Summary: All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

Change To Plan: Remove R25 and R26 from the Plan.

## 27667 Object

Respondent: Mr John Caton [4881]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26) To be read in conjunction with Focussed Change 4 (above). All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

## 27677 Object

Respondent: Mr Graham Hesketh [8634]

Agent: N/A

Summary: The reopening of the LDP has allowed other sites not originally within it to be discussed and proposed whilst noting that other sites like Honeypot Lane which were within it and taken out to be relooked at since they were in Brownfield areas which are far more compatible for development than in village areas like Blackmore where infrastructure concerns are paramount. The number of houses already taken from sites R25 and R26 total 20 and have been reallocated to Dunton Hill. If it can be done for 20 homes then surely the logic is it can also be done for the 50 homes remaining on these sites. If you take away the 24 homes identified around the village on proposed Brownfield sites this figure comes down to 26 extra homes for Dunton Hills. As this site is scheduled to be developed for 4000 homes by 2033 surely it is conceivable to be able to find other sites for the 26 houses so allowing the LDP to meet its target for the number of homes Brentwood Council has to find to build by 2033.

Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26) To be read in conjunction with Focussed Change 4 (above). All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

With the reopening of the LDP other sites have become available and surely if these sites are Brownfield in nature then to save the Green Belt it is wiser to develop them. Furthermore, in an age where democratic values are highly prized (Brexit) and the village as a whole (see responses made against development e.g. 73%) has its own Village Plan which highlights sites rather than digging up the Green Belt it is preferable to explore these options.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to: 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). ## 27701 Object

Respondent: Kerry Hipgrave [8898]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26) To be read in conjunction with Focussed Change 4 (above). All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree

Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm). The council must prioritise brown belt sites

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

Change To Plan: Remove R25 and R26 from plan

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.  
A - Strongly agree.

The LDP and BBC have proposed and presented a disgraceful project which is full of inaccuracies and misinformation. It is absolutely absurd to propose such a housing development with such a lack of infrastructure above other sites that are clearly more suitable. The system is broken and corrupt.

Change To Plan: Remove R25 and R26 from plan

## 27776 Object

Respondent: Mr Anthony Colbert [8902]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26) To be read in conjunction with Focussed Change 4 (above). All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.  
A - Strongly agree.

Blackmore area is a small village with only one shop and a small school which is already full. With no regular transport to rely on. Blackmore cannot and should not become overcrowded it should remain one of Essex's beautiful small villages.

## 27801 Object

Respondent: Mrs Joann Cook [8669]

Agent: N/A

Summary: Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26) To be read in conjunction with Focussed Change 4 (above). All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

The traffic in the village is already an issue. I have been trying to get a GP appointment for my son for the last 3 weeks and have not been able to. This would be worse with more people living in the area. Our infrastructure cannot sustain this. The Post Office and School are already unable to cope with demand.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP. However, by building upon Redrose Farm, the residents of Orchard Piece that back onto the farm (many of whom are older or retired), will be heavily disrupted. Works would be carried on during daytime, when most residents are at home trying to enjoy life in a peaceful village. Large scale building works could directly have a negative impact upon residents' emotional wellbeing and mental health. It is our responsibility to safeguard these members of our community.

However, by building upon Redrose Farm, the residents of Orchard Piece that back onto the farm (many of whom are older or retired), will be heavily disrupted. Works would be carried on during daytime, when most residents are at home trying to enjoy life in a peaceful village.

Large scale building works could directly have a negative impact upon residents' emotional wellbeing and mental health. It is our responsibility to safeguard these members of our community.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

Change To Plan: Remove R25 and R26 from plan

## 27811 Object

Respondent: Mrs Danielle Cross [7016]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26) To be read in conjunction with Focused Change 4 (above). All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26 )To be read in conjunction with Focussed Change 4. All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound. Redrose Farm is in a flood plain however so these house will probably flood every year

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

## 27866 Object

Respondent: Ms Patricia Taylor [6880]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26 )To be read in conjunction with Focussed Change 4. All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm). This brownfield site should have been identified by BBC and added to the LDP as it would provide what our village needs - smaller more affordable housing on a smaller site which would not cause major impact. There are other brownfield sites available within the area which have not even been considered. Brownfield BEFORE greenbelt! Our own Village Plan has identified Redrose Farm, plus other areas within the locality which will provide 26 homes. The proposal is for 50 homes for Blackmore and if you reduce this figure by 26, the need is for 24 to be found. Rather than destroying greenbelt and the whole ethos of Blackmore, it makes more sense to add this reduced number to the Dunton Hills site!

