## Appendix 12 – Appraisals - Older People's Housing

The pages in this appendix are not numbered.

**HDH Planning and Development** 

Draft assumptions, appraisals and findings

## **Older People's Housing**

**Private and Confidential.** Not for publication, distribution or circulation

This document sets out the methodology used, the key assumptions adopted and early findings. And had been prepared to assist the Councils with the development of CIL and to engage with stakeholders. This is a confidential, internal document for discussion with the Councils prior to the release of any results of findings and recommendations.

The CIL Guidance requires stakeholder engagement – particularly with members of the development industry. At this stage no such stakeholder engagement has taken place so the assumptions have not been tested. It is more than likely that the assumptions will be altered during the consultation process. Following that consultation process individual reports will be prepared for each Charging Authority to set out the appropriate evidence for CIL Examination.

## Appendix 13 – Appraisals – Non-Residential Development

The pages in this appendix are not numbered.

**HDH Planning and Development** 

Draft assumptions, appraisals and findings

## Non-Residential

**Private and Confidential.** Not for publication, distribution or circulation

This document sets out the methodology used, the key assumptions adopted and early findings. And had been prepared to assist the Councils with the development of CIL and to engage with stakeholders. This is a confidential, internal document for discussion with the Councils prior to the release of any results of findings and recommendations.

The CIL Guidance requires stakeholder engagement – particularly with members of the development industry. At this stage no such stakeholder engagement has taken place so the assumptions have not been tested. It is more than likely that the assumptions will be altered during the consultation process. Following that consultation process individual reports will be prepared for each Charging Authority to set out the appropriate evidence for CIL Examination.
