Summary: Q - FOCUSSED CHANGE 4 - PART A POLICY R25 - Land North of Woollard Way, Blackmore. Greenfield and Green Belt. (36% of total responses, March 2019). To be read in conjunction with Focussed Change 5 - All comments apply to both sites. Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP.

Reducing the number is not the issue we must not build on green belt land which directly borders the village

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree

Red Rose Lane is very narrow with no pavement and is not suitable for increased traffic use. The access roads around the proposed developments are regularly used by farm vehicles and further use would be dangerous

Change To Plan: Remove R25 and R26 from plan

## 27622 Object

Respondent: Mr. David Cartwright [7193]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 4 - PART A POLICY R25 - Land North of Woollard Way, Blackmore. Greenfield and Green Belt. (36% of total responses, March 2019). To be read in conjunction with Focussed Change 5 - All comments apply to both sites. Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP. As previously stated Green Belt should not be developed on. Where there are other development opportunities they have to be pursued as the option to enable the council to achieve its housing targets

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.  
A - Strongly agree. The local development plan and the due review process has not been properly considered. There are current developments in process and proposed Brown field sites that will meet the needs. In addition the Dunton Village site is being developed with the full required infrastructure and transport links in place so should be explored to its full potential and Green belt protected

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree

Summary: Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. A - Strongly agree

30 homes are still too many in view of the inadequate infrastructure surrounding this site - R25. Reductions have been proposed on other sites resulting in decreases in housing stock by 47% and 36%. This site has only decreased by 25%.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree

## 27705 Object

Respondent: Mr Rick Hipgrave [8899]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 4 - PART A POLICY R25 - Land North of Woollard Way, Blackmore. Greenfield and Green Belt. (36% of total responses, March 2019). To be read in conjunction with Focussed Change 5 - All comments apply to both sites. Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP. By reducing the proposed numbers in Blackmore the Council have accepted that their original plan was flawed

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree. Blackmore doesn't have the infrastructure to accommodate sites R25 and R26. Red Rose farm is a adequate compromise

Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP. A - Strongly agree.

The LDP and BBC have proposed and presented a disgraceful project which is full of inaccuracies and misinformation. It is absolutely absurd to propose such a housing development with such a lack of infrastructure above other sites that are clearly more suitable. The system is broken and corrupt.

These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

## 27790 Object

Respondent: Mr Peter Cole [8903]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 4 - PART A POLICY R25 - Land North of Woollard Way, Blackmore. Greenfield and Green Belt. (36% of total responses, March 2019). To be read in conjunction with Focussed Change 5 - All comments apply to both sites. Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

## 27830 Object

Respondent: Ms Gloria Tanner [8904]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 4 - PART A POLICY R25 - Land North of Woollard Way, Blackmore. Greenfield and Green Belt. (36% of total responses, March 2019). To be read in conjunction with Focussed Change 5 - All comments apply to both sites. Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

## 27865 Object

Respondent: Ms Patricia Taylor [6880]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 4 - PART A POLICY R25 - Land North of Woollard Way, Blackmore. Greenfield and Green Belt. (36% of total responses, March 2019). To be read in conjunction with Focussed Change 5 - All comments apply to both sites. Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP. A reduction in number makes no difference to the fact that this is a greenbelt site and lacks the infrastructure to support any development. Blackmore is already being surrounded by other developments (including those via EFDC) and pressure from those developments will already adversely affect our village. Blackmore has many problems with supporting the number of vehicles passing through and being used by residents, with subsequent damage to the local area. The access road for this site is dangerous, it is narrow and unlit, used by pedestrians, local cycling groups and horse-riders. There are also flooding risks along this road - development will only add to the pressure of run-off and inadequate drainage.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

The two sites in Blackmore R25 and R26 were only added to the LDP recently, having formerly been designated as unsuitable for development in 2016. The only reason I can see that they have now been added is to satisfy BBC needs to meet with government directives, and are purely developer-led. They offer no advantage or assistance to the village and would only serve to add to existing pressures with infrastructure and destroy the nature of Blackmore.

Respondent: Mr Steven Taylor [8431]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 4 - PART A POLICY R25 - Land North of Woollard Way, Blackmore. Greenfield and Green Belt. (36% of total responses, March 2019). To be read in conjunction with Focussed Change 5 - All comments apply to both sites. Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree. Development will ruin the character of an historic village with inadequate infrastructure for additional housing.

Remove R25 and R26 from plan

## 27915 Object

Respondent: Mr Ritchie Hobbs [8909]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 4 - PART A POLICY R25 - Land North of Woollard Way, Blackmore. Greenfield and Green Belt. (36% of total responses, March 2019). To be read in conjunction with Focussed Change 5 - All comments apply to both sites. Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree

A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree

Summary: Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

Change To Plan: Remove R25 and R26 from the Plan.

## 27990 Object

**Respondent: Mrs Elizabeth Thompson [5016]**

**Agent: N/A**

Summary: Q - FOCUSSED CHANGE 4 - PART A POLICY R25 - Land North of Woollard Way, Blackmore. Greenfield and Green Belt. (36% of total responses, March 2019). To be read in conjunction with Focussed Change 5 - All comments apply to both sites. Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

Change To Plan: Remove R25 and R26 from plan

Summary: Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP. Absolutely. Have lived here all my life, and have seen the population grow massively over the years, but all the infrastructure has remained the same. There are only 4 doctors and Dealtree Health Center now, where once there were I think 6. You cannot get an appointment on line for at least 6 weeks, so have to ring and be triaged if it is an emergency. The schools are all full to bursting.. The parking is very restricted.. The traffic is already dangerous, especially along Chelmsford Road, and heading towards Nine Ashes Road. The paths are not adequate enough to walk on and the thought of at least another 100 people, and possibly 50 cars, minium on top of all the extra building that has been allowed, Spriggs Lanne, and Norton Heath, and again garden planning that has and is being allowed

Change To Plan: Remove R25 and R26 from the Plan.

Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP. The location of Woollard Way and Orchard Piece sites in Redrose Lane is completely unsuitable. Again it will not help Brentwood homes, it will just bring in people who have made money in more expensive areas - it will not help youngsters. We now only have one store inc post office but parking is awful now. School will not cope, nor will doctors. Roads are now fast and dangerous. Buses are rare.

**Change To Plan:** Remove R25 and R26 from the Plan. 1. Focussed Change 4 - PART D

If you allow this farm to be developed whatever the developers say 12 dwellings they will be up to the A414 in the blink of an eye. 2. Focussed Change 5 - PART B Honeypot Lane is close to all amenities inc the M25 (both directions) and Romford. I lived in the area a lot of my life and I know it well. We were close to everything. It has good schools - St Peter's is a great attraction as are all of the senior schools. 3. Additional Comments The original meeting was conducted in a disgusting manner. No evidence was discussed about Blackmore, just a vote. Not the way to conduct an important meeting.

In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

Change To Plan: Remove R25 and R26 from the Plan.

**28076 Object****Respondent: Mr Alan Snook [8484]****Agent: N/A**

Summary: Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

Change To Plan: Remove R5 and R26 from the Plan.

## 28081 Object

Respondent: Mr Nicholas Thororgood [8916]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 4 - PART A POLICY R25 - Land North of Woollard Way, Blackmore. Greenfield and Green Belt. (36% of total responses, March 2019). To be read in conjunction with Focussed Change 5 - All comments apply to both sites. Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.  
A - Strongly agree. The planning process has been flawed from the beginning, including permission for travellers on a site that has already been ruled illegal by the High Court; ignoring perfectly good and more appropriate local brownfield sites (RedRose Farm) and failing to ask respondents for permission to pass their personal Details on to the planning inspector. The Brentwood Council have been misled (possibly willingly) by the greed of the developers who see Blackmore as a highly profitable location for them to build.

Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

**28119 Object****Respondent: Mrs Diane Smith [8388]****Agent: N/A**

Summary: Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP. These are meadows with an array of wildlife which must be protected. The roads are very narrow - in fact they are just lanes, they flood easily from badly drained ditches. Blackmore is so low the water floods from 9 Ashes and the A414. We have had large snow drifts in winter. I know it very well as I was the Postie and have myself in bad snow have walked over a stranded car unaware until the snow melted and discovered it was there. This is the wrong place. This village does not have the infrastructure, sewers, school place... Doctors are overcrowded. Buses for the elderly are infrequent. Again these homes will be too expensive for young couples.

Change To Plan: Remove R25 and R26 from the Plan.

## 28146 Object

Respondent: Mrs Karen Tomey [8428]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 4 - PART A POLICY R25 - Land North of Woollard Way, Blackmore. Greenfield and Green Belt. (36% of total responses, March 2019). To be read in conjunction with Focussed Change 5 - All comments apply to both sites. Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree. Blackmore should remain a small village. Local Amenities cannot accomodate a population increase. Local roads are not suitable for increased traffic, which more housing will cause.

Change To Plan: Remove R25 and R26 from plan

In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

Change To Plan: Remove R25 and R26 from the Plan.

**28170 Object****Respondent: Mr Khodad Jahromi [8190]****Agent: N/A**

Summary: Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP. More extremes of weather are predicted due to Global Warming! About 50 more houses are already in the pipeline in or close to Blackmore - many on border with Epping Forest which Brentwood Borough Council only found out about after the original allocation to Blackmore! Infrastructure can't take these houses - waiting lists for school, Beavers, etc. Roads, sewage - frequent permitted discharges into The Moat when Swallows Cross Treatment Works can't cope! - surface water drainage also poor.

Change To Plan: Remove R25 and R26 from the Plan.

Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

Further to my comments in previous consultation it has become apparant that we are confronted with about 50 - 60 houses already in the pipeline - many of these on the border of Epping Forest but really part of Blackmore - putting even more strain on the inadequate infrastructure of Blackmore - roads, sewage, surface water, schooling, parking, medical services, etc.

At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

Change To Plan: Remove R25 and R26 from the Plan.

Summary: Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

Change To Plan: Remove R25 and R26 from the Plan.