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree. The two sites in Blackmore R25 and R26 were only added to the LDP recently, having formerly been designated as unsuitable for development in 2016. The only reason I can see that they have now been added is to satisfy BBC needs to meet with government directives, and are purely developer-led. They offer no advantage or assistance to the village and would only serve to add to existing pressures with infrastructure and destroy the nature of Blackmore.

## 27880 Object

Respondent: Ms Shirley Taylor [8907]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26 )To be read in conjunction with Focussed Change 4. All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

Change To Plan: Remove R25 and R26 from plan

**27886 Object****Respondent: Mrs Sila Sheridan [5201]****Agent: N/A**

Summary: Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). ## 27916 Object

Respondent: Mr Ritchie Hobbs [8909]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26) To be read in conjunction with Focussed Change 4 (above). All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree

Respondent: Mr Colin Holbrook [4759]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26) To be read in conjunction with Focussed Change 4 (above). All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

But the brownfield site of Redrose Farm can ONLY be considered and can ONLY be included in the LDP IF R25 & R26 are removed entirely.

Otherwise it will just increase the problem that Blackmore will suffer.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree

## 27991 Object

Respondent: Mrs Elizabeth Thompson [5016]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26 )To be read in conjunction with Focussed Change 4. All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP. Local roads cannot cope with more traffic - Blackmore is already swamped with traffic/parking esp. cycling season! making travelling though it a nightmare. No new homes burdening the existing infrastructure - but if necessary Brownfield before Greenfield.

Change To Plan: Remove R25 and R26 from the Plan.

In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP. This farm has been run down by the owner since day 1.

**Change To Plan:** Remove R25 and R26 from the Plan. 1. Focussed Change 4 - PART D

If you allow this farm to be developed whatever the developers say 12 dwellings they will be up to the A414 in the blink of an eye. 2. Focussed Change 5 - PART B Honeypot Lane is close to all amenities inc the M25 (both directions) and Romford. I lived in the area a lot of my life and I know it well. We were close to everything. It has good schools - St Peter's is a great attraction as are all of the senior schools. 3. Additional Comments The original meeting was conducted in a disgusting manner. No evidence was discussed about Blackmore, just a vote. Not the way to conduct an important meeting.

## 28053 Object

**Respondent: Malcolm Hurford [7304]**

**Agent: N/A**

Summary: All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP. History of flooding shows both Chelmsford Road and Redrose Lane become impassable during heavy rainfall.

Change To Plan: Remove R25 and R26 from the Plan.

## 28082 Object

Respondent: Mr Nicholas Thorogood [8916]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26 )To be read in conjunction with Focussed Change 4. All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

Infrastructure insufficient and risk of flooding. Move homes to R18 instead.

Change To Plan: Remove R25 and R26 from plan

## 28102 Object

Respondent: Mr Richard Thwaite [6964]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26 )To be read in conjunction with Focussed Change 4. All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm). The existing infrastructure in Blackmore cannot sustain additional housing above that already planned and approved. The flood risks of more development on greenfield sites are substantial and should not be ignored.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree. The planning process has been flawed from the beginning, including permission for travellers on a site that has already been ruled illegal by the High Court; ignoring perfectly good and more appropriate local brownfield sites (RedRose Farm) and failing to ask respondents for permission to pass their personal Details on to the planning inspector. The Brentwood Council have been mislead (possibly willingly) by the greed of the developers who see Blackmore as a highly profitable location for them to build.

Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm). Building on Brownfield sites will add to the village's housing needs in a sustainable and suitable manner by slowly increasing the number of dwellings within the village so as not to overwhelm the existing village resources. This should take priority over building large scale developments on green belt land.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP. Redrose is an eyesore and should be cleaned up. The farm was bought and deliberately run down. My personal opinion is if you allow building on here we will have every farmer trying the same trick. If this development is allowed we will have development up to the A414 High Road as infill. You cannot take the word of Stonebond or anyone else in other villages will do the same. I am no nimby, Brentwood council will never give the infrastructure we need, they never even try. Our school is not suitable for large developments, be it Redrose, Woolard Way Orchard Piece, nothing has been done. The temporary relocation classrooms we were sent - my daughter was the first class to use them. At 56 years old she has just become a grandmother and the 'temporary' classrooms are still there!

At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

Change To Plan: Remove R25 and R26 from the Plan.

## 28147 Object

Respondent: Mrs Karen Tomey [8428]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26 )To be read in conjunction with Focussed Change 4. All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree. Green Belt Land should be protected for future generations to enjoy. Brown belt land should be utilised first

Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

**28181 Object****Respondent: Ms Mitra Jahromi [8934]****Agent: N/A**

Summary: All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP. The local services and amenities do not support the existing population further increases will be unbearable for the residents

Change To Plan: Remove R25, R26.

Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP. Houses flooded in August 1987 will be at increased risk from the surface water run off from R25 and R26 - The Green, Church St and C11th Church, Blackmore Rd.

More extremes of weather are predicted due to Global Warming! About 50 more houses are already in the pipeline in or close to Blackmore - many on border with Epping Forest which Brentwood Borough Council only found out about after the original allocation to Blackmore! Infrastructure can't take these houses - waiting lists for school, Beavers, etc. Roads, sewage - frequent permitted discharges into The Moat when Swallows Cross Treatment Works can't cope! - surface water drainage also poor.

Change To Plan: Remove R25 and R26 from the Plan.

Summary: All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

Change To Plan: Remove R25 and R26 from the Plan.

It should therefore replace R26 in its entirety. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

Change To Plan: Remove R25 and R26 from the Plan.

## 28291 Object

Respondent: Mr Michael Juniper [8129]

Agent: N/A

Summary: I list below my objections to the two sites in Blackmore:

- 1) The village is in a hollow and any increase of hard surfaces will increase the possibility of flooding.
- 2) The village school is over-subscribed and the site quite small and the space for additional teaching area is limited.
- 3) The local GP surgery is not within the Parish and it is virtually at full capacity. I have been told that the residents of the Elms Development have been advised to use this surgery.
- 4) The public transport is limited and not full time
- 5) The current sewage system is at full capacity and the services also need upgrading
- 6) There is inadequate parking in the village, particularly at weekends with many visitors and cyclists
- 7) Both sites are Green Belt
- 8) The amount of traffic using Redrose Lane during construction will cause considerable disruption
- 9) There has been development close to the village in Epping Council area and further houses are being built, the occupiers will use the village facilities.

I have concern that there are at least five unoccupied houses in the Village which could be used and I would think there must be many more within Brentwood, are there any powers that the council has to acquire or lease these properties?

On reading through the draft LDP there is no mention of any proposals for Doddinghursts or Stondon Massey, are there no sites in these Parishes?

I notice that in the LDP that there is provision for Travellers Sites, does this mean that the unauthorised sites would be removed?

All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP. Greenbelt is greenbelt. It is a one time payoff and lost forever. The loss of habitat to the many flora and fauna it supports will be lost forever. The look of the village will be lost forever. There are elements of Blackmore that are steeped in Englands history and this should be preserved, nurtured and protected and not be spoiled by developer led housing when there are more suitable sites available.

**Change To Plan:** Remove R25 and R26 from the Plan. Blackmore has been incorrectly graded and placed in the wrong category. The proposal is unsound and also there has not been enough corroboration between Brentwood and Epping, who have already placed an burden on housing which is right on the Brentwood border and this will directly affect Blackmore.

