R26 from the Plan.

## 27158 Object

Respondent: Mr David Bennett [8649]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26) To be read in conjunction with Focussed Change 4 (above). All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

The infrastructure in the village is only just adequate at this time and would not be sufficient if further houses were built.

## 27175 Object

Respondent: Mr Robert Davis [4789]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 4 - PART A POLICY R25 - Land North of Woollard Way, Blackmore. Greenfield and Green Belt. (36% of total responses, March 2019). To be read in conjunction with Focussed Change 5 - All comments apply to both sites. Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

Change To Plan: Remove R25 and R26 from the Local Plan.

These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree

## 27220 Object

Respondent: Mr Tim Black [8248]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 4 - PART A POLICY R25 - Land North of Woollard Way, Blackmore. Greenfield and Green Belt. (36% of total responses, March 2019). To be read in conjunction with Focussed Change 5 - All comments apply to both sites. Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree

The current parking at Fingrith Hall Road is already maximised - and in fact quite dangerous at times - further building will only make the situation worse. The school and doctors are already at capacity. The development at Norton Heath will affect us. The infrastructure cannot cope with the additional homes and in particular Red Rose Lane is an ancient, historical lane, will be ruined.

Change To Plan: Remove R25 and R26 from plan

## 27263 Object

Respondent: Mr Richard Brassett [8862]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 4 - PART A POLICY R25 - Land North of Woollard Way, Blackmore. Greenfield and Green Belt. (36% of total responses, March 2019). To be read in conjunction with Focussed Change 5 - All comments apply to both sites. Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree

Change To Plan: Remove R25 and R26 from plan

Summary: Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP. Blackmore village is the most "special" of all the villages in Brentwood "Borough of villages". The infrastructure in this historic village was originally built for horse and cart travel, and modern vehicle numbers already mean the centre of the village is severely congested. Adding an additional approximate 1,000 vehicle movements per day (adding up all proposed development in and around the village) will mean a massive risk to public safety, and the ability for existing residents to get in and out of the village. The flood risk attaching to sites R25 and R26 will further increased by concreting over greenfield/Green Belt land.

Change To Plan: Remove R25 and R26 from the Plan. The LDP, in so far as the 2 Blackmore sites are concerned, was never written strategically and indeed prior to Reg 18 the BBC position was the correct position i.e, R25 and R26 are wholly inappropriate for development. We therefore need to reverse out of Regs 18 and 19 and return us to the correct position as stated in January 2016.

Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree. There are insufficient amenities and services available to people in Blackmore as it is. The result of extra population will cause these to be stretched so far that the village will not be able to cope. We already have very poor broadband (I have 1 mgb at best, normally .65) and no mobile signal.

For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

Change To Plan: Remove R25 and R26 from the Plan.

## 27318 Object

Respondent: Mr Lawrence Harrington [4778]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 4 - PART A POLICY R25 - Land North of Woollard Way, Blackmore. Greenfield and Green Belt. (36% of total responses, March 2019). To be read in conjunction with Focussed Change 5 - All comments apply to both sites. Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree

Change To Plan: Remove R25 & R26

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree

Change To Plan: Remove R25 R26

## 27355 Object

Respondent: Mr. James Harris [8678]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 4 - PART A POLICY R25 - Land North of Woollard Way, Blackmore. Greenfield and Green Belt. (36% of total responses, March 2019). To be read in conjunction with Focussed Change 5 - All comments apply to both sites. Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree

## 27397 Object

Respondent: Mr Michael Haynes [8138]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 4 - PART A POLICY R25 - Land North of Woollard Way, Blackmore. Greenfield and Green Belt. (36% of total responses, March 2019). To be read in conjunction with Focussed Change 5 - All comments apply to both sites. Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP. We are already beginning to feel the strain from development in the neighbouring areas, with traffic congestion in the centre being dangerous at times. This serves to emphasise the need to halt this development.

Change To Plan: The proposed developments in Blackmore are not only disproportionate, but suffering from the location of our village in proximity to other developments not under the control of Brentwood.

**27445 Object****Respondent: Mrs Irene Richardson [4859]****Agent: N/A**

Summary: Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

Change To Plan: Remove R25 and R26 from the Plan.

## 27503 Object

Respondent: Mr Shaun Burnett [8881]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 4 - PART A POLICY R25 - Land North of Woollard Way, Blackmore. Greenfield and Green Belt. (36% of total responses, March 2019). To be read in conjunction with Focussed Change 5 - All comments apply to both sites. Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree

Change To Plan: Remove R25 and R26 from plan

Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP. As observed above, Central Government has said that Green Belt must be protected. It appears that the BBC is ignoring this with respects to Blackmore village. Unlike other parts of the Brentwood area, including Priests Lane, there is insufficient infrastructure in and around Blackmore, including health (general practice and practitioners - with the Deal Tree Health Centre under immense strain), bus service, roads and parking, schools, sewage, and the utilities including gas, electricity, telephone and internet.

Change To Plan: Blackmore has great history, dating back to Tudor times, with its church going back considerably further. We must care for such a heritage. We do not want it destroyed "on our watch".

Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP. There is inadequate infrastructure in and around Blackmore, including health, bus service, roads and parking, schools, sewage, and the utilities including gas, electricity, telephones and internet.

Change To Plan: Deal Tree Health Centre is already operating at figures beyond the optimum number of patients per GP, as outlined in the Brentwood Infrastructure Delivery Plan (IDP). New housing has already impacted this further, with developments in Rookery Road and The Elms in Lower Road Mountnessing, along with travellers who have occupied land on the Chelmsford Road all squeezing Deal Tree Health Centre further. The addition of the proposed new properties in Blackmore under R25 and R26 will further exacerbate the problem.

Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

Change To Plan: All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

## 27547 Object

Respondent: Ms Jan Butler [8885]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 4 - PART A POLICY R25 - Land North of Woollard Way, Blackmore. Greenfield and Green Belt. (36% of total responses, March 2019). To be read in conjunction with Focussed Change 5 - All comments apply to both sites. Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree

## 27567 Object

**Respondent: Blackmore Village Heritage Association (Mr William Ratcliffe) [4874]      Agent: N/A**

Summary: Q - FOCUSSED CHANGE 4 - PART A POLICY R25 - Land North of Woollard Way, Blackmore. Greenfield and Green Belt. (36% of total responses, March 2019). To be read in conjunction with Focussed Change 5 - All comments apply to both sites. Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP. Blackmore is a tiny, remote, village, nowhere near main roads, and the existing population is almost totally dependant on cars. We cannot cope with more traffic movements, especially bearing in mind the nearby developments within EFDC which are right on our doorstep. Redrose Lane is so narrow at the proposed entry point to this site as to make it wholly inadequate. Flood risk remains a major concern.

We support the properly considered, strategic, elements to the LDP, notably Dunton Hills Garden Village. The proposed sites in Blackmore, however, do not constitute "strategic thinking", indeed for all the reasons why Blackmore was excluded from the LDP prior to January 2018, the old strategy was the correct strategy, ie sites R25 and R26 should now be removed. Furthermore, the Honeypot Lane site, which had been included in the LDP prior to Reg 19, needs to be reinstated. It's withdrawal, for largely "political reasons" was also not professional strategic thinking.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Summary: Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

Change To Plan: Remove R25 and R26 from the Plan.