Summary: Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. **28281 Object****Respondent: Mr Michael Juniper [8129]****Agent: N/A**

Summary: I list below my objections to the two sites in Blackmore:

- 1) The village is in a hollow and any increase of hard surfaces will increase the possibility of flooding.
- 2) The village school is over-subscribed and the site quite small and the space for additional teaching area is limited.
- 3) The local GP surgery is not within the Parish and it is virtually at full capacity. I have been told that the residents of the Elms Development have been advised to use this surgery.
- 4) The public transport is limited and not full time
- 5) The current sewage system is at full capacity and the services also need upgrading
- 6) There is inadequate parking in the village, particularly at weekends with many visitors and cyclists
- 7) Both sites are Green Belt
- 8) The amount of traffic using Redrose Lane during construction will cause considerable disruption
- 9) There has been development close to the village in Epping Council area and further houses are being built, the occupiers will use the village facilities.

I have concern that there are at least five unoccupied houses in the Village which could be used and I would think there must be many more within Brentwood, are there any powers that the council has to acquire or lease these properties?

On reading through the draft LDP there is no mention of any proposals for Doddinghursts or Stondon Massey, are there no sites in these Parishes?

I notice that in the LDP that there is provision for Travellers Sites, does this mean that the unauthorised sites would be removed?

Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP. Blackmore cannot support this level of housing. The area whilst under funded is already over subscribed, ie doctors, village school, parking. The first sign on the road itself says NOT suitable for heavy goods vehicles. There will be an increased risk of flooding to add to the risk that already exists, as Blackmore sits on the edge of a flood plain.

Change To Plan: Remove R25 and R26 from the Plan. Blackmore has been incorrectly graded and placed in the wrong category. The proposal is unsound and also there has not been enough corroboration between Brentwood and Epping, who have already placed an burden on housing which is right on the Brentwood border and this will directly affect Blackmore.

**28324 Object****Respondent: Lynne Stocks [8947]****Agent: N/A**

Summary: Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

Change To Plan: Remove R25 and R26 from the Plan.

## 28364 Object

Respondent: Mr Colin Tomey [8448]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 4 - PART A POLICY R25 - Land North of Woollard Way, Blackmore. Greenfield and Green Belt. (36% of total responses, March 2019). To be read in conjunction with Focussed Change 5 - All comments apply to both sites. Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree. Blackmore should remain a small village. Local Amenities cannot accomodate a population increase. Local roads are not suitable for increased traffic, which more housing will cause.

Change To Plan: Remove R25 and R26 from plan

Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

Change To Plan: Remove R25 and R26 from the Plan.

**28379 Object****Respondent: Mrs Patricia Dean [8434]****Agent: N/A**

Summary: Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

## 28394 Object

Respondent: Mr Louis Tregent [8924]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 4 - PART A POLICY R25 - Land North of Woollard Way, Blackmore. Greenfield and Green Belt. (36% of total responses, March 2019). To be read in conjunction with Focussed Change 5 - All comments apply to both sites. Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

A - I agree - the site should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree. It is not sustainable to build on this land. The surrounding infrastructure is not adequate to accommodate the extra bodies that this housing plan will bring in.

## 28431 Object

Respondent: Mrs Rita Tuffey [4620]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 4 - PART A POLICY R25 - Land North of Woollard Way, Blackmore. Greenfield and Green Belt. (36% of total responses, March 2019). To be read in conjunction with Focussed Change 5 - All comments apply to both sites. Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

Summary: Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

**28517 Object****Respondent: Mrs Paula Lennon [8506]****Agent: N/A**

Summary: The site is totally unsuitable for development. As well as being a high risk flood area, it is also an area of historical and natural significance. This has remained unspoilt for hundreds of years and once it has gone, it has gone. We have a duty to be custodians of our heritage and wildlife habitats and destruction of these is unwarranted. Aside from aesthetics, the locality cannot sustain any large increase in population. Our health centre is struggling to cope with the present numbers and any increase would be intolerable.

Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

## 28518 Object

Respondent: Ms Elizabeth Watson [8966]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 4 - PART A POLICY R25 - Land North of Woollard Way, Blackmore. Greenfield and Green Belt. (36% of total responses, March 2019). To be read in conjunction with Focussed Change 5 - All comments apply to both sites. Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

Change To Plan: Remove R25 and R26 from plan

## 28559 Object

Respondent: Mrs Joan Westover [4635]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 4 - PART A POLICY R25 - Land North of Woollard Way, Blackmore. Greenfield and Green Belt. (36% of total responses, March 2019). To be read in conjunction with Focussed Change 5 - All comments apply to both sites. Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP. 1) Even young people with children who have moved into Blackmore recently are NOT able to go to Blackmore school because there are no places available. Consequently any more houses built in Blackmore parents would have to drive their children 3 or 4, even 6 miles, outside Blackmore.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

Summary: Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

Change To Plan: Remove R25 and R26 from the Plan.

## 28616 Object

Respondent: Ms Christine Wilks [8975]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 4 - PART A POLICY R25 - Land North of Woollard Way, Blackmore. Greenfield and Green Belt. (36% of total responses, March 2019). To be read in conjunction with Focussed Change 5 - All comments apply to both sites. Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

## 28649 Object

Respondent: Mr Kevin Wood [6965]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 4 - PART A POLICY R25 - Land North of Woollard Way, Blackmore. Greenfield and Green Belt. (36% of total responses, March 2019). To be read in conjunction with Focussed Change 5 - All comments apply to both sites. Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP.

Access to this land for the development is either going to be through existing residential streets (so not appropriate) or via Red Rose Lane, which is a narrow lane signposted at either end as being unsuitable for heavy goods vehicles. Also the additional vehicles using Red Rose Lane by residents of the proposed new developments once the development is completed will put a strain in what is a narrow road with insufficient width in places for two vehicles to pass one another. In addition, there have been no plans to update the infrastructure of the village and surrounding area e.g. no additional places in the village school, no increase in capacity at the doctors surgery which is already fully subscribed, no plans to mitigate the additional strain on drainage caused by concreting over existing fields in an area that is already a known flood risk, no allowance for the additional homes being built on our border by Epping Forest Council, the occupants of which are almost certainly to want to use the village facilities, no plans for additional parking in the village centre and nowhere suitable for such parking to be provided.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

## 28654 Object

Respondent: Mrs Sandra Wood [8720]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 4 - PART A POLICY R25 - Land North of Woollard Way, Blackmore. Greenfield and Green Belt. (36% of total responses, March 2019). To be read in conjunction with Focussed Change 5 - All comments apply to both sites. Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP.

Access to this land for the development is either going to be through existing residential streets (so not appropriate) or via Red Rose Lane, which is a narrow lane signposted at either end as being unsuitable for heavy goods vehicles. Also the additional vehicles using Red Rose Lane by residents of the proposed new developments once the development is completed will put a strain in what is a narrow road with insufficient width in places for two vehicles to pass one another. In addition, there have been no plans to update the infrastructure of the village and surrounding area e.g. no additional places in the village school, no increase in capacity at the doctors surgery which is already fully subscribed, no plans to mitigate the additional strain on drainage caused by concreting over existing fields in an area that is already a known flood risk, no allowance for the additional homes being built on our border by Epping Forest Council, the occupants of which are almost certainly to want to use the village facilities, no plans for additional parking in the village centre and nowhere suitable for such parking to be provided.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

Summary: Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

## 28763 Object

Respondent: Ms Karen Page [9000]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 4 - PART A POLICY R25 - Land North of Woollard Way, Blackmore. Greenfield and Green Belt. (36% of total responses, March 2019). To be read in conjunction with Focussed Change 5 - All comments apply to both sites. Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

Change To Plan: Remove R25 and R26 from plan

A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

## 28838 Object

Respondent: Mr Douglas Piper [603]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 4 - PART A POLICY R25 - Land North of Woollard Way, Blackmore. Greenfield and Green Belt. (36% of total responses, March 2019). To be read in conjunction with Focussed Change 5 - All comments apply to both sites. Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

Change To Plan: Remove R25 and R26 from plan

**28843 Object****Respondent: Mr Gary Dimond [7055]****Agent: N/A**

Summary: Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

Change To Plan: Reducing the proposed number of houses on the Blackmore green belt sites does not address the objections to the LDP regarding unjustifiable loss of green belt.

R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

Change To Plan: Development in remote rural villages such as Blackmore will inevitably lead to increased road traffic because of the lack of jobs and infrastructure. More suitable sites with far better infrastructure are not being fully utilised. All proposed alterations to green belt boundaries should be fully evidenced and justified according to National Planning Policy and this has not happened, the choice of sites has been developer-lead. Alternatives to green belt development in the immediate vicinity of Blackmore village are being ignored by the LDP.

R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP. The limited capacity of local roads means that any expansion in housing will bring increased risk of road accidents involving cars, cyclists and pedestrians. An increase in paved/hard standing areas will increase the run off of surface water into the basin around the Green and increase the risk of flooding, which is already significant. These risks have not been adequately considered or costed.

Change To Plan: The extra demand on infrastructure has not been adequately planned for or costed. To proceed on this basis would be reckless, given the risk of road traffic accidents and higher flood risk. There are more sound locations available for the proposed developments.

R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP. I strongly believe that the BBC planners are not giving sufficient attention and consideration to the already over saturated services, school, health services, and parking within the village. Any population expansion will completely overwhelm these essential services. The planners do not appear to have any plans to take account of the damage to the infrastructure and the ability of the existing services to cope if the proposed plans are implemented.

Change To Plan: Remove R25 and R26 from the Plan.

Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

Change To Plan: I am concerned by the development being undertaken by Epping Council on Fingrith Hall Lane that is a real threat to Blackmore local services. There does not appear to have been any published consultation between Brentwood planners and Epping DC and no evidence of working together planners that is a requirement in these circumstances. This should be rectified without further delay.