**28317 Object****Respondent: Sandra Stock [8946]****Agent: N/A**

Summary: All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

Change To Plan: Remove R25 and R26 from the Plan.

## 28365 Object

Respondent: Mr Colin Tomey [8448]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26 )To be read in conjunction with Focussed Change 4. All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree. Green Belt land should not be built on and should be kept for future generations to enjoy. Countryside needs protecting and Brown Belt land should be utilised to its fullest capacity before Green Belt is considered.

Change To Plan: Remove R25 and R26 from plan

**Respondent: Edward Davis [8954]**

**Agent: N/A**

**Summary:** All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

Remove R25 and R26 from plan

**28410 Object****Respondent: Mrs Evelyn Dickinson [8777]****Agent: N/A**

Summary: All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. ## 28447 Object

Respondent: Mr Pete Vince [8123]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26 )To be read in conjunction with Focussed Change 4. All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

Change To Plan: Remove R25 and R26 from plan

R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

Change To Plan: Remove R25 and R26 from the Plan.

## 28498 Object

Respondent: Mr John Warner [5018]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26 )To be read in conjunction with Focussed Change 4. All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

**28537 Object****Respondent: Mr Thomas Lennon [747]****Agent: N/A**

Summary: All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

No reduction - other than to ZERO - is appropriate for this Green Belt site with poor infrastructure. There is adequate opportunity on Brownfield Sites and sites with better infrastructure and lower flood risk.  
PLUS Other approved sites inside Brentwood or just across the border in Epping Forest should be taken into account and allow R26 to be withdrawn entirely

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

**28571 Object****Respondent: Graeme Logan [8971]****Agent: N/A**

Summary: All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26 )To be read in conjunction with Focussed Change 4. All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

## 28650 Object

Respondent: Mr Kevin Wood [6965]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26 )To be read in conjunction with Focussed Change 4. All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

There does not appear to have been any consideration in Brentwood Borough Council's plans for building on green belt land of the brown field development sites already in planning or that are available across the borough.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree. The classification of Blackmore as a "larger village" in justification of the number of proposed dwellings is bizarre given that the population of the village is well under 1000.

## 28655 Object

Respondent: Mrs Sandra Wood [8720]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26 )To be read in conjunction with Focussed Change 4. All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm). There does not appear to have been any consideration in Brentwood Borough Council's plans for building on green belt land of the brown field development sites already in planning or that are available across the borough.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

## 28690 Object

Respondent: Ms Hannah Pyke [8983]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26 )To be read in conjunction with Focussed Change 4. All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

**28730 Object****Respondent: Surrell McGovern [8991]****Agent: N/A**

Summary: All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

Change To Plan: Remove R25 and R26 from the Plan.

**28734 Object****Respondent: Tom McLaren [8992]****Agent: N/A**

Summary: The council is currently receiving a high volume of applications from developers looking to demolish existing homes or buildings on large plots. The implications of this are that the estimated development from windfall sites is being considerably underestimated and development within Blackmore is not necessary to meet the assessed housing need for Brentwood. The implications of this are that the potential development from these types of windfall sites is being considerably underestimated and development within Blackmore is not necessary to meet the assessed housing need for Brentwood.

All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. ## 28764 Object

Respondent: Ms Karen Page [9000]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26 )To be read in conjunction with Focussed Change 4. All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). ## 28774 Object

Respondent: Ms Janice Plummer [8997]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26 )To be read in conjunction with Focussed Change 4. All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

Change To Plan: Remove R25 and R26 from plan

Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

Change To Plan: Remove R25 and R26 from plan

It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP. The alternatives to building on R26 green belt have not been fully considered.

Change To Plan: Reducing the proposed number of houses on the Blackmore green belt sites does not address the objections to the LDP regarding unjustifiable loss of green belt.

**28849 Object****Respondent: Mrs Ruth Dimond [4851]****Agent: N/A**

Summary: All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP. This site will be negatively impacted by the development on Red Rose Farm and the narrow lane access is completely unsuitable for the increased levels of traffic which will result in any additional development.

