

Lining your kitchen bucket

Step 1

Place the kitchen bucket onto two sheets of newspaper.
(or one sheet folded if its a broadsheet paper)
Cut or tear 4 lines as shown.

cut/tear in
4 places

area
represents
bin bottom

Step 2

Fold the centre
parts inwards.

Step 3

Bring the outer
parts (B) & (C)
inwards, and
place (A) down
into the bucket.
(B) & (C) should now
be the walls of the liner
and (A) is the bottom.

Trim

Trim

Step 4

After Step 3 your liner may be a bit creased. This is normal. It is a good idea to trim off excess paper hanging over the edge of the bucket so that the lid is able to close properly.

Extra step

For extra
absorbancy

Fold a sheet as above.
Place inside and tuck the
excess inside the bucket.