The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

Summary: Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

**28942 Object****Respondent: Gloria Moreton [9009]****Agent: N/A**

Summary: Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

**28997 Object****Respondent: Mrs Michelle Morgan [4505]****Agent: N/A**

Summary: Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. Respondent: Mr Lewis Pincombe [8745]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 4 - PART A POLICY R25 - Land North of Woollard Way, Blackmore. Greenfield and Green Belt. (36% of total responses, March 2019). To be read in conjunction with Focussed Change 5 - All comments apply to both sites. Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

## 29046 Object

Respondent: Mrs Lindsey Pavitt [8746]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 4 - PART A POLICY R25 - Land North of Woollard Way, Blackmore. Greenfield and Green Belt. (36% of total responses, March 2019). To be read in conjunction with Focussed Change 5 - All comments apply to both sites. Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

Change To Plan: Remove R25 and R26 from plan

**29066 Object****Respondent: Mr John and Maureen Murrell [6846]****Agent: N/A**

Summary: This proposed site would also cause immense problems for the village as would all the other sites earmarked for development in the village. As we have already stated above Blackmore is a very small community and there is no room for expansion. Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). ## 29091 Object

Respondent: Mr Albert Pardoe [8002]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 4 - PART A POLICY R25 - Land North of Woollard Way, Blackmore. Greenfield and Green Belt. (36% of total responses, March 2019). To be read in conjunction with Focussed Change 5 - All comments apply to both sites. Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

## 29096 Object

Respondent: Mr Andrew Pallet [1313]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 4 - PART A POLICY R25 - Land North of Woollard Way, Blackmore. Greenfield and Green Belt. (36% of total responses, March 2019). To be read in conjunction with Focussed Change 5 - All comments apply to both sites. Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP. Blackmore is a tight knit community and the road (lanes) are not suited to vastly increased traffic. The amenities would be hard stretched to cope with additional inhabitants - doctors, schools, shop etc. Living in

the Parish for the last 22 years we have seen increased traffic through Wyatts Green from the development at Mountnessing and for that to happen in Blackmore would be extremely disadvantageous and possibly dangerous

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

Change To Plan: I believe the more suitable brownfield locations have not been fully considered before planning building on Blackmore's Greenfield sites (R25 & R26). As recommendation under the National Planning Policy all other alternatives should be fully considered before greenbelt development is authorised. I therefore wholly OBJECT to the inclusion of these sites within the LDP.

Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

Change To Plan: Remove R25 and R26 from the Plan.

## 29139 Object

Respondent: Mr Scott Osborne [8456]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 4 - PART A POLICY R25 - Land North of Woollard Way, Blackmore. Greenfield and Green Belt. (36% of total responses, March 2019). To be read in conjunction with Focussed Change 5 - All comments apply to both sites. Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

Change To Plan: Remove R25 and R26 from the Plan.

**29186 Object****Respondent: Pat Fearnley [9024]****Agent: N/A**

Summary: Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. ## 29191 Object

Respondent: Mr Brett O'Hara [9023]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 4 - PART A POLICY R25 - Land North of Woollard Way, Blackmore. Greenfield and Green Belt. (36% of total responses, March 2019). To be read in conjunction with Focussed Change 5 - All comments apply to both sites. Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP. The Shenfield & Dunton sites all have good infrastructure & transport links, which Blackmore is clearly lacking in both

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

Change To Plan: Remove R25 and R26 from plan

## 29228 Object

Respondent: Ms Tracey O'Brien [9028]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 4 - PART A POLICY R25 - Land North of Woollard Way, Blackmore. Greenfield and Green Belt. (36% of total responses, March 2019). To be read in conjunction with Focussed Change 5 - All comments apply to both sites. Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP.

Blackmore is a small village whose infrastructure is already at breaking point. The Doctors surgery and schools are already full, being unable to get an appointment at said Doctors surgery. Also, the transport system, although regular does stop early evening.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

Change To Plan: The process that has been followed seems flawed. 1. The parish comments were not taken into consideration at the hearing when the decision was made by BBC because they ran out of time and the parish representations were not heard. 2. I do not believe that the local villagers concerns have been listened to or addressed, hence the strong feelings that have caused the formation of BVHA and so many responses for the size of our community. 3. There are other sites more suitable that have not been considered, eg. Stondon Massey Parish have welcomed opportunities for more housing to regenerate their village. 4. The broader development picture has not been looked at, the development plans of Epping Borough council and the already agreed building that is going on. 5. A proper impact study has not been completed looking at whether the village can cope with this level of development, looking at the whole picture of recent housing expansion not just the LDP.

R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP. The Wollard way site does not have the supporting infrastructure to cope with this level of housing and with the primary school nearby represents an increased hazard. With parking for the School already a problem down this lane, increase housing on this lane, inevitably attracting families and increase school usage, would create more congestion and more road hazards

Change To Plan: Technically the LDP has been poorly executed and poorly considered. Lack of joined up consultation with the neighbouring borough, not allowing local parish representations to be heard, not considering the overwhelming response of the villages that live here. We don't object to building, but use the brown field sites and common sense please.

Summary: Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP. Increasing the number of houses on land north of Woollard Way would put more pressure on local services such as local schools and doctors surgeries. Most people living in Blackmore rely on cars to travel as the infrastructure for public transport is poor so increasing the number of houses would consequently increase the number of vehicles and increase pollution which local authorities are trying to cut. Policies R18 and R19 have better public transport infrastructure which would lower pollution levels. The greenbelt land in Blackmore proposed for new housing would be better planted with trees to combat pollution and climate change as proposed by government. If houses have to be built on this land the number of houses should be much reduced with larger gardens or greenspace.

Change To Plan: Building on greenbelt would downgrade its designation leading to potentially further development on greenbelt land. If houses are built on sites R25 and R26 what plans would prevent further development of greenbelt land around Blackmore and throughout the Borough of Brentwood?

Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

Change To Plan: Remove R25 and R26 from the Plan.

**29325 Object****Respondent: Mrs Maureen Murrell [8560]****Agent: N/A**

Summary: Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

## 29371 Object

Respondent: Mrs Doreen Gray [9033]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 4 - PART A POLICY R25 - Land North of Woollard Way, Blackmore. Greenfield and Green Belt. (36% of total responses, March 2019). To be read in conjunction with Focussed Change 5 - All comments apply to both sites. Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

Change To Plan: Remove R25 and R26 from plan

Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

Change To Plan: Remove R25 and R26 from the Plan.

**29380 Object****Respondent: Mrs Joanne Gill [4758]****Agent: N/A**

Summary: Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP. The infrastructure in Blackmore struggles to cope with the current demands on it. Especially the roads, doctors surgery and schools. To further add to this problem is unacceptable. In addition to this the c.65 new homes already in development/planning outside of sites R25 and R25 have not been taken into account at any point and will double the problems that will be caused by R25 and R26.

Change To Plan: Remove R25 and R26 from the Plan.

## 29382 Object

Respondent: Mr Brian Gordon [9035]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 4 - PART A POLICY R25 - Land North of Woollard Way, Blackmore. Greenfield and Green Belt. (36% of total responses, March 2019). To be read in conjunction with Focussed Change 5 - All comments apply to both sites. Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

Local infrastructure particularly roads, schools, and doctors surgeries are already inadequate and there are no plans to address these issues with current levels of housing. The proposed plans will only exacerbate the problems.

Change To Plan: Remove R25 and R26 from plan

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

Change To Plan: Remove R25 and R26 from plan

## 29430 Object

Respondent: Ms Viola Sherwin [9040]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 4 - PART A POLICY R25 - Land North of Woollard Way, Blackmore. Greenfield and Green Belt. (36% of total responses, March 2019). To be read in conjunction with Focussed Change 5 - All comments apply to both sites. Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. **26540 Support****Respondent: Chelmsford City Council (Ms Gemma Nicholson) [8305]****Agent: N/A**

Summary: For relevance of Chelmsford, Policy R25 and R26, located in Blackmore have a reduction in the number of dwellings for these site allocations. From 40 to 30 homes for R25, and 30 to 20 homes for R26. The capacity of Policy R01 (Dunton Hills Garden Village Strategic Allocation) has increased from 2,700 to 2,770 to take account of the reduction in numbers from the sites identified. CCC continues to support BBC's proposed approach to housing and employment allocations which are unlikely to have any obvious adverse cross-boundary impacts on Chelmsford. BBC continues to meet its own housing need within its administrative boundaries and has not approached neighbouring authorities under the Duty to Co-operate to request other authorities help accommodate any unmet needs. This is supported by CCC.

Change To Plan: No change proposed.

**26786 Support****Respondent: Historic England (Andrew Marsh) [8824]****Agent: N/A**

Summary: Site is in close proximity to the Grade II listed The Woodbines and Horselocks Cottage, the Wells Farmhouse and the Blackmore Conservation Area. Development on site will need to be sensitive to this edge of settlement location and relate to the open landscape around it and to the historic settlement it adjoins. The surrounding land is of historic interest and makes a positive contribution to the character and appearance of the conservation area. Cumulative impacts of the development of this site and site R26 must be taken into account to ensure the setting of these heritage assets is not compromised.

Change To Plan: Development of this site will need to conserve and, where opportunities arise, enhance these heritage assets and their settings. The development should be of high quality design. These requirements should be included in any site specific policy and supporting text of the Plan.

**26526 Object**

**Respondent: Mr Anthony Cross [4376]**

**Agent: N/A**

Summary: The proposed reduction in the number of dwellings has been arbitrarily calculated. The proposed reduction has no scientific or evidence based reasoning and does not adequately address or mitigate the significant concerns and objections raised as part of the original LDP (Pre-submission, Regulation 19). The proposed change only reduces the proposed number of dwellings and not the size and extent of the site being developed, so the adverse impacts of the development would not materially reduce. There are more suitable alternative sites in the borough that are able to absorb the number of dwellings proposed for this site.

Change To Plan: Remove site allocations R25 and R26 from the LDP entirely. Any development of this greenfield, agriculturally viable and environmentally beneficial land would be detrimental to the village and natural environment.

**26528 Object**

**Respondent: Mr Tom Bennett [4388]**

**Agent: N/A**

Summary: The proposed reduction from 40 to 30 does not address concerns about further strains on services and infrastructure within Blackmore, the narrowness of Red Rose Lane (the only access to the site), potential for flooding and undue incursion of green belt land.

New housing developments by Epping Forest DC at Ashling's Farm, Nine Ashes & former Equestrian Centre off Fingrith Hall Lane (~70 homes) haven't been considered, nor have the recent approvals at Red Rose Farm, Spriggs Lane or the pending application for the Travellers site on Chelmsford Road, Blackmore. These will add to the problems outlined above.

Change To Plan: Remove R26 from the LDP

Legally Compliant?: No                      Duty to Co-operate?: No                      Sound?: No                      Tests: i, ii, iii                      Examination: No

**26530 Object**

**Respondent: Mrs Shirley Slade-Bennett [8240]**

**Agent: N/A**

Summary: The reduction in the number of houses to be built does not fully address my concerns of an increase in the existing overload of services and infrastructure in Blackmore village and its surroundings. This is already exacerbated by new housing developments in nearby communities, who will also use our roads and facilities, and brownfield approvals in Blackmore, none of which are allowed for in the LDP. My original concerns of flooding, loss of greenbelt land and the unsuitability of the narrow red Rose Lane, which is the only access to the site also remain unaltered.

Change To Plan: Remove site R26 from the LDP

Legally Compliant?: No                      Duty to Co-operate?: No                      Sound?: No                      Tests: i, ii, iii                      Examination: No

**26556 Object****Respondent: Mrs Rosalind Rose [8557]****Agent: N/A**

Summary: I would still like to register my concerns over the proposed dwellings on site R 25 and R 26 in Blackmore. There has already been approved planning for dwellings at Fingrith Hall Lane and Ashlings Farm although not in the Blackmore parish they will use the limited amenities of Blackmore. At the moment it is very difficult to get an appointment at the doctors and the village school is full and I can't see that there will be any vast improvement in the near future. It is about time the UK put in the infrastructure before building as in many other countries. I do realise that the younger and older population need more affordable housing but as soon as the properties are built they very soon compete for the higher price range in villages such as Blackmore.

**26563 Object****Respondent: Mr Kevin Craske [2712]****Agent: N/A**

Summary: Reductions in Blackmore Village from 70 to 50 (30%). The statements for justification are i) inconsistency with character, ii) impact on local services, iii) disagreement with settlement hierarchy, iv) Green Belt development and flood risk. In a large village it is difficult to understand how a total of 70 new homes can make too much difference. There are already a large variety in the types of homes in Blackmore so again how can new build be out of character? What can a reduction of 20 homes do to improve the village character that much? It does not make sense and again appears to be NIMBYISM! Does the council think a token gesture will do in this case? The impact on local services of 50 homes is not much different to that from 70 homes. Blackmore has good local services with a rail link to Brentwood and this was part of the reasons given for locating hundreds of homes in West Horndon. Road access is good with easy access to the A414, A12, M25 and M11. It has 3 public houses, 2 village halls, sports and social club, football and cricket pitches and a village shop with a farmers market at weekends. Hardly hard done by and surely it could easily take 70 homes without any impact at all. So this part of the justification does not ring true! What is the basis of the settlement hierarchy? Small population areas tend to provide only low order services such as Post Office and Newsagents, not 3 public houses, 2 village halls etc. This is a ridiculous statement as a justification. West Horndon Village has 1 public house, 1 village hall, no sports and social clubs or cricket pitches etc but is going to have almost 500 extra homes with no improvement in service or facilities. What about our settlement hierarchy? We do not appear to matter to the council and are not as important a village as Blackmore obviously. Again discriminatory, disgusting and very insulting to residents of West Horndon. Where is our value? We pay the same tax to support the council but are obviously second class citizens.

**26571 Object****Respondent: Mr & Mrs Gunthardt [8790]****Agent: N/A**

Summary: Our objections to the proposed development reflected the general views expressed by our Parish Council and those of a large proportion of the Village population. We feel strongly that the proposed development including the latest revised LDP would negatively impact on the unique character of the Blackmore Village and put undue strain on its already strained infrastructure and services including traffic and parking facilities, access to the local school, lack of adequate medical facilities, flooding etc. We also understand that there are now plans to build a further 70 properties just outside our borough which will cause further strain on the resources and infrastructure of our village. We fully support the efforts and views expressed by our local Parish Council. We trust that you will fully take into account of the views expressed by the residents of our village.

Change To Plan: Remove sites R25 and R26 from the plan.

**26581 Object****Respondent: Mr Hugh Rayner [8011]****Agent: N/A**

Summary: Too much strain on local infrastructure - schools, medical, doctors waiting times for appointment and could result in increased flooding to village. Parking already impossible in village.  
More suitable sites should have been identified. Land is in Green Belt area. No healthcare in Parish, GP surgeries at max capacity. Blackmore school at capacity now. Inadequate roads, parking in village is a nightmare. Utility services would need upgrading and also public transport. Prone to flooding in the village. Loss of ambience of village, such a major expansion would ruin the character of an otherwise beautiful village. Loss of valuable agricultural land.

Change To Plan: Remove R25 and R26 from the plan

Legally Compliant?: No                      Duty to Co-operate?: No                      Sound?: No                      Tests: None                      Examination: No

Summary: We have already written to ask for our February forms to be passed on to the Inspector. However, we have now received from our Parish Council a request to write once again about the reduced plan on sites R25 and R26 the reduction on these sites from 70 to 50. There isn't the infrastructure to accommodate more large developments. Epping and Ongar Council have already built on the boundary without consultation or thought for how we will deal with sewage surface water, traffic, we ow only have village post office shop. Parking by visitors now is abysmal with a further 15 in Spriggs Lane and Red Rose Lane We cannot cope now. Redrose and Woollard Way are meadows not brownfield.

There was an application for a very small house on a brownfield site on Orchard Piece you pushed that man who was in fact homeless to distraction, you behaved in a manner we never wish to see again it was disgraceful. Now it is OK to build on the field adjacent T26. 20 houses when you dealt with him you knew about R26 and kept quiet. The whole situation has been dealt with so badly we so not feel safe in official hands.

We thank Chris Hossack for speaking to us at last we have a leader who listens. Please pass all our comments to the inspector we are so disgusted the way this LDP plan has been handled.

**26619 Object****Respondent: Mr Timothy Webb [5612]****Agent: N/A**

Summary: Object to all document particularly R25 and R26

Not legally compliant as still contravenes Green Belt legislation and national policy; unsound as R25 and R26 changes grossly inadequate as fail to rectify destruction of Green Belt, loss of agricultural land, access issues on Redrose Lane, impact on school and medical facilities, minimal public transport, flood risk.

Change To Plan: Failure comply with Duty to Cooperate as local residents and elected representative concerns are disregarded.

Proposed changes are superficial/more more radical reform required. Housing demand should be addressed with high density in and around Brentwood Town - blocks of flats and above shops. Executed effectively in Dagenham Heathway.

Legally Compliant?: No

**26624 Object****Respondent: Mrs Pamela Bailey [8010]****Agent: N/A**

Summary: Addendum is unsound as main issues of development are ignored. Outrageous to build on Green Belt; extra pressure on traffic is not being addressed with two more cars per property resulting in mayhem, parking already impossible and is a danger for parents and children, and pavements being used for parking by all vehicles, so we need to walk in the road. The school is oversubscribed, resulting in car use to transport children elsewhere. Medical centre is overflowing and can't keep up with existing demand, more residents will exacerbate this. Should listen to our concerns, planners are ignoring the urgent issues. Unfair on village and other brownfield sites should be used.

Change To Plan: This local plan will only be sound if the vital points as set out in question 5 are adhered to: no building on Green Belt, keep Blackmore a village not an attempt to make it into a mini-town. Also need to consider how it will affect the local water supply, etc, etc, etc. The vital points must be listened to - GREEN BELT, SCHOOL, GP SURGERY, PARKING, HEAVIER TRAFFIC, WATER SUPPLY, FLOODING.

**26629 Object****Respondent: Punch Partnerships (PGRP) Ltd [8801]****Agent: Cordage Group (Miss Lauren Parsons) [8797]**

Summary: The proposed reduction in housing numbers in Shenfield and Blackmore reduces housing numbers in sustainable settlements where growth is needed, and puts them in a less sustainable location. In relocating the units to the proposed strategic allocation at Dunton Hills, the provision of these units will inevitably occur later in the plan period, when the focus should be on early provision to address the current housing land supply shortfall. The site at Spital Lane is an ideal candidate, having minimal impact on the openness of the Green Belt, being capable of accommodating six houses without any risk of flooding.

Change To Plan: A much better solution would be to reprovide the units lost from the Shenfield and Blackmore allocations on sustainable sites in and around Brentwood. The site at Spital Lane is an ideal candidate, being located on the edge of the town close to services and facilities, having minimal impact on the openness of the Green Belt, and as per the Environment Agency comments on the most recent planning application, being capable of accommodating six houses without any risk of flooding. We therefore advocate that Spital Lane be allocated for housing in the emerging plan, along with other suitable smaller sites identified in the SHLAA, to make up the housing numbers lost in Shenfield and Blackmore.

**26638 Object****Respondent: Mr Graham Hesketh [8634]****Agent: N/A**

Summary: It fails to take into account the number of dwellings being built outside BBC domain which will impact heavily on the village-65 in all that when added to the proposed total of 50 will effect infrastructure including schools and doctors surgery, flooding, parking, congestion. This reveals the woeful lack of investment in the area beforehand to improve such matters. Re-opening this LDP allows other sites to be investigated like Stondon Massey where there is a welcome need for housing as well as preferred Brownfield sites in Blackmore which could lead to the building of 26 more houses in a controlled manner.

Change To Plan: See above. Investigate building in Stondon Massey which welcomes more housing and has space. Put in new housing in Blackmore that utilises Brownfield sites and has far less impact on the environment and infrastructure which is already under enormous strain-try getting an appointment at the doctor's surgery!

**26645 Object****Respondent: Miss Jean Monery [8007]****Agent: N/A**

Summary: I sent in my concerns with regards to the new housing development in February of this year. My views on the revised LDP have not changed and I feel that any new development to the two sites will alter the landscape, add extra vehicles to the village which will cause major disruption within the village and to the one shop that we have. I moved to Blackmore 4 years ago, it took my husband and I two years to find where we wanted to spend our retirement and in the plans it clearly stated that there would be no building on the fields surrounding Woollard Way which is why we decided to buy and I now feel this is a contradiction and we should have been informed of any future developments that have been put in place.

We also like the quietness of the village and personally we paid for this benefit which if the housing sites go ahead is not only disrupting our lives as others within the village but also village way of life which is what we so wanted. English heritage should be a major factor and development on villages that need building up. I would appreciate if you can again take my views into consideration.

Change To Plan:

Legally Compliant?: Not Specified

Duty to Co-operate?: Not Specified

**26648 Object****Respondent: Mr Richard Fisher [8480]****Agent: N/A**

Summary: This green field site runs alongside a narrow single lane which at this end is prone to flooding. It has had less of a reduction than the shenfield site which is already in a residential area where the infrastructure is better in place to support this development, yet has had a reduction of 30 dwellings. This site has only had a reduction of 10 yet is having 12 dwellings built, unopposed as on a brownfield site, opposite this site and will share the same narrow single country lane.

Change To Plan: I believe this proposal is unsound and unjustified in a small, old, historic village where the proposed expansion could change and impact on the village significantly. There are better options available in Shenfield and purpose built Dunton village where expansion is welcomed and there are brown field sites which have not been taken into consideration and should be built on first.