Change To Plan: Development in remote rural villages such as Blackmore will inevitably lead to increased road traffic because of the lack of jobs and infrastructure. More suitable sites with far better infrastructure are not being fully utilised. All proposed alterations to green belt boundaries should be fully evidenced and justified according to National Planning Policy and this has not happened, the choice of sites has been developer-lead. Alternatives to green belt development in the immediate vicinity of Blackmore village are being ignored by the LDP.

Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP. The proposed redevelopment of the brownfield site for 12 homes being smaller and more affordable houses is in my opinion more in keeping with the real needs of Blackmore village. I would be inclined to support this development subject to the other greenbelt sites being removed from the LDP.

Change To Plan: I am concerned by the development being undertaken by Epping Council on Fingrith Hall Lane that is a real threat to Blackmore local services. There does not appear to have been any published consultation between Brentwood planners and Epping DC and no evidence of working together planners that is a requirement in these circumstances. This should be rectified without further delay.

In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

Change To Plan: Remove R25 and R26 from the Plan.

**28893 Object****Respondent: Christine Drew [9004]****Agent: N/A**

Summary: All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

Change To Plan: Remove R25 and R26 from the Plan.

**28943 Object****Respondent: Gloria Moreton [9009]****Agent: N/A**

Summary: All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP. How can anyone decide to build on Greenfield/Green Belt land when more than adequate brownfield is available with far more sustainable infrastructure. This decision has not been well thought through and this current situation allows for common sense to prevail and overturn the previous decision of R25 and R26. The redevelopment of Redrose Farm allows an increase in population that is just about manageable in this 'Small Village'. Local services are not large enough to cope with any additional proposals or increase in population to Blackmore.

**Change To Plan:** Had Blackmore been given the correct status in keeping with its size and facilities then this situation would never have got underway. Blackmore is not a 'Large Village' given it only has one local corner shop to provide for its current residents. Remove R25 and R26 from the Plan.

Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP. This makes far greater sense to redevelop an existing site as opposed to removing greenfield land.

Change To Plan: As a new resident in Blackmore it is obvious that the Village cannot sustain the propped growth to the population by way of more housing. The Village is not a 'Large Village' and does not meet the criteria to be considered as such. Therefore the current LDP for Blackmore should be abandoned.

Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

Change To Plan: Remove R25 and R26 from the Plan. It will not add to the community of Blackmore as it cannot provide the infrastructure needed to meet the needs of the increase in population.

**28993 Object****Respondent: Mr Mark Morgan [4987]****Agent: N/A**

Summary: All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01. ## 29028 Object

Respondent: Mr Lewis Pincombe [8745]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26 )To be read in conjunction with Focussed Change 4. All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

Change To Plan: Remove R25 and R26 from plan

Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

Change To Plan: Remove R25 and R26 from the Plan.

**29040 Object****Respondent: Mrs Vicky Mumby [8378]****Agent: N/A**

Summary: All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

## 29042 Object

Respondent: Mrs Janet Pincombe [8614]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26 )To be read in conjunction with Focussed Change 4. All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree. These are only in LDP as developers have come forward, they will make a lot of money if the plan goes ahead but the houses are being built in the wrong area and do not satisfy local needs

Change To Plan: Remove R25 and R26 from plan

## 29077 Object

Respondent: Ms Janet Parris [8315]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26 )To be read in conjunction with Focussed Change 4. All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.  
A - Strongly agree.

One of my major concerns is the increase to traffic in the village on current conditions. To add development would mean it would be totally dangerous because someone is likely to be killed soon. To cross a road in Blackmore village you take your life in own hands. I am fit and well and I can't imagine what it would be like for older people. RedRose Lane is becoming a major through road for traffic. I can't imagine what it would be like with this planned development.

Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

Change To Plan: I believe the more suitable brownfield locations have not been fully considered before planning building on Blackmore's Greenfield sites (R25 & R26). As recommendation under the National Planning Policy all other alternatives should be fully considered before greenbelt development is authorised. I therefore wholly OBJECT to the inclusion of these sites within the LDP.

## 29114 Object

Respondent: Mr Peter Owen [9016]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26 )To be read in conjunction with Focussed Change 4. All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm). Blackmore has a history dating back to Henry VIII to destroy it's unique character when these 50 houses could easily be accomodated at other sites would be a bad decision by BBC, who need to think again even if it means starting the LDP from scratch.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

Change To Plan: Remove R25 and R26 from plan

A - Strongly agree.

This proposed development has not been given any consideration as to the impact on the local community and infrastructure. The village could not cope with the increased population and traffic that such a development would bring to a village already struggling to keep up with that demands of current residents.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

## 29197 Object

Respondent: Mr Andrew O'Hara [9025]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26 )To be read in conjunction with Focussed Change 4. All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. **29233 Object****Respondent: Mr Andrew Finlay [8191]****Agent: N/A**

Summary: All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

Change To Plan: Remove R25 and R26 from the Plan.

## 29237 Object

Respondent: Ms Jill Griffiths [5024]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26 )To be read in conjunction with Focussed Change 4. All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP. With all the environmental considerations in the World at the moment, doesn't it make sense to build on sites that have previously been environmentally damaged before damaging any new land.

Change To Plan: The process that has been followed seems flawed. 1. The parish comments were not taken into consideration at the hearing when the decision was made by BBC because they ran out of time and the parish representations were not heard. 2. I do not believe that the local villagers concerns have been listened to or addressed, hence the strong feelings that have caused the formation of BVHA and so many responses for the size of our community. 3. There are other sites more suitable that have not been considered, eg. Stondon Massey Parish have welcomed opportunities for more housing to regenerate their village. 4. The broader development picture has not been looked at, the development plans of Epping Borough council and the already agreed building that is going on. 5. A proper impact study has not been completed looking at whether the village can cope with this level of development, looking at the whole picture of recent housing expansion not just the LDP.

Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP. As mentioned before. The LDP has not been properly considered, there are plans afoot already that potentially already deliver the required number of houses. Secondly, proper consultation has not happened as at the sign off meeting when the borough council signed the LDP off, the parish council were unable to comment or their preparations considered due to a guillotine. Other considerations not taken into account. Flood concerns, see press over past 5 years and the impact on a rural historical village with the proposed level of expansion along with the expansion that is happening but is not in the plan. Also the wider lack of planning whereby the Epping borough housing plans run alongside the edge of Blackmore, with the Brentwood plans, making Blackmore subject to 2 local plans!

Change To Plan: Technically the LDP has been poorly executed and poorly considered. Lack of joined up consultation with the neighbouring borough, not allowing local parish representations to be heard, not considering the overwhelming response of the villages that live here. We don't object to building, but use the brown field sites and common sense please.

Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

Change To Plan: Remove R25 and R26 from the Plan.

## 29271 Object

**Respondent: Paul Fletcher [9030]**

**Agent: N/A**

**Summary:** All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

**Change To Plan:** Building on greenbelt would downgrade its designation leading to potentially further development on greenbelt land. If houses are built on sites R25 and R26 what plans would prevent further development of greenbelt land around Blackmore and throughout the Borough of Brentwood?

It should therefore replace R26 in its entirety. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeygot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

**Change To Plan:** Remove R25 and R26 from the Plan.

It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP. I moved to Blackmore as it was in the green belt and had a great village community, this much additional housing will ruin this as happened in Doddinghurst

Change To Plan: Remove R25 and R26 from the Plan.

## 29373 Object

Respondent: Mrs Doreen Gray [9033]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26 )To be read in conjunction with Focussed Change 4. All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

## 29407 Object

**Respondent: Mr Anthony Nicholson [4709]**

**Agent: N/A**

**Summary:** It is about time that the Council accepts that unless the service provisions are put in place prior to any building ie adequate schooling, medical provision and transport links then Blackmore is clearly unsuitable for a major housing development as proposed.