**26651 Object****Respondent: Ms Patricia Taylor [6880]****Agent: N/A**

Summary: Building on this site will increase the population (many existing homes only have 2 residents), overcrowding, congestion, traffic hazards putting a strain on infrastructure which has remained unchanged for many years. New housing developments not included in the LDP are surrounding Blackmore. This site is greenbelt and should be excluded as there are brownfield sites available. The area is subject to serious flooding and access is narrow and dangerous. There would also be adverse affects to the natural environment and nature of the village. Purely developer-led, this site was excluded from the LDP in 2016 and should be excluded again.

## Change To Plan:

This site should be removed from the LDP and the village plan implemented which makes use of available brownfield sites and meets village requirements not those of developers. Brownfield sites already offered should be used and more investigation into including other brownfield opportunities undertaken (e.g. Stondon Massey where development is actively encouraged). Our PC representatives should be given the opportunity to present alternatives to the BBC.

## 26670 Object

**Respondent:** Blackmore, Hook End and Wyatts Green Parish Council (Parish Clerk) **Agent:** Holmes & Hills LLP (Mr Michael Harman) [8074]  
[1921]

**Summary:** Both the Parish Council and BVHA remain strongly opposed to the proposed allocation of Sites R25 (Land north of Woollard Way, Blackmore) and R26 (Land north of Orchard Piece, Blackmore) for housing development. The proposed allocations, following the "focussed changes", are for "around 30 new homes" at R25 and for "around 20 new homes" at R26. The Parish Council and BVHA say that BBC can meet its Local Housing Need ('LHN') on preferable sites to R25 and R26. Further, the Parish Council and BVHA say that the LHN can be met without sites R25 and R26 at all. Greater use of Dunton Hills Garden Village with higher densities; greater use of sites R18 and R19 with higher densities rather than lower as proposed and are more sustainable town sites; the existing windfall development rate in Blackmore is appropriate; nearby development in Epping impacts on infrastructure without contribution; Therefore the Parish Council and BVHA recognise that proposed allocation on sites R25 and R26 has been reduced following "focussed changes". However, both the Parish Council and BVHA maintain that the LHN can be met on more suitable and/or sustainable sites elsewhere in the Borough. BBC have not considered increasing housing density on the Dunton Hills Garden Village site. A modest increase in density may negate the need for both the Shenfield (R18 and R19) and Blackmore (R25 and R26) sites. The Shenfield sites are clearly in more sustainable locations (as confirmed by the Sustainability Appraisal scores) but are surrounded by built form development but also transport links/infrastructure. Thus, the inclusion of sites R18 and R19 will not lead to coalescence nor erode the countryside/Green Belt. Sites R18 and R19 should be allocated in preference to the Blackmore sites (R25 and R26). There is no need for the Blackmore sites if the allocation on the Shenfield sites is reinstated. Namely, the 50 dwellings removed from sites R18 and R19 would, if reinstated, entirely negate the need to allocate sites R25 and R26. Moreover, there is no evidence that BBC have considered increasing housing density on sites R18 and R19; both of which could take a higher housing density but particularly the latter.

**Change To Plan:** The Plan, as amended by the focussed changes, is not sound with the inclusion of sites R25 and R26. The inclusion of sites R25 and R26 cannot be justified and their inclusion of these sites is contrary to national policy, particularly with regards to sustainable development and Green Belt land policies within the NPPF. Brentwood Borough Council should amend the plan to retain R25 and R26 as Green Belt and not allocate these sites for housing.

**26674 Object****Respondent: Ms Margaret Boreham [8033]****Agent: N/A**

Summary: As a resident of Blackmore I am writing with regard to the Local Development Plan. I have very grave concerns that the proposed plan does not address the concerns of local residents.

1. The development encroaches on to Green Belt land which is a statutory green belt around London and should remain so.

2. The proposed development, although reduced, will put a huge strain on the local infrastructure.

i) The area is prone to flooding.

ii) Local services are already over stretched

iii) The road access is inadequate

3. The area already has significant development close by at Nine Ashes and Fingrith Hall Lane. The Residents of these development use the services provided by Blackmore but the revised plan does not take account of this.

4.

In addition no allowances have been made by Brentwood Council of plans recently approved build over 15 dwellings on Red Rose Farm site and Spriggs Lane.

The plan will significantly increase the population and traffic of the parish. The village cannot realistically support such an increase, especially in the light of adjacent developments who already use the services of Blackmore.

Change To Plan: remove R25 and R26 from the plan

**26677 Object****Respondent: Mrs Christine Blythe [4718]****Agent: N/A**

Summary: Object reduction of dwellings proposed by Addendum document.

I support the Preferred Options local Plan (2018) which was the outcome of a positively framed ten year process. I support the sequential land use approach in particular in relation to Policy R26 which supports Policy NE9 8.88 (p228) and Policy NE13: 8.115 (p238). In particular Policy R26 supports item 2.8 (p21) and would serve to help satisfy SP01: SP02: HP01.

I object to reduction in numbers as there is no technical justification for this, net density should be at least 35 dpha and previous density should be reinstated.

Under policy r26, new housing will give priority to those with "demonstrable local connection and those over 50". As there is currently insufficient housing stock for downsizing in Blackmore and the local area, the number of dwellings should not be reduced.

The concerns regarding surface water flooding does not correspond with my knowledge of the site. However in order to be fully informed, Ardent Consulting Engineers have conducted a detailed technical analysis relating to flooding and drainage on the Site. It has been demonstrated that the Site is not in an area vulnerable to groundwater or fluvial flooding. Even so, Crest Nicholson Eastern, the builder who would deliver housing on this Site has taken note of the concerns of local residents in its proposed design for the Site. No technical objection has been received from ECC or the EA.

The allocation should be returned to 40 dwellings. Please refer to of previous comments made.

Change To Plan: Reinstate the dwelling number to 40 for site R26.

Summary: It should be recorded that each item I have entered is a separate representation and should be logged as such. It has been publicised that Blackmore created c500 responses to the previous consultation. However if you look at these actual responses stored on the BBC portal you will see that in fact for R25 there are 1,026 separate respondents and for R26 there are 1,035 respondents. In addition many of these respondents raise multiple objection when their individual response is reviewed. e.g. Ref

23127 has 11 different objections but is only counted as 1 representation. It would seem that there has been deliberate understatement of the magnitude of local feeling about the inequities of the foisted upon Blackmore by the LDP. To put these numbers in perspective the BBC site shows the representations on other sites as: R01 15 comments; R02 29 comments; R03 18 comments.

Change To Plan: Remove R25 and R26 from the plan

**26687 Object****Respondent: Mr Colin Holbrook [4759]****Agent: N/A**

Summary: The Addendum of Focussed Changes has recognised a problem with the LDP and looks to reduce the damaging impact on the worst affected Allocated Sites based on a Council view that removal of any specific site was not "possible". In fact, it is possible to remove a site at this stage, just as it is at the next stage (if so directed by the Inspector). This artificially designated "Major" change of removing a site was shelved. Possibly as it had the negative potential consequence of getting BBC censured, or even possibly having the control of the process taken away from them by central government. Whilst the "Major" change was not palatable for BBC, it is the right option, and better than a superficial "Minor" reduction in numbers on R25 & R26.

Change To Plan: Remove R25 and R26 from the plan

**26689 Object****Respondent: Mr Colin Holbrook [4759]****Agent: N/A**

Summary: 4. The Sustainability Objectives specifically raise the need for Gypsy and Traveller communities to have SUITABLE access to services and health care. BBC spent resident's money fighting one unauthorised occupation of land in Blackmore and won. Regrettably they have now smuggled this land-grab in to the LDP as a new official site with no debate or notice. This increases the burden on Blackmore services and infrastructure. which is unable to deal with the existing increase of housing proposed by the LDP. If this is left in the LPD there should be some recognition by completely removing the new house burden R25 & R26 imposed on the village.

Change To Plan: Remove R25 and R26 from the plan

Summary: I have submitted 2 previous objections to the LDP, please see these for the reasons of objections. Also see objections in R25

Change To Plan: Removal from LDP. Green belt should not be built on when other more suitable brown field sites closer to supporting infrastructure is available.

Legally Compliant?: No                      Duty to Co-operate?: No                      Sound?: No                      Tests: i, ii, iii                      Examination: No

Full Reference: O - 26700 - 4396 - Policy R26: Land North of Orchard Piece, Blackmore (page 300) - i, ii, iii

**26708 Object****Respondent: Mr. David Cartwright [7193]****Agent: N/A**

Summary: There is sufficient current housing on the outer fringes of the village along with proposed brownfield sites that meet the planned requirements. The already inadequate schools and doctor resources have not been considered along with Essex councils own flood risk plan which all show the risk and the village infrastructure simply is not sufficient to cope with a development on green belt in the village

Change To Plan: Review of current/proposed brown field developments and remove the need to build on green bely

Legally Compliant?: No                      Duty to Co-operate?: No                      Sound?: No                      Tests: i, ii, iii, iv                      Examination: No

Full Reference: O - 26708 - 7193 - Policy R26: Land North of Orchard Piece, Blackmore (page 300) - i, ii, iii, iv

**26709 Object****Respondent: Ms Deborah Cullen [4547]****Agent: N/A**

Summary: there is no infrastructure to support this number of houses, the doctors and school are already oversubscribed there is no access to public transport and so further traffic caused by at least one car per household will cause traffic and other issues in the village no housing needs survey has been carried out - this has been developer lead and no co-operation with neighbouring boroughs or villagers no account has been taken of the small size of blackmore village and the effect of these houses and other developments which will force traffic through the village

Change To Plan: remove from the plan and put housing nearer infrastructure and public transport links

Legally Compliant?: No                      Duty to Co-operate?: No                      Sound?: No                      Tests: i, ii, iii, iv                      Examination: Yes

Full Reference: O - 26709 - 4547 - Policy R26: Land North of Orchard Piece, Blackmore (page 300) - i, ii, iii, iv

**26717 Object****Respondent: Mrs. Margaret Cartwright [7195]****Agent: N/A**

Summary: The council has also failed to take into account the flood risk assessment completed by Essex Council and requirements to grow the supporting infrastructure. In addition brownfield developments within the village area and additional housing on the perimeter of the parish meets the requirement and must be taken into consideration. The lack of local resources ie schools, doctors and lack of parking in the village increased volumes of traffic along restricted land for access track makes the proposal unsound. The council has also failed to take into account the flood risk assessment from Essex Council and requirements to grow supporting infrastructure

Change To Plan: In addition brownfield developments within the village area and additional housing on the perimeter of the parish meets the requirement and must be taken into consideration. Aside from the lack of local resources ie schools, doctors and lack of parking in the village increased volumes of traffic along restricted land for access track is not acceptable and makes the proposal unsound. The council has also failed to take into account the flood risk assessment completed by Essex Council and requirements to grow the supporting infrastructure. In addition brownfield developments within the village area and additional housing on the perimeter of the parish meets the requirement and must be taken into consideration. Aside from the lack of local resources ie schools, doctors and lack of parking in the village increased volumes of traffic along restricted land for access track is not acceptable and makes the proposal unsound. The council has also failed to take into account the flood risk assessment completed by Essex Council and requirements to grow the supporting infrastructure. The plan to build on this green belt site must be removed from the overall plan

Legally Compliant?: No                      Duty to Co-operate?: No                      Sound?: No                      Tests: i, ii, iv                      Examination: No

**26719 Object****Respondent: Cllr. Andrew Watley [4869]****Agent: N/A**

Summary: My previous 2019 submission still stands. New sites on border or within Parish add 65 dwellings not included within LDP and not taken into account. All will use Blackmore infrastructure and facilities with no improvements planned. Red Rose Farm - brownfield - 12 dwellings not identified in LDP being built opposite proposed site. Stondon Massey requesting development but not in LDP. Oaktree Farm Plot 3 being included even though previously thrown out by the High Court. Illogical and sends wrong messages. The LDP not thought through and vague on numbers - uses 'around' to detail developments - open ended.

Change To Plan: Development reduced to 0

Legally Compliant?: No                      Duty to Co-operate?: Yes                      Sound?: No                      Tests: i, iii                      Examination: No

Full Reference: O - 26719 - 4869 - Policy R26: Land North of Orchard Piece, Blackmore (page 300) - i, iii

**26721 Object****Respondent: Mrs Susan Watley [8815]****Agent: N/A**

Summary: Nothing has changed! The BBC's view that the village does not have the infrastructure to cope with development of this nature in its previous LDP proposal. Even with a reduction from 70 to 50 it is still far too much and does not take into account the numerous developments that are right on the village borders numbering some 65 dwellings. The extra traffic will cause a very real danger at Nine Ashes Road and Red Rose junction - right by the school, preschool, village hall and sports club and where the water floods across the road after rainfall.

Change To Plan: Remove from the LDP

Legally Compliant?: No                      Duty to Co-operate?: Yes                      Sound?: No                      Tests: i, ii, iii                      Examination: No

**26731 Object****Respondent: Essex County Council (Mrs Anne Clitheroe) [6776]****Agent: N/A**

Summary: NPPF para 31 requires planning policies to be underpinned by relevant and up to date evidence.

BBC need to be satisfied reduction in dwelling numbers is supported by appropriate evidence base, including:

- demonstrating site makes effective and efficient use of land (paragraphs 117,118,122,123)
- is economically viable (paragraph 67)
- updated transport evidence base fully assesses transport implications.

Highway Authority's vehicular access objection (March 2019) overcome,now satisfied vehicular access can be taken from Redrose Lane.

Proposed policy change does not address ECC's Pre-Submission Reg.19 consultation representations to this policy (March 2019).

ECC's position has not changed on this matter.

Change To Plan: As a result of the reduction in dwelling numbers for this site allocation BBC should include, within the Plan evidence and supporting text for this Policy, details to demonstrate that the site allocation makes effective and efficient use of land, and is economically viable.

The policy needs to be further changed to address ECC's representations to this policy made to the Pre-Submission Regulation 19 Local Plan consultation in March 2019.

**26733 Object****Respondent: Mrs G Emms [8817]****Agent: N/A**

Summary: I am aware that amendments have been made to the local plan regarding sites R25 and R26 reducing the number of houses planned to be put there. I do have some issues with the amount of housing being put in our area as it is putting a strain on roads and local services and also destroying the green belt in the process. The local NHS services are not able to cope with the influx of all the extra residents. I feel that we don't have the infrastructure to cope with all the development you seem to be pushing through and that you have no regard for the current residents in these areas. What extras services are you planning to put in to cope with all the new people and the needs we will all have if you go ahead with this. I think it would be better to scrap these sites completely at the moment as you still have a lot of other planning going ahead locally.

I would be grateful if you will take my view into consideration during your consultation process for this plan.

Change To Plan: remove R25 and R26 from the plan

**26742 Object****Respondent: Mrs Rosemarie Nelson [4529]****Agent: N/A**

Summary: The area behind Orchard Piece (and that part of the Blackmore village) is already subject to flooding and in view of recent flooding issues in other parts of the UK, there can be no justification for building on what is effectively a "flood plain". In addition, the additional developments proposed by Epping District Council, will impose an unreasonable strain on the Blackmore infrastructure - parking, schools, doctor's surgery etc. There are no positives associated with this proposed development.

Change To Plan: This development should be removed completely from the LDP.

Legally Compliant?: No

**26749 Object****Respondent: Basildon Borough Council (Ms Christine Lyons) [8820]****Agent: N/A**

Summary: Basildon Council objects to the Focussed Changes 1 - 5, as they do not seem to have been informed by evidence or the Sustainability Appraisal as required by National Policy. The amendments effectively redistributes 70 proposed dwellings from the 'Central Brentwood Growth Corridor', which has opportunities to embrace more sustainable modes of transport, to a Green Belt location with a less developed public transport infrastructure. The reasons for the amendments do not seem to be supported by the evidence and appear to be based solely on the considerable number of objections received in response to the Pre-Submission Local Plan consultation in March 2019. The Brentwood Sustainability Appraisal October 2019 concludes that;

"It is difficult to draw strong conclusions, with the primary considerations being: A) decreasing the homes assigned to the Brentwood/Shenfield urban area by 50 may serve to reduce traffic through the problematic town centre AQMA, but any benefit would be marginal, and equally these are accessible locations suited to minimising car dependency; and B) increasing the number of homes assigned to DHGV by 70 is potentially associated with a degree of risk, noting the ongoing work being undertaken in respect of improving air quality along the A127 within Basildon Borough, and noting consultation responses received."

Paragraph 16 of the NPPF advises amongst other things that Plans should be prepared with the objective of contributing to the achievement of sustainable development. Basildon Council has considered the two Growth Corridors identified in the Brentwood Borough Local Plan. It has reflected however that there are fundamental distinctions between them, which do not appear to have influenced site selection choices in a justified way. The Central Brentwood Growth Corridor is the location of nationally and regionally managed and maintained infrastructure - the A12 & M25 (Highways England) and the Elizabeth Line (maintained by Network Rail and operated by Transport for London) and East Anglia Line (maintained by Network Rail and operated by Abellio East Anglia). Growth in this location would maximise this infrastructure investment. The South Brentwood Growth Corridor meanwhile, consists the A127 (maintained by Essex County Council) and Essex Thameside Line (maintained by Network Rail and operated by c2c).

It is not considered that the two corridors offer comparable choices in terms of the strategic importance or capacity of transport connections, and using the Sustainability Appraisal and other evidence, the Plan should select sites within the Central Brentwood Growth Corridor that provide opportunity for extensions to towns and villages that can encourage more sustainable travel choices and take advantage of the strategic infrastructure available. This would encourage commuting behaviour to shift away from private car use and therefore make this location a more sustainable and viable option to concentrate growth. Such an alternative approach would be justified by evidence and align with national policy.

Change To Plan:

**26764 Object****Respondent: Mr Brian harding [8821]****Agent: N/A**

Summary: I am fully supportive of the objections specified within the analysis of the Parish council / Blackmore Village Heritage Association response to the Addendum Consultation and I have supplied it again for information.

Change To Plan: Remove sites R25 and R26 from the plan

Legally Compliant?: Not Specified      Duty to Co-operate?: Not Specified      Sound?: No      Tests: None      Examination: No

Full Reference: O - 26764 - 8821 - Policy R26: Land North of Orchard Piece, Blackmore (page 300) - None

**26765 Object****Respondent: Crest Nicholson Eastern [2509]****Agent: Savills UK (Mr Ben Thomas) [2271]**

Summary: Strongly refute the assumptions of the Addendum. Previous objections on the grounds of flood, access safety and suitability, settlement category are addressed. To ensure the Plan is Sound, we therefore request that the wording of the site allocation be amended to reinstate the capacity of the development to approximately 40 dwellings, in accordance with the technical evidence and advice from statutory consultees. The appended Vision Statement articulates how approximately 40 homes can be delivered in the short term to meet Blackmore's needs as part of a high quality, generously landscaped scheme, reflective of the density, pattern and character of existing surroundings.

Change To Plan: Return indicative dwelling yield to former number of around 40 dwellings.

Legally Compliant?: Not Specified      Duty to Co-operate?: Not Specified      Sound?: Not Specified      Tests: None      Examination: No

Full Reference: O - 26765 - 2509 - Policy R26: Land North of Orchard Piece, Blackmore (page 300) - None

**26779 Object****Respondent: Mr Richard Swift [1747]****Agent: N/A**

Summary: Object to the further reduction the allocation of dwellings from 30 to 20. The site's original allocation of approximately 40 dwellings continues to be supported by technical evidence and statutory consultees. The village will lose its vitality and potentially current services if it doesn't continue to thrive. The amended policy of 20 houses is not in line with national policy for a plot of this size or Policy HP03 of the Pre-Submission Local Plan.

Change To Plan: Site R26 (1.52 hectares) would provide for at least 40 two and three bedroom homes for first time buyers, for local residents and for those wishing to downsize without leaving Blackmore.

Legally Compliant?: Not Specified      Duty to Co-operate?: Not Specified      Sound?: Not Specified      Tests: None      Examination: Yes

Full Reference: O - 26779 - 1747 - Policy R26: Land North of Orchard Piece, Blackmore (page 300) - None

**26781 Object****Respondent: Ms Virginia Stiff [1748]****Agent: N/A**

Summary: Object to the "Focussed change 5 Policy R26: Land North of Orchard Piece, Blackmore" which seeks to further reduce the number of dwellings from 30 to 20. The site's original allocation of approximately 40 dwellings continues to be supported by technical evidence and statutory consultees. Given that there is an acute need at the local level for more housing, there is no rationale given for this reduction. The allocation of 40 units should, therefore, be reinstated. The site has never been flooded in the last 60 years. No technical objection has been to the site in regard to this issue.

Change To Plan: The allocation of 40 units should, therefore, be reinstated.

Legally Compliant?: Not Specified      Duty to Co-operate?: Not Specified      Sound?: Not Specified      Tests: None      Examination: Yes

Full Reference: O - 26781 - 1748 - Policy R26: Land North of Orchard Piece, Blackmore (page 300) - None

**26864 Object****Respondent: Mrs Christina Atkins [8118]****Agent: N/A**

Summary: R25 received 36% of total Reg 19 responses, R26 received 37% with a total of 73% for both sites. Greenfield / Green Belt land in a remote village location with inadequate infrastructure not able to support level of development. Site should be removed completely from LDP, reduction of 10 houses does not resolve issues. Site is developer led and still not properly assessed against local housing needs. There are a number of large developments progressing nearby which will further degrade the infrastructure of Blackmore. These include 30 homes under construction on Fingrith Hall Lane plus an additional 5 on the same road, infill sites in Nine Ashes and 10 dwellings at Ashlings Farm. Inadequate consultation and strategic planning discussions with Epping Forest DC regarding these developments in the wider area. There are a number of other sites going through the planning process including 12 houses at Redrose Farm, 5 starter units in Spriggs Lane, a further 9 houses on Spriggs Lane/ Chelmsford Road. Redrose Farm is a brownfield redevelopment opportunity (opposite R26) for 12 homes and will deliver part of our own Village plan as opposed to digging up Green Belt. It should therefore replace R26 in its entirety. Both R25 and R26 should be removed as the permitted and planned windfall development in the area will already overwhelm the limited resources and infrastructure of the Blackmore area. There are better alternative sites both within the village/Parish and the wider Brentwood Borough area. Honeypot Lane (022) was previously removed from the Local Plan which is a better location due to it being on the edge of the Brentwood urban area, surrounded by existing housing, providing c200 houses. This should be reinstated as it would allow R18, R19, R25 and R26 to be removed whilst not adding the burden on R01. R25 and R26 equate to 49% of the Green Belt release in larger villages. Brentwood and Shenfield urban area are identified as having the highest housing need, yet two sites (R18 and R19) have now had the number of dwellings reduced. Blackmore remains classified as a Category 3 settlement (larger village). Our population numbers are much lower than many other villages in this category which have sufficient infrastructure and resources that Blackmore lacks. We do not need anymore houses in Blackmore as we are a sustainable Village as we are, anymore Housing would be horrendous for this village. Would have to mention more Traffic, Flood Risk, Doctor Services, School etc.

Change To Plan:

Legally Compliant?: No      Duty to Co-operate?: No      Sound?: No      Tests: None      Examination: Not Specified

Full Reference: O - 26864 - 8118 - Policy R26: Land North of Orchard Piece, Blackmore (page 300) - None

**26890 Object****Respondent: Cllr Roger Keeble [1990]****Agent: N/A**

Summary: I agree that the information given by me in the February 2019 consultation can be shared with the planning inspectorate and programme office. That the allocations on both sites R25 and R26 are contrary to both national and local policies. The required housing need can be found on sites that already exist on land that exists in urban areas. Blackmore is classified as a larger village which is unsound and this is inconsistent with the NPPF Feb 2019, is not effective or justified. The area including Redrose Lane is liable to flooding, has poor access and will result in an increase in housing stock that is not in accordance with the present number of present properties and will add approximately 25% to the village size. Epping Forest District Council is continuing to build on their extreme boundaries around Blackmore almost doubling the BBC LDP requirements on R25 and R26. These properties will directly impact on Blackmore Village facilities and services. The school, doctors surgery and sewerage system are already oversubscribed. R25 and R26 are situated on very good Green Belt land and there are no special circumstances for building on these sites. The Brentwood Replacement Plan 2005 tightly restricts development on Green Belt land. The R25 and R26 sites are "developer led" as admitted at Blackmore Village Hall meeting by senior planning officers. There is no evidence of a housing need in Blackmore. Regularisation of the Oaktree Farm Gypsy and Traveller site is not reflected anywhere else in the borough and again puts more strain on the local infrastructure.

Change To Plan: R25 and R26 have been discounted most recently as 2016 as unsuitable. There has been no change in circumstances locally to allow development here. Draft Policy SP02 refers to direct development in highly accessible areas R25 and R26 are in a very rural situation with poor transport connections. There are far more sustainable sites in the borough that could easily accept the 50 houses proposed in R25 and R26. These are in Shenfield, Pilgrims Hatch, Ingatestone and Brentwood where infrastructure is already in place. There is documentary evidence for a housing need but not for the villages which include Blackmore. There are other brownfield sites in the borough before Green Belt land is even considered for development and the inclusion of R25 and R26 runs contrary to this. The Green Belt should be respected in both these sites and therefore R25 and R26 should be removed from the LDP.

Legally Compliant?: No

## 26895 Object

Respondent: L Apostolides [8836]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 4 - PART A POLICY R25 - Land North of Woollard Way, Blackmore. Greenfield and Green Belt. (36% of total responses, March 2019). To be read in conjunction with Focussed Change 5 - All comments apply to both sites. Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree

The GP surgery can not cope with the number of patients now and the schools are not large enough for more children

Change To Plan: sites R25 and R26 should be withdrawn from the LDP

## 26900 Object

Respondent: Mr Alex Atkins [8126]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26) To be read in conjunction with Focussed Change 4 (above). All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree

## 26938 Object

Respondent: Mrs Gillian Hall [8684]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26) To be read in conjunction with Focussed Change 4 (above). All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree

Change To Plan: Remove R25 & R26

## 26944 Object

Respondent: Mr Harry Austin [8839]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26) To be read in conjunction with Focussed Change 4 (above). All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). ## 26977 Object

Respondent: Ms Anne Adkins [8735]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26) To be read in conjunction with Focussed Change 4 (above). All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

## 27021 Object

Respondent: Mrs Janet Barfoot [7200]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26) To be read in conjunction with Focused Change 4 (above). All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree

Blackmore is a small village that is already 'bursting at the seams' with people and cars. I live in central Blackmore and I am already shocked by the sheer volume of traffic going through the village day and night. I often have people parking over my drive to access the Co-Op, Leather Bottle and tearooms because there isn't enough space to park. The number of children that walk to school is huge, but yet there is already SO many cars driving through the village at high speed. I tried to call Dealtree Surgery yesterday, and could not get through (8 times throughout the day). Another reason to not build more dwellings. The village cannot fit more dwellings! There are so many other spaces where places can be built; this just does not make sense. Please do not ruin this village!

Change To Plan: Remove R25 and R26 from plan

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

## 27055 Object

Respondent: Mr Thomas Barrett [8842]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26) To be read in conjunction with Focussed Change 4 (above). All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree. Please preserve our beautiful villages. Once these developments have taken place there is no turning back. We can not restore what has been destroyed. Blackmore has history dating back to Henry VIII and deserves to have its beauty preserved. Blackmore is a picturesque village which does not have the infrastructure to support these extra homes. The school is already full to capacity with no space to extend. These extra houses will cause congestion on the roads and will spoil the beauty of this village. The five parishes as a whole are a beautiful part of Brentwood. There are plenty of opportunities to build closer to the town which will not ruin the countryside feel of the local villages

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree

Change To Plan: Remove R25 and R26 from plan

## 27091 Object

Respondent: Mr James Baur [8845]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26) To be read in conjunction with Focussed Change 4 (above). All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree

Blackmore village cannot cope with any further increases in population. There are already developments going ahead that will place further strain on the limited resources in our village.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree

Blackmore is a wholly inappropriate site for further development. This historic village should be preserved from any more development in order to retain its authentic village atmosphere and history. Quite apart from the aesthetic reasons, there is simply no infrastructure to support such an expansion of the population. There are very limited services available to the residents as it is - the local store cannot cope with the parking demands and the Post Office 'service' is abysmal. A serious road traffic accident is bound to happen at some point in the village and increasing the population will only make this much more likely. The Deal Tree Heath Centre is under great pressure coping with the demands of the existing parish residents without any more joining the ranks. I don't have children of school age but it's likely that Blackmore school cannot cope with increased demand for places. Additionally the increase in traffic on the country lanes makes the area a much more dangerous place to live. Please immediately scrap the plans for expansion of Blackmore village.

These development options have not been accurately assessed for the impact on their surroundings and existing residents. The plans need to be urgently reassessed.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree

Blackmore has already been developed to maximum capacity. Despite this further development has been allowed and is currently being processed. Blackmore needs to retain its village identity and heritage. There is a lack of services for the existing population without any more people adding to the problems we already have. The roads in and out of Blackmore are unsuitable for heavy traffic and accidents are bound to happen. The doctor's surgery cannot cope with existing demand let alone even more patients. There is one village store that tries and fails to meet everyone's needs. It is already struggling to provide a Post Office service. Blackmore simply cannot cope with further development.

There are more appropriate sites available in the Brentwood area without developing Green Belt land that will never be recovered. Please STOP this madness now.

Respondent: Mr Gary Bedford [8673]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26) To be read in conjunction with Focused Change 4 (above). All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree

The amount of cars in the village of Blackmore is already a concern and any further housing is going to cause major upsets. Also the problem of getting a doctor's appointment is already so frustrating. Any increase on the Doddinghurst surgery will have people waiting weeks to see the doctor.

Change To Plan: Remove R25 and R26 from the plan

## 27166 Object

Respondent: Mr Andy Davies [8853]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26) To be read in conjunction with Focussed Change 4 (above). All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26) To be read in conjunction with Focussed Change 4 (above). All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

Change To Plan: Remove R25 and R26 from plan

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

Green Belt land should be retained to keep our glorious countryside.

Change To Plan: Remove R25 and R26 from plan

**27243 Object****Respondent: Alison Ratcliffe [8860]****Agent: N/A**

Summary: All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP. There has been a total disconnect between the LDP, and ongoing "normal" planning processes. You cannot create an LDP without looking at all other development opportunities

Change To Plan: Remove R25 and R26 from the Plan. The ECM held at Brentwood BC on 8/11/18, when sites 25 and 26 were formally included in the LDP was undemocratic and flawed, and the debate should be held again and conducted properly

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

The current parking at Fingrith Hall Road is already maximised - and in fact quite dangerous at times - further building will only make the situation worse. The school and doctors are already at capacity. The development at Norton Heath will affect us. The infrastructure cannot cope with the additional homes and in particular Red Rose Lane is an ancient, historical lane, will be ruined.

## 27270 Object

Respondent: Mrs Judith Brewster [8863]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26) To be read in conjunction with Focussed Change 4 (above). All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - Skipped question

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A Skipped this question

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

There are insufficient amenities and services available to people in Blackmore as it is. The result of extra population will cause these to be stretched so far that the village will not be able to cope. We already have very poor broadband (I have 1 mgb at best, normally .65) and no mobile signal.

Plan has not been thought through properly and there needs to be a sensible conclusion.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Skipped this question.

Change To Plan: Remove R25 and R26 from plan

At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP. Brentwood Council has NOT considered all better development opportunities in and around not only this village but across the wider borough area. The LDP should not have been constructed purely around sites proposed by developers, especially when within Blackmore there is no identified housing need in the scale proposed.

Change To Plan: Remove R25 and R26 from the Plan. The LDP, in so far as the 2 Blackmore sites are concerned, was never written strategically and indeed prior to Reg 18 the BBC position was the correct position i.e, R25 and R26 are wholly inappropriate for development. We therefore need to reverse out of Regs 18 and 19 and return us to the correct position as stated in January 2016.

## 27278 Object

Respondent: Mrs Kelly BRITTLETON [8097]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26) To be read in conjunction with Focussed Change 4 (above). All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

Change To Plan: Remove R25 and R26 from the Plan.

## 27320 Object

Respondent: Mr Lawrence Harrington [4778]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26) To be read in conjunction with Focussed Change 4 (above). All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree

Change To Plan: Remove R25 & R26

## 27351 Object

Respondent: Mr Andrew Harris [8628]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 4 - PART A POLICY R25 - Land North of Woollard Way, Blackmore. Greenfield and Green Belt. (36% of total responses, March 2019). To be read in conjunction with Focussed Change 5 - All comments apply to both sites. Greenfield/Green Belt land in a remote village location with inadequate infrastructure. The number of houses has been reduced by 10. For all the reasons stated in March 2019, this site should be withdrawn completely from the LDP. A reduction of 10 houses does not change fundamental problems - in particular the infrastructure and services of the historically significant Blackmore Village will not support this scale of development.

A - I agree - the site should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree

Change To Plan: Remove R25 R26

## 27356 Object

Respondent: Mr. James Harris [8678]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26) To be read in conjunction with Focussed Change 4 (above). All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt.

Change To Plan: Remove R25 R26

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree

## 27391 Object

Respondent: Mrs Helen Haynes [8416]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26) To be read in conjunction with Focussed Change 4 (above). All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree

## 27431 Object

Respondent: Mr Carl Budge [8873]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26) To be read in conjunction with Focussed Change 4 (above). All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

Change To Plan: Remove R25 and R26 from plan

Legally Compliant?: Not Specified

It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

Change To Plan: Remove R25 and R26 from the Plan.

## 27473 Object

Respondent: Mrs Beryl Burgess [5030]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26) To be read in conjunction with Focussed Change 4 (above). All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

**27514 Object****Respondent: Jaqueline Robinson [8883]****Agent: N/A**

Summary: All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

Change To Plan: Remove R25 and R26 from the Plan.

## 27519 Object

Respondent: Ms Jean Bury [8716]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26) To be read in conjunction with Focussed Change 4 (above). All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP. Green Belt must be protected as directed by Central Government. Therefore, the planners should use the brownfield site under development at Redrose Farm as a part of its numbers.

Change To Plan: Deal Tree Health Centre is already operating at figures beyond the optimum number of patients per GP, as outlined in the Brentwood Infrastructure Delivery Plan (IDP). New housing has already impacted this further, with developments in Rookery Road and The Elms in Lower Road Mountnessing, along with travellers who have occupied land on the Chelmsford Road all squeezing Deal Tree Health Centre further. The addition of the proposed new properties in Blackmore under R25 and R26 will further exacerbate the problem.

## 27548 Object

Respondent: Ms Jan Butler [8885]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26) To be read in conjunction with Focussed Change 4 (above). All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

## 27568 Object

**Respondent: Blackmore Village Heritage Association (Mr William Ratcliffe) [4874]**

**Agent: N/A**

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26) To be read in conjunction with Focussed Change 4 (above). All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm). The site should be removed from the LDP. Blackmore is a tiny, remote, village, nowhere near main roads, and the existing population is almost totally dependant on cars. We cannot cope with more traffic movements, especially bearing in mind the nearby developments within EFDC which are right on our doorstep. Redrose Lane is so narrow at the proposed entry point to this site as to make it wholly inadequate. Flood risk remains a major concern.

We support the properly considered, strategic, elements to the LDP, notably Dunton Hills Garden Village. The proposed sites in Blackmore, however, do not constitute "strategic thinking", indeed for all the reasons why Blackmore was excluded from the LDP prior to January 2018, the old strategy was the correct strategy, ie sites R25 and R26 should now be removed. Furthermore, the Honeypot Lane site, which had been included in the LDP prior to Reg 19, needs to be reinstated. It's withdrawal, for largely "political reasons" was also not professional strategic thinking.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety. The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed. At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

Change To Plan: Remove R25 and R26 from the Plan.

## 27611 Object

Respondent: Mr Callum Cartwright [8370]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26) To be read in conjunction with Focussed Change 4 (above). All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

In addition to the current brownfield applications there is also a substantial amount of houses being built on the outskirts of the village which will overwhelm the current resources.

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.

Red Rose Lane is very narrow with no pavement and is not suitable for increased traffic use. The access roads around the proposed developments are regularly used by farm vehicles and further use would be dangerous

Change To Plan: Remove R25 and R26 from plan

## 27623 Object

Respondent: Mr. David Cartwright [7193]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26) To be read in conjunction with Focussed Change 4 (above). All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm). Due consideration has not been given to current brown field opportunities currently being an option. These sites and other developments by Epping council on the village outskirts must be taken into consideration when developing the plan. Green belt must not be built on as it will ruin the fabric of the village and the current resources are not able to support it

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree. The local development plan and the due review process has not been properly considered. There are current developments in process and proposed Brown field sites that will meet the needs. In addition the Dunton Village site is being developed with the full required infrastructure and transport links in place so should be explored to its full potential and Green belt protected .

At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish). Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure. R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01. In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed. Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

Change To Plan: Remove R25 and R26 from the Plan.

## 27638 Object

Respondent: Mr Barry Casswell [8888]

Agent: N/A

Summary: Q - FOCUSSED CHANGE 5: PART A POLICY R26 - Land North of Orchard Piece, Blackmore. Greenfield and Green Belt. (37% of total responses, March 2019 - ie grand total 73% across R25 and R26) To be read in conjunction with Focussed Change 4 (above). All comments apply to both sites. Redrose Farm is a Brownfield redevelopment opportunity (opposite R26) for 12 homes, and it will deliver part of our own Village plan as opposed to digging up Green Belt land. It should therefore replace R26 in its entirety.

A - I agree - Green Belt land should not be built upon and Brownfield should be prioritised (eg Redrose Farm).

Q - FOCUSSED CHANGE 4 - PART B The sites proposed are developer led and still have not been properly assessed against local housing needs. These sites should be removed.

A - I agree - these sites are developer led and should be removed from the LDP.

Q - FOCUSSED CHANGE 4 - PART C At the time of the Addendum, a large number of developments (not included within the LDP) are in various stages of progress. These will further degrade the infrastructure of Blackmore. In particular, there has been inadequate consultation and strategic planning between Brentwood and Epping Forest Councils, with EFDC considering/consenting to; 30 houses are currently under construction in Fingrith Hall Lane (1km from the Village) An additional 5 houses are going through planning in Fingrith Hall Lane There are other EFDC 'infill sites' in Nine Ashes (1km away) Within metres of the village there will be at least 10 large dwellings at Ashlings Farm (the entrance development within Blackmore Parish).

A - I agree - There has been inadequate consultation and sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 4 - PART D Also within Brentwood running through the normal planning process is: Redrose Farm (12 dwellings) on a Brownfield site (see R26 comments) 5 starter units in Spriggs Lane - Approved; PP being sought/appealed in Spriggs Lane/Chelmsford Road, (9 dwellings) and any number of other Greenfield sites/opportunistic PPs sought by farmers and land owners. R25 and R26 should be completely removed from the LDP, as the pre-existing and future normal infill (and windfall) in the Blackmore area means this Village has more than shouldered the appropriate housing burden, which will already overwhelm our very limited resources and wholly inadequate infrastructure.

A - I agree - Sites R25 and R26 should be removed completely from the LDP.

Q - FOCUSSED CHANGE 5 - PART B R26 is also Greenfield/Green Belt, and development is undesirable in the context of better/alternative sites, both within the Village/Parish and the wider Brentwood Council area. A site that was in the LDP (from Jan 2015 - November 2018, when it was withdrawn) is Honeypot Lane (Ref was 022). Identified as 'Green Belt land - edge of Brentwood Urban Area' - an eminently better near town centre site surrounded by existing housing and would provide c200 units. It should be reinstated as this would allow R18, R19, R25 and R26 to be completely removed whilst not adding to the burden on R01.

A - I agree - the Honeypot Lane site should be reinstated.

Q - FOCUSSED CHANGE 5 - PART C SOUNDNESS AND HOUSING NEED: In the Addendum, sites R25 and R26 (c50 dwellings) equate to 49% of Green Belt release in 'larger villages'. Brentwood and Shenfield urban areas are identified as having the highest housing need, yet two sites (R18 and R19) have now had their allocations reduced. Blackmore remains classified as a 'Category 3' settlement ('larger village'). Our population numbers are much lower than many other villages in this category - which have sufficient infrastructure and resources that Blackmore lacks. Blackmore is Green Belt and there is no identified need for additional housing on the scale proposed.

A - I agree - the allocation in Blackmore is disproportionate and unsound.

Q - CONCLUSION: Taking all the above factors into account, I am opposed to building on the Green Belt, and that sites R25 and R26 should be withdrawn from the LDP.

A - Strongly agree.