All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

**Change To Plan:** Remove R25 and R26 from the Plan.

## 29416 Object

Respondent: Valerie Godbee [4943]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26 )To be read in conjunction with Focussed Change 4. All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

**26541 Support****Respondent: Chelmsford City Council (Ms Gemma Nicholson) [8305]****Agent: N/A**

Summary: For relevance of Chelmsford, Policy R25 and R26, located in Blackmore have a reduction in the number of dwellings for these site allocations. From 40 to 30 homes for R25, and 30 to 20 homes for R26. The capacity of Policy R01 (Dunton Hills Garden Village Strategic Allocation) has increased from 2,700 to 2,770 to take account of the reduction in numbers from the sites identified. CCC continues to support BBC's proposed approach to housing and employment allocations which are unlikely to have any obvious adverse cross-boundary impacts on Chelmsford.

BBC continues to meet its own housing need within its administrative boundaries and has not approached neighbouring authorities under the Duty to Co-operate to request other authorities help accommodate any unmet needs. This is supported by CCC.

Change To Plan: No change proposed

Legally Compliant?: Not Specified      Duty to Co-operate?: Not Specified      Sound?: Not Specified      Tests: N/A      Examination: No

**26676 Support****Respondent: Mrs. Susan Kennard [8810]****Agent: N/A**

Summary: Such a small reduction in the planned number of houses will make little difference when it comes to infrastructure etc. bearing in mind the already proposed developments off of Fingrith Hall Lane, Red Rose Lane and Spriggs Lane.

Change To Plan:

Legally Compliant?: Not Specified      Duty to Co-operate?: Not Specified      Sound?: Not Specified      Tests: N/A      Examination: Not Specified

**26698 Support****Respondent: Mr Mr J Nicholls and Mr A Biglin (Land owners) [8368]****Agent: Sworders (Mrs Rachel Bryan) [5481]**

Summary: We support the following changes to the Pre-Submission Local Plan:

- \* Policy R18 (Land off Crescent Drive, Shenfield): Reduction from "around 55" to "around 35 homes".
- \* Policy R19 (Land at Priests Lane, Shenfield): Reduction from "around 75" to "around 45 homes".
- \* Policy R25 (Land north of Woollard Way, Blackmore): Reduction from "around 40" to around "30 homes".
- \* Policy R26 (Land north of Orchard Piece, Blackmore): Reduction from "around 30" to "around 20 homes".

We support the reduction in housing numbers at the allocation sites in Shenfield and Blackmore, as this is justified by the evidence base.

Change To Plan:

Legally Compliant?: Not Specified      Duty to Co-operate?: Not Specified      Sound?: Not Specified      Tests: N/A      Examination: Not Specified

Full Reference: S - 26698 - 8368 - Policy R26: Land North of Orchard Piece, Blackmore (page 300) - None

**26772 Support****Respondent: Mr Michael Jefferyes [5175]****Agent: N/A**

Summary: I support this reduction - but it does not go far enough. This housing will overburden the village infrastructure and destroy green belt which is already under encroachment with other developments in progress. This construction will also have an adverse impact on rainwater soakaway, increasing the existing risk of flooding.

**26785 Support****Respondent: Historic England (Andrew Marsh) [8824]****Agent: N/A**

Summary: The development of this site has the potential to harm the significance of a number of designated heritage assets including the Grade II listed The Woodbines and Horselocks Cottage, and the Blackmore Conservation Area by eroding their setting. We recommend that Policy R26 includes a criterion to help secure a high quality development which respects the setting of the nearby listed buildings and conservation area.

Change To Plan: Policy R26 should refer to the sites' sensitive edge of settlement location, and the need for high quality design which will relate to both the rural surroundings to the north and to the historic settlement adjoining the site to the south. Careful master planning will be required to ensure the scale and density of the development is appropriate for the location. The cumulative impacts of the development of this site and that of R25 must be taken into account in order to ensure the setting of these listed buildings and conservation area is not compromised. Development of this site will need to conserve and, where opportunities arise, enhance these heritage assets and their settings. The development should be of high quality design. These requirements should be included in any site specific policy and supporting text of the Plan.

## 26928 Support

Respondent: Mr Authur Austin [8838]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26) To be read in conjunction with Focussed Change 4 (above). All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree
